MDM Report of Bagalkote District: Karnataka

The Monitoring Institute visited 37 schools, 2 KGBVs, and one NGO kitchen to understand the midday meal programme in the district. The two KGBVs visited were at Bagalakote and Badami. One NGO kitchen was at GLPS Guladagudda Thanda. The following report reflects the health of the midday meal programme in the district based on the above visits and observations.

10.1 Availability of food grains: As regards the availability of **buffer stock of foodgrains of one month** in the schools, it was noticed that out of 37 schools they were found to exist and 36 schools but not in one school. This one school happens to be the GLPS Jogyara Thota. It is important that the district ensures that the buffer stock is available in every school.

On the issue of the **timely release of the foodgrains delivered in schools** by the lifting agency, it was found that out of 37 schools it was done in 35 schools but not in 2 schools. These two schools include the following.

1. GLPS Sanalavathi

2. GLPS Jogyara Thota

In these two schools, the lifting agency delivers the foodgrains at the Anganawadi Centres, and from there they will be taken to the school. This arrangement for whatever reasons should be discouraged.

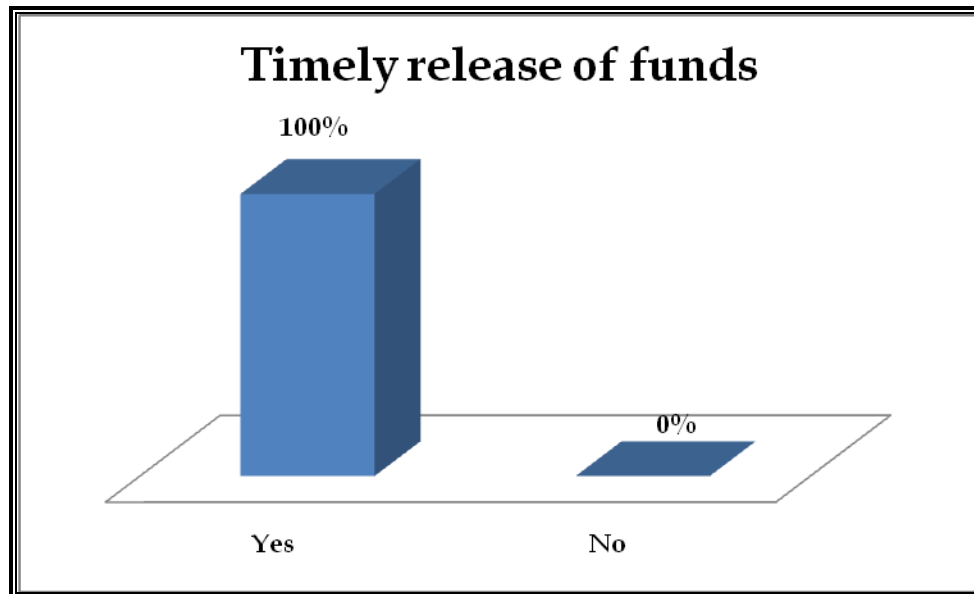

On the issue of whether these foodgrains are of FAQ and **grade A quality**, the monitoring team found it to be yes in 9 schools but not in the remaining 28 schools. There is an urgent need on the part of the district to ensure that the foodgrains lifted should be of A grade quality. The remaining 28 schools where it was not seen include the following.

On the issue of whether the foodgrains are released to the school after **adjusting the unspent balance of the previous month**, it was found to be true in all the 37 schools. It means there is confusion on this issue.

10.2 Timely release of Funds: On the issue of timely release of funds on a regular basis in advance to schools, it was found to be true in all the 37 schools. It means there is no problem on this either.

10.3 Availability of cooking cost: All the schools also receive **cooking cost** in advance regularly in all the 37 schools. There is no problem on that. Further, all schools have indicated that the **mode of payment of cooking costs** is through electronic transfer. *[If all the schools can get is payment through electronic transfer, one is at a loss to understand as to while in SSA funding part 10 schools have indicated that they get the money through Cheque.]*

10.4 Availability of Cook-Cum-Helpers: On the issue of who **engaged Cook cum helpers** at schools, it was learned that in 1 school it was appointed by the Department, in 15 schools it was the SDMC, in 7 schools it was the VEC, in 14 schools it was the PRI. On the issue of whether the cooks cum helpers are engaged in schools as per the GOI norms/state norms, it was found that they are engaged as per norms in 35 schools but not in two schools. These two schools are as follows.

1. GLPS Sanalavathi
2. GLPS Jogyara Thota

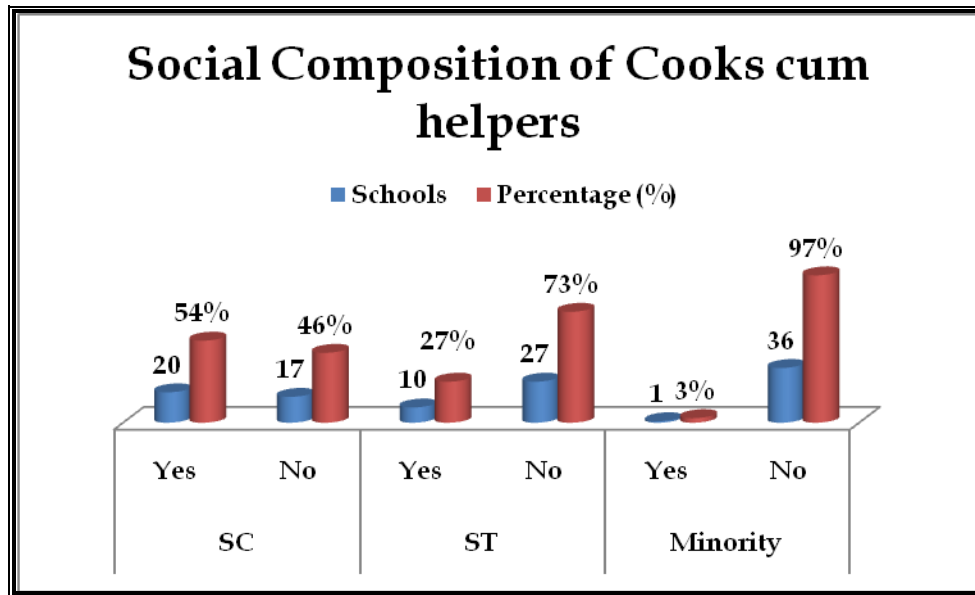

There is a need on the part of the district to look into the issues and set it right to avoid any further embarrassment. As regards the **honorarium paid to cooks cum helpers** it was found that the head cook gets Rs. 1700/- while the helpers get Rs.1600/-. This is inclusive of Rs 100/- from the State governments scheme “*Ksheera Bhagya*”. The State needs to be complemented on its political will to provide milk to all children on alternate days.

On the issue of the **mode of payment to cooks cum helpers**, the data indicates that 10 schools provide cheques, while electronic transfer is used in 27 schools. On the issue of the **regularity of paying remuneration to cooks cum helpers**, it was found that it was a regular in 21 schools but it was not regular on the remaining 16 schools. It is a matter of concern that the schools make it a point to pay remuneration regularly without any break. This is the minimum a school can do to ensure that the cooking staff provides their best services for the midday meal programme. The list of the 16 schools which pay irregularly are as follows.

On the issue of the **social composition of cooks cum helpers** in schools, it was found that the SC cooks cum helpers were present in 20 schools, ST cooks cum helpers were present in 10 schools, and the minority cooks cum helpers were present in one school.

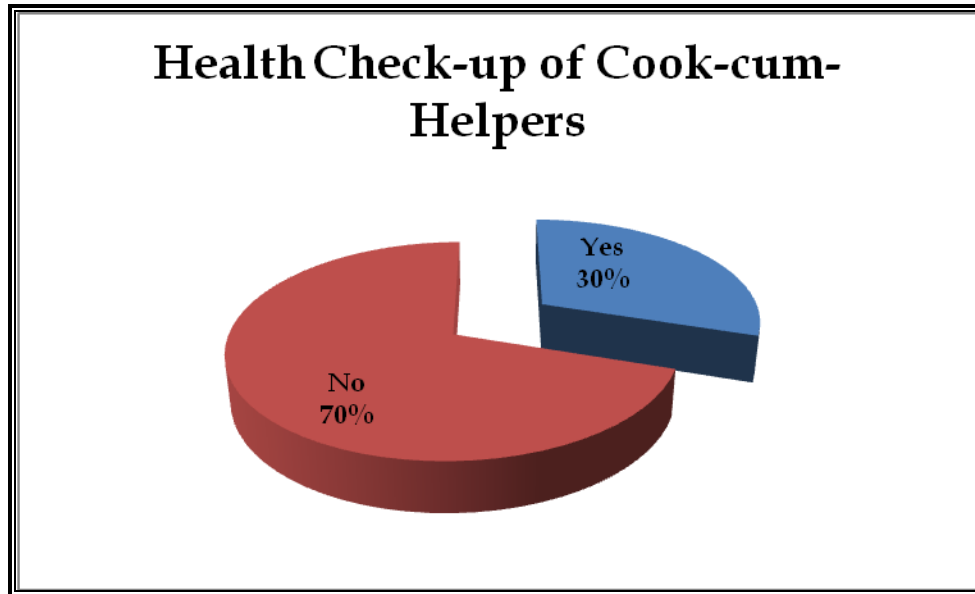

As regards the **availability of the training modules for cooks cum helpers**, it was found that they are available in only 10 schools but not in the remaining 27 schools! The district needs to work on this issue and ensure that all the cooks cum helpers get access to the training modules as well as the training itself. The list of the 27 schools is as follows.

On the issue of whether the cooks cum helpers have received **training**, it was found that in 36 schools they had received some form of training but not in one school. This one school happens to be GLPS Kattithoda Theradala.

On the issue of the **health checkup** of cooks cum helpers, it was found that health checkups were done in 11 schools but not in the remaining 26 schools!

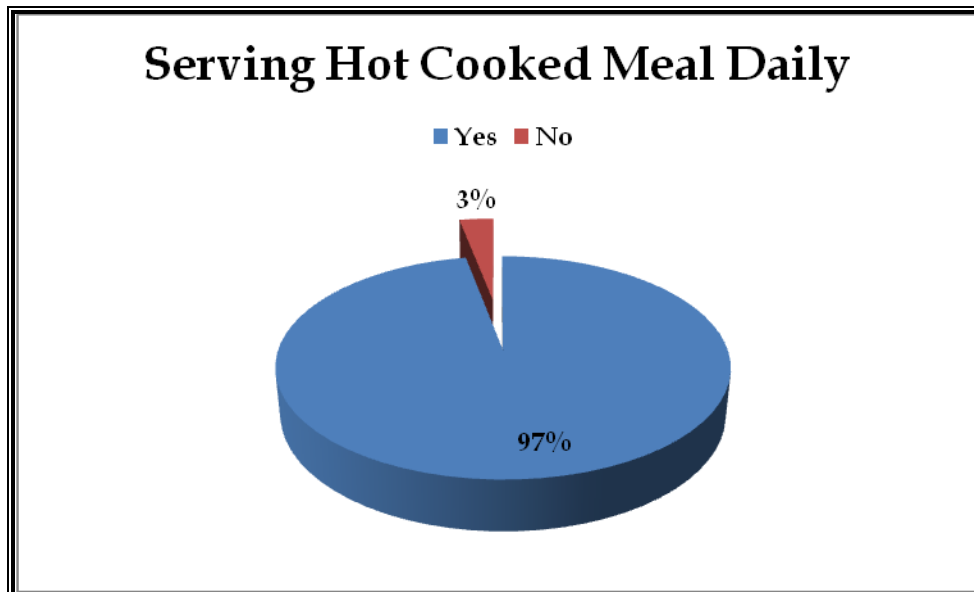

One is at a loss to understand as to how a big chunk of almost 70 per cent of them is not subjected to any health checkup. The district needs to take it up on a priority basis to ensure that in all the schools the cooking staff is subjected to health checkups. This is an important requirement in all the schools and to be construed as an important prerequisite for a healthy midday meal programme in schools. It is hoped that the district takes it up seriously. The list of 26 schools where the health checkup has not been undertaken is as follows.

10.5 Regularity in serving the Meal: On the issue of regularity in serving the hot cooked meal daily, it was found to exist in 36 schools out of 37 schools but not in one school.

This one school happens to be the GLPS Sangondi RC. In the school it was found that due to the **non-availability of foodgrains** the midday meal was stopped for four days from 27-9-2014 to 30-9-2014. This is something which is not expected of any school. If foodgrains are not available in one school, they can always borrow from the nearby

school and repay debt when they get their stock. This is the procedure. The district needs to look into it seriously and ensure that such things do not get repeated in future.

10.6 Quality & Quantity of Meal: On the issue the quality of the meal served to children, children feel that it is very good in 31 schools and it is good in the remaining 6 schools.

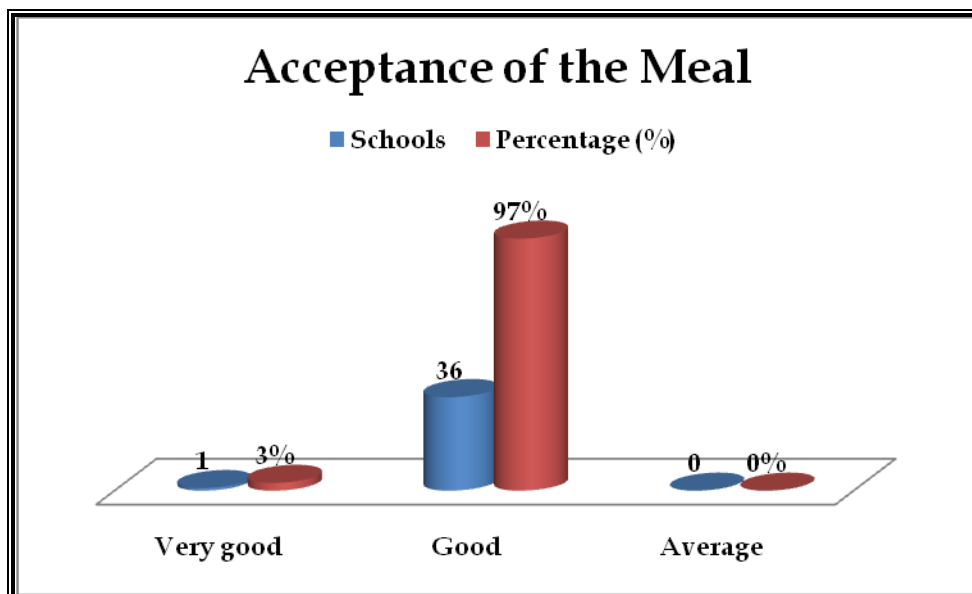

On the issue of the **quantity of the meal**, children are satisfied in all the 37 schools. It means on the issue of quality and quantity of the meal there are no big issues in the district. It was also found that the **quantity of the pulses** used in the meal per child was also sufficient in all the 37 schools. The same was true of the use of **green leafy vegetables** used in the meal per child.

On the issue of the use of **double fortified salt** in schools, it was found that 31 schools use it while the remaining 6 schools do not use this. It is important on the part of the district to provide instructions to all the schools to use double fortified salt as mandatory instruction so that all schools fall in line and children will benefit from that. The names of the six schools which do not use double fortified salt include the following.

No 6 Schools

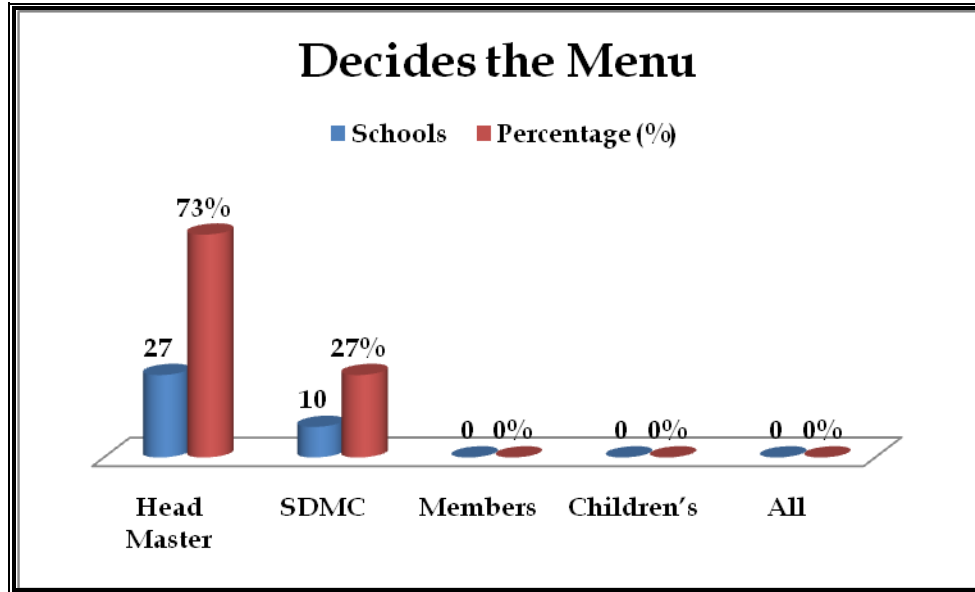

1. GLPS Sangondi R C
2. GLPS Samshi Cross
3. GLPS Injanavari
4. GHPS Ananthagiri L T
5. GHPS Bellikindi
6. GHPS Shiraguppi

On the issue of the **acceptance of the meal among children**, it was found that in one school they have accepted it as very good, and in the remaining 36 schools they have accepted it as good. It means all the schools have accepted the meal provided to children.

The midday meal is served to children using **serving spoons** in all schools.

10.7 Variety in Menu: On the issue of the variety of menu, it is predominantly **decided** by the Headmasters in 27 schools, and it is decided by the SDMC in the remaining 10 schools. On the issue of whether the **weekly menu is displayed** at prominent places noticeable to community, it was found to be true in 13 schools but not in the remaining 24 schools. It is necessary and desirable that all the schools display the weekly menu prominently at places noticeable by the community.

The names of the 24 schools which did not display weekly minnow at prominent places include the following.

| 5. GLPS Yaragatti | 10. GLPS Konnuru |

It is a matter of satisfaction to note that the weekly menu includes **locally available ingredients** and the menu provides required **nutritional and caloric value** per child in all the 37 schools.

10.8 Display of information under RTE act 2009 : On the issue of the display of information under RTE act at the school level in prominent places, the following picture emerges. The children in the schools are predominantly rice eaters. Therefore they get large quantity of rice, required amount of Dal, wheat, oil and salt. On the issue of **display of the balance quantity of foodgrains replaced during the month**, it was found that this information is displayed in 26 schools but not in the remaining 11 schools. It is desirable and mandated that all schools display this information without fail. The district needs to sufficiently train all the school functionaries in managing the midday meal and display of its information accordingly. These 11 schools who did not display this information include the following.

On the issue of the display of information about **other ingredients purchased and utilized**, it is found that 26 schools display them while the remaining 11 schools do not display them. Again this is another issue on which all schools must take it as the responsibility and obligation to put it on the noticeboard. The 11 schools which did not display this information include the following.

On the issue of the **number of children** who take the benefit of midday meal in schools, it was found to be 3799. The number of schools which display daily menu on notice board include 21 schools but not the remaining 16 schools. The district needs to ensure that all schools display this information also. The list of 16 schools which do not display daily menu include the following.

10.9 Trends-Extent of variations as per school records vis-à-vis actual status: It is found that 4436 children have enrolled from among the sampled schools of the monitoring institution. While, the number of children present on the day of the visit of the monitoring institution as per the register was 3594. As per the counting also it was 3594. The number of children who availed midday meal as per the MDM register was also 3594. As per the headcount also it was 3594. Therefore, there was no variation with regard to the number of children who were the MDM beneficiaries.

There was one sampled school GLPS Guladagudda Thanda, which received food from an NGO. This school receives food by 12:30 on all working days. This NGO supplies food to other schools also, but among the sampled schools only one school is covered.

10.10 Social Equity: On the issue of social equity, it was found that children are made to sit on the floor, in rows and then they are served food in all the schools. It is a matter of great satisfaction to place it on record that **there was no gender/ caste/ community discrimination** either in cooking or serving or in seating arrangements among the children. On the issue of social equity the district is completely safe.

10.11 Convergences with other schemes: On the issue of convergence with other schemes, it was found that the **school health cards** are maintained for every child in all the schools. All the children are subjected to **health checkup** once a year. On the issue of whether the children are given **micronutrients** including the Iron, folic acid and Vitamin A, as well as De-worming tablets, it was found that 35 schools provide them

regularly while there are problems in 2 schools. These two schools include the following.

No 2 Schools

1. GLPS Nayanegali L T
2. GLPS Guladagudda Thanda

It must be ensured by the district that all children get micronutrients as well as De-worming tablets periodically. It was found that these **medicines are administered** by the class teachers. The **micronutrients** are supplied ones in two days and the **De-worming medicines** are given once in six months.

On the issue of **recording of the height and weight** of the children which is a part of the school health cards, it is being done in 31 schools but not in the remaining six schools. These six schools include the following.

It was also found that there were **referrals** to specialists in 2 schools during the academic year. However, there were no **medical emergencies** during the monitoring period.

On the issue of the **availability of the medical kits**, it was found that they were available in 9 schools but not in the remaining 28 schools. This is something which is shocking. All the schools are expected to have first aid medical kits, as an essential requirement. In such a case it is astonishing to note that 28 schools in the district does not even have them in their schools. The district needs to make a survey of all schools to see how many schools do not have them and ensure that every school will have them. The list of these 28 schools which did not have the first aid kits is as follows.

On the issue of the **drinking water and sanitation programme**, there were no special convergence programmes in any of the schools. The same picture was true of **MP LAD or MLA scheme**.

10.12 Infrastructure:

10.12.1 Kitchen-cum-store: On the issue of the construction of kitchen shed cum store, it was found to be available in 34 schools but not in the remaining 3 schools. These three schools include the following.

No 3 Schools

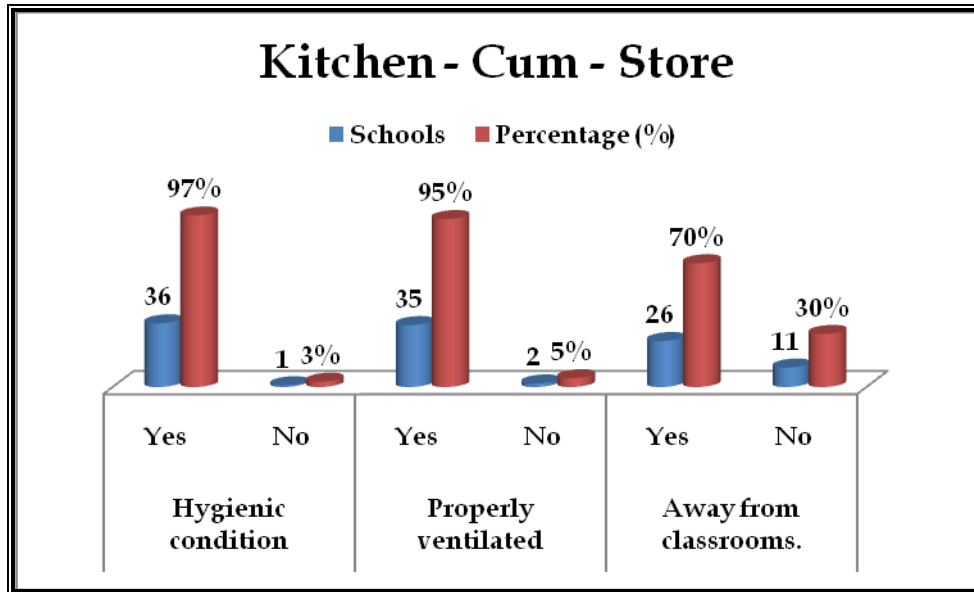

1. GLPS Karoshivastithungala
2. GLPS Bisanalakoppa
3. GHPS Govinakoppa

As regards the **scheme** under which kitchen cum stores is constructed, it was constructed under MDM scheme in 15 schools, under SSA in 7 schools and under other schemes in 12 schools. Only one kitchen is under construction. There is one kitchen which is sanctioned but construction has not started. Wherever pucca Kitchen cum shed is not available the food is being cooked in classrooms.

On the issue of the **condition of the kitchen cum store**, it is in **hygienic conditions** in 36 schools but not in one school. This school happens to be GLPS Bannada Mane. The condition of this school is pathetic. With regard to the **proper ventilation** of the kitchen cum store, it is satisfactory in 35 schools but not in 2 schools. These two schools include the following.

No 2 Schools

1. GLPS Bannada mane
2. GHPS Chikkakodagali L T

On the issue of the **location of the kitchen cum store which is away from classrooms**, it was found that they are away from classrooms in 26 schools but not in the other 11 schools. These 11 schools are as follows.

No 11 Schools

9. GHPS Budinagada
10. GHPS Govinakoppa
11. GHPS Shiraguppi

On the issue of whether MDM is being cooked using the **LPG gas**, it is found that all the schools use LPG gas cylinders. On this issue the district needs to be appreciated. On the issue of whether there was any interruption in the midday meal due to non-availability of the LPG gas cylinders, none of the school was found to have suffered this disadvantage. It means LPG gas supply is not a problem in the district.

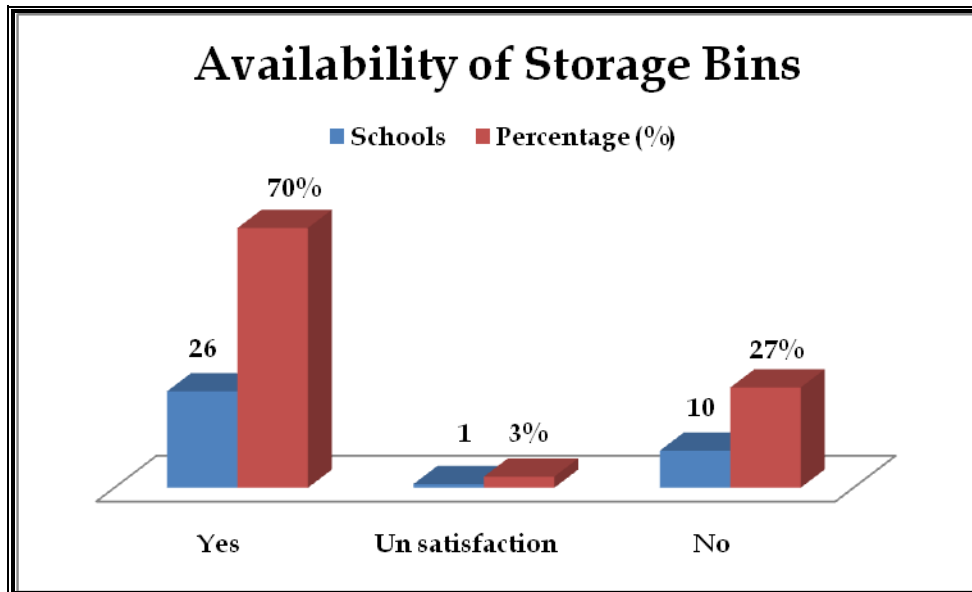

10.12.2 Kitchen Devices: On the issue of whether **cooking utensils** are available in the school, it was found that they were available in all the schools. The **source of funding** of cooking and serving utensils were mainly from Kitchen Devices Fund in 32 schools, from MME funds in 4 schools and in one school from the community contribution. On the issue of **eating plates**, they were found to be available to a satisfactory level in 33 schools but not to the satisfactory level in 4 schools. The list of these 4 schools are as follows.

Unsatisfactory 4 Schools

1. GLPS Injanavari
2. GLPS Yaragatti
3. GHPS Chikkakodagali L T
4. GHPS Ananthagiri L T

It is important on the part of the district to understand that all the schools must have eating plates as a part of the midday meal programme and ensure that all schools have adequate number of them. On the issue of the **source of funding** eating plates, it was found that 19 schools had the funds from an MME grants and 18 schools had the funding from the community contribution.

10.12.3 Availability of Storage Bins: On the issue of the availability of the storage bins for foodgrains, they were found to be available in 26 schools, they were not available in 10 schools and it was unsatisfactory in one school. It is important that all schools pay attention in making storage bins available. The 10 schools where they are not available include the following.

The storage bins have been purchased by different sources in different schools from different funds. They include MME funds, MDM funds, and kitchen devices fund.

10.12.4 Toilets in school: On the issue of separate toilets for boys and girls, it was found that they are available in 29 schools but not in the remaining 7 schools. In 2 schools there are no toilets at all. The list of the seven schools where separate toilets are not available include the following.

No 7 Schools

10.12.4.1 Availability of potable water: On the issue of the availability of potable water, out of 38 schools, it was found to be available in 35 schools, but not in three schools. The list of these three schools includes the following.

No 3 Schools

1. GLPS Guladagudda Thanda
2. GHPS Chikkakodagali L T
3. GHPS Ananthagiri L T

10.12.6 Availability of fire extinguisher: It is a matter of satisfaction to note that **fire extinguishers** are available in all the 38 schools visited by the monitoring institution.

10.12.7 IT infrastructure available at school level: To understand the IT infrastructure available in schools, 20 schools were considered. Among them there were 15 computers available. None of them had the Internet connectivity. None had the IT enabled services.

10.13 Safety and Hygiene: On the issue of safety and hygiene, the **general impression** of the environment appears to be good in 26 schools, and average in 12 schools. Children are encouraged to **wash hands before and after eating** in 36 schools but not in the remaining 2 schools. These two schools are, GLPS Indira Nagara, and GHPS Neelanagara. It was also found that children **take meals in an orderly manner** in 37 schools but not in one school, which is GHPS Neelanagara. On the issue of **conservation of water** it was found that children in 29 schools are conserving water while in the remaining 9 schools they are care less. These nine schools are as follows.

No 9 Schools

| 5. GHPS Budinagada | |

On the issue of whether the **cooking process and storage of fuel are safe and not posing any fire hazards**, it was found that all the 38 schools were apparently safe.

10.14 Community participation: On the issue of community participation, the monitoring institution found that none of the parents participate in the monitoring and supervision of the MDM daily. While, in 13 schools they often participate, and in 19 schools they rarely participate and shockingly there are 6 schools where parents never participate. There is a need on the part of the district to work with all the schools where parents never participate with the monitoring and supervision of the midday meal activity. The six schools among the sampled schools of the monitoring institution where parents never participated include the following.

Never 6 Schools

1. GLPS Mohanapura
2. GLPS Kattithoda Theradala
3. GLPS Dasarahatti, Theradala
4. GHPS Kadlimatti
5. GHPS Lakhamapura
6. GHPS Nelavegi

As regards the **extent of participation of the SDMC members**, the monitoring institution found that they do participate daily in one school, they participate often in

22 schools, they participate rarely in 13 schools and they never participate in 2 schools. These two schools are GLPS Dasarahatti, Theradala and GHPS Lakhmapura.

The **panchayat members** also participate in the midday meal programme of the schools. It was found that they participate often in five schools, and rarely in 10 schools and never in 23 schools. While members of the urban bodies were also found to be monitoring and supervising MDMS often in one school and rarely in one school.

On the issue of **any roster of community members** being maintained for supervision of the MDM, it was found that 11 schools maintain the roster, while the remaining 27 schools do not maintain. The list of these 27 schools is as follows.

There is no any social audit mechanism in any of the schools. It was found that during the monitoring period SDMCs had already met two to six times and in half of their meetings they have also discussed about the the midday meal issues.

10.15 Inspection & Supervision: On the issue of whether the schools maintain **inspection registers**, it was found that they were available in 27 schools but not in the remaining 11 schools. It is mandatory that all schools must maintain inspection

registers. The 11 schools which did not maintain these inspection registers are as follows.

No 11 Schools

1. GLPS Kadesalu thota
2. GLPS Karoshivastithungala
3. GLPS Bannada mane

11. GHPS Ananthagiri L T

It is a matter of satisfaction to note that all the 37 schools have received **funds under MME Component**. On the issue of whether the MDM programme has been inspected by different level state and sub-state functionaries, it was found that only one school said it was inspected by the state officials, 6 schools said they have been inspected by district level officers, and 23 schools said they have been inspected by the block level officers but not the remaining 15 schools even at the block level. The list of these 15 schools is as follows.

No 15 Schools

1. GLPS Kadesalu thota
2. GLPS Karoshivastithungala
3. GLPS Konnuru
4. GLPS Seethamane gudi

11. GHPS Kutukanakeri
12. GHPS Lakhamapura
13. GHPS Nelavegi
14. GHPS Bellikindi
15. GHPS Thodalabagi

One expects that at least at the block level all the schools must be inspected by the block level and sub block level functionaries. If that is not done also then it is a cause of concern. The district needs to impress upon the block level functionaries to supervise and inspect the midday meal programmes in all the schools. Wherever inspections and supervisions have been done by the state level and sub-state level functionaries, it has been noted that they range in the frequency of one to four times.

10.16 Impact : The general impressionistic assessment of the monitoring institution indicates that the midday meal scheme has been able to improve **enrolment, attendance** of children as well as their general well-being of all the children. It is also helping improvement of the **social harmony** and the **nutritional status of children in all the schools.**

10.17 Grievance Redressal Mechanism: On the issue of whether there is any grievance redressal mechanism in the district for midday meal scheme in different schools, it was found that it existed in 28 schools but not in the remaining 10 schools. These 10 schools include the following.

No 10 Schools

- | | |

| 4. GLPS Sanalavathi | 9. GHPS Chikkakodagali L T |
| 5. GLPS Jogyara Thota | 10. GHPS Hosakote |

On the issue of whether there are **toll free numbers** available at the district, block, school levels, it was found that they existed in 21 schools but not in the remaining 17 schools. This is surprising. In fact all schools must have toll free numbers. The district must work with all the schools in the district to ensure that all schools have toll free numbers. The 17 schools where these toll free numbers are not available include the following.

No 17 Schools

1. GLPS Kadesalu thota
2. GLPS Karoshivastithungala

It is only hoped that the district would be able to appreciate the observations of the monitoring institution in making the midday meal programme effective in the district.

**First Half Yearly MDM Monitoring Report of
RIE, Mysore, Karnataka, for the period of
2014-2015**

Prof. C G Venkatesha Murthy
Nodal Officer, & Coordinator
Chikkamagalore

Regional Institute of Education, (NCERT)
Manasagangotri, Mysore

2015

MDM Report of Chikkamagalore District in Karnataka

10.1 Availability of food grains: As regards the **availability of the buffer stock of foodgrains** for one month, it was found to exist in all the 40 schools visited by the monitoring team. On this issue the district deserve appreciation.

With regard to the **delivery of the foodgrains to schools in time** by the lifting agency also, it was found that it is being done in all the 40 schools visited by the monitoring team. Paradoxically, in none of the schools the **FAQ Seal** was present on any of the bags. But the quality of the foodgrains was good. It is a matter of satisfaction to see that the district released foodgrains after adjusting the unspent balance of the foodgrains of the previous month in all the schools.

10.2 Timely release of Funds: It is a matter of great satisfaction to note that the funds are released and they reach the district/blocks/ schools regularly in advance in all the 40 schools visited by the monitoring team. On this issue the district needs to be appreciated.

10.3 Availability of cooking cost: It was also found that the cooking cost is received in advance regularly in all the 40 schools visited by the monitoring team. The district needs to be complimented on this also.

10.9 Trends-Extent of variations as per school records vis-à-vis actual status: As

regards the trends in the extent of variation vis a-vis as per records, the figures are as follows. The total numbers of enrolled children were 2975 in all the 40 schools which have been sampled by the monitoring institution. The number of children present on the day of the visit as per the register was 2461. As per the counting also it was 2461. The number of children availing MDM as per the the register was also 2461. As per the headcount, the number of children availing MDM on the day of the visit was also 2461. It means that there was no variation as regards the numbers maintained by MDM register or the headcount done by the field investigators of the monitoring team. On that count, there are no issues in the district.

10.10 Social Equity: On the issue of **social equity**, it was found that children are made to sit in the corridor in front of their own classrooms and they are served food. They have the system of having food after a brief mass prayer. It is a matter of great satisfaction to record that there was **no discrimination** either of gender or caste or the community, either in cooking or serving or in seating arrangements. The district is completely safe on the Social Equity front.

10.11 Convergence with other schemes: With regard to the convergence with other schemes, it was found that the School Health Cards were maintained in all the 40 schools visited by the monitoring team. It was also noted that the health checkups were done once a year. Micronutrients including the Iron, folic acid and Vitamin- A were

distributed periodically in 35 schools but not in the other 5 schools. The district needs to ensure that children get them in all schools. These 5 schools include the following.

With regard to the **distribution of spectacles to children** suffering from reflective errors, it was found that it was needed in only 4 schools. Among them, it was distributed in 3 schools but not in 1 school. The schools which did not distribute was GHPS Bhaktarahalli, Chickamagalore.

As regards the **drinking water and sanitation programme** it was satisfactorily found in 37 schools but not in 3 schools. The district needs to work with these schools to ensure a satisfactory drinking water and sanitation programme. The names of these three schools include the following.

No 3 Schools

1. GHPS Shanthinagara, Chikkamagalore
2. GHPS Govindapura, Chikkamagalore
3. GHPS Magadi, Chikkamagalore

On the issue of the **convergence with the MP LAD / MLA scheme**, it was not found to exist in any of the schools.

10.12 Infrastructure: The monitoring institution observed the following under the infrastructure.

10.12.1 Kitchen-cum-store: Out of 40 schools visited by the monitoring institution, it was found that Pucca kitchen shed cum store existed in 36 schools but not in the 4 schools. The district needs to immediately take correctives in ensuring that all schools have pucca kitchen shed cum stores. These four schools include the following.

No 4 Schools

1. GHPS Samathala, Tharikere
2. GHPS Mallanduru,
Chikkamagalore
3. GLPS Vagadekallu, N R pura
4. GHPS N R pura Town, N R Pura

Further it was also learnt that these **kitchen cum stores** are constructed under different schemes. 11 kitchen cum stores are constructed under MDM, 6 under SSA and 19 under other schemes. In 4 schools cooking is done inside the classrooms. Further, the kitchen cum store was under construction in one school. In four schools the food was being cooked in classrooms as the pucca kitchen cum store was not available in them. It was also noted that **foodgrains and other ingredients were stored** in Headmaster's rooms, stockrooms and also in classrooms. With regard to the **hygienic condition** of the kitchen cum stores, it was found to be satisfactorily in all the schools.

With regard to the **proper ventilation**, it was found to be satisfactory in 38 schools but not in 2 schools. These two schools include the following. (1) GLPS Govindapura, Chikkamagalore and (2) GHPS Shanthinagara, Chikkamagalore. On the issue of whether **kitchen cum store were away from the classrooms**, it was found to be

true in 30 schools but not the remaining 10 schools. These 10 schools include the following.

No 10 Schools

1. GHPS Samathala, Tharikere
2. GLPS Govindapura, Chikkamagalore

10. GHPS N R pura Town, N R Pura

On the issue of whether MDM was being cooked using **LPG or by firewood**, it was found that in 39 schools LPG cylinder is used while in one school, firewood was used in the district. This one school was GHPS Aduvalli, NR Pura. This needs to be checked and avoided by the district. On the issue of whether there was **any interruption due to non-availability of the firewood or LPG** in any of the sampled schools; it was found that it had not stopped in any school. The district needs to be complimented on this performance.

10.12.2 Kitchen Devices : As regards the availability of the adequate **cooking utensils** in the schools, it was found to be adequate in 36 schools but not in the remaining 4 schools. These four schools include the following.

No 4 Schools

1. GLPS Rangapura, Tharikere
2. GHPS Gonibeedu, Mudigere
3. GHPS N R pura Town, N R Pura
4. GHPS Gowdahalli, Mudigere

The district needs to ensure that the problem of **nonavailability of adequate cooking utensils** must not pose an impediment for not been able to serve quality MDM to children. Therefore it is necessary that all precautions need to be taken to ensure that the cooking utensils are available in all the schools.

With regard to the **source of funding for cooking and serving utensils**, it was found that they have purchased them from the kitchen devices fund in 33 schools while in the other 7 schools they have purchased from the MME funds.

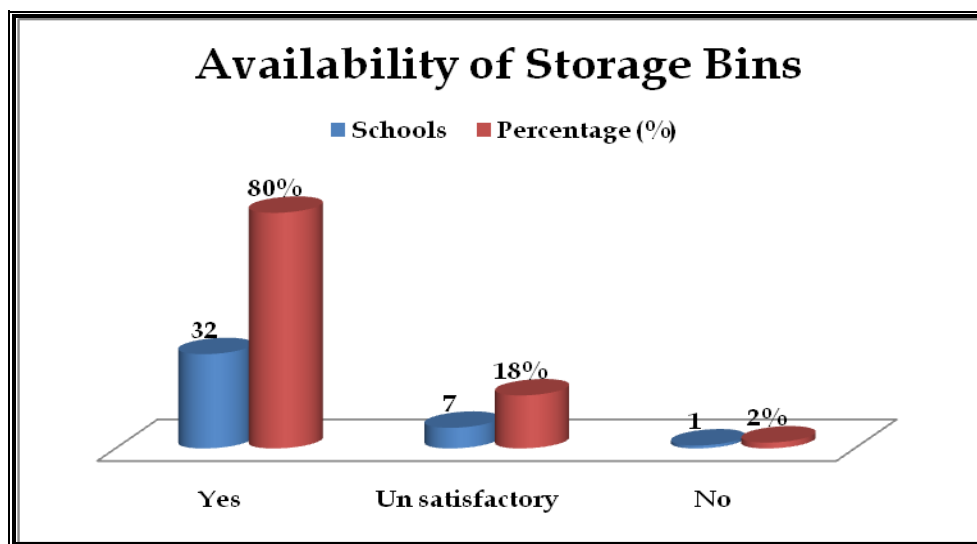

On the issue of **adequate number of eating plates** in the schools, it was found that it was adequate in 33 schools but not in the remaining 7 schools. There is a need on the part of the district to look in to this issue and ensure that all schools have adequate number of eating plates. The 7 schools where it is not satisfactorily available include the following.

Unsatisfactory 7 Schools

1. GHPS Baktharahalli, Chikkamagalore
2. GHPS Mallanduru, Chikkamagalore
3. GHPS Shanthinagara, Chikkamagalore
4. GHPS Magadi, Chikkamagalore
5. GHPS Medharahalli, Chikkamagalore
6. GLPS Huchanahatti, Tharikere
7. GHPS Kalasa, Mudigere

With regard to these **sources of funding to eating plates** wherever they were available, it was found that the source of funding was MME funds in 10 schools and it was community contribution in the remaining schools.

10.12.3 Availability of Storage Bins: As regards the availability of the storage bins in schools it was found to exist satisfactorily in 32 schools, it was unsatisfactory in 7 schools and it did not exist in one school.

The seven schools where it was not satisfactory includes the following.

Unsatisfactory 7 Schools

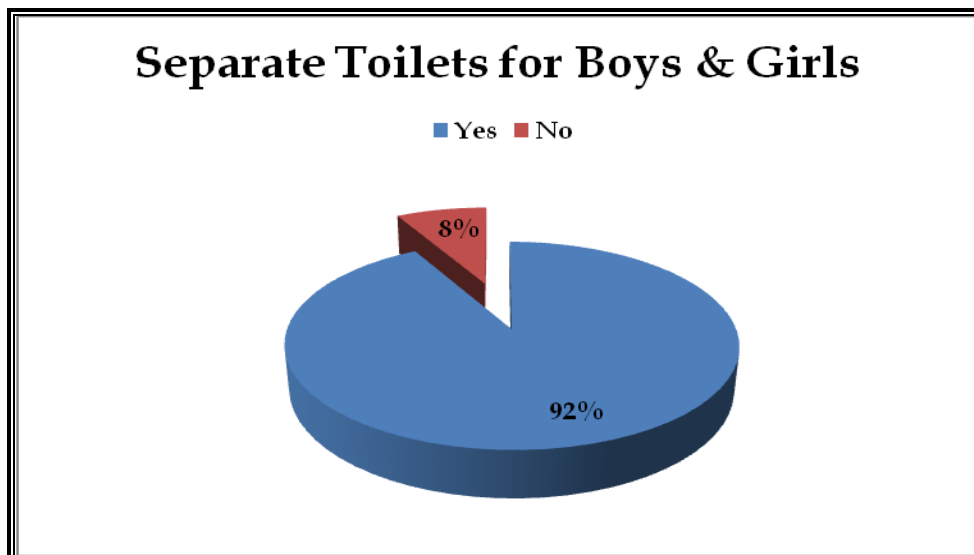

1. GLPS Mahal, Chikkamagalore
2. GLPS Govindapura, Chikkamagalore
3. GHPS Gonibeedu, Mudigere
4. GHPS Karthigere, Chikkamagalore
5. GHPS Devadana, Chikkamagalore
6. GHPS Shanthinagara, Chikkamagalore

One school where storage bins did not exist was GHPS Kalasa, Mudigere. The district needs to do something about procuring storage bins which is of a satisfactory level in all schools. Wherever storage bins are available, they have been procured from kitchen devices fund and SSA grants.

10.12.4 Toilets in school: As regards the availability of **separate toilets for boys and girls**, it was found to exist in 37 schools but not in three schools. These three schools include the following.

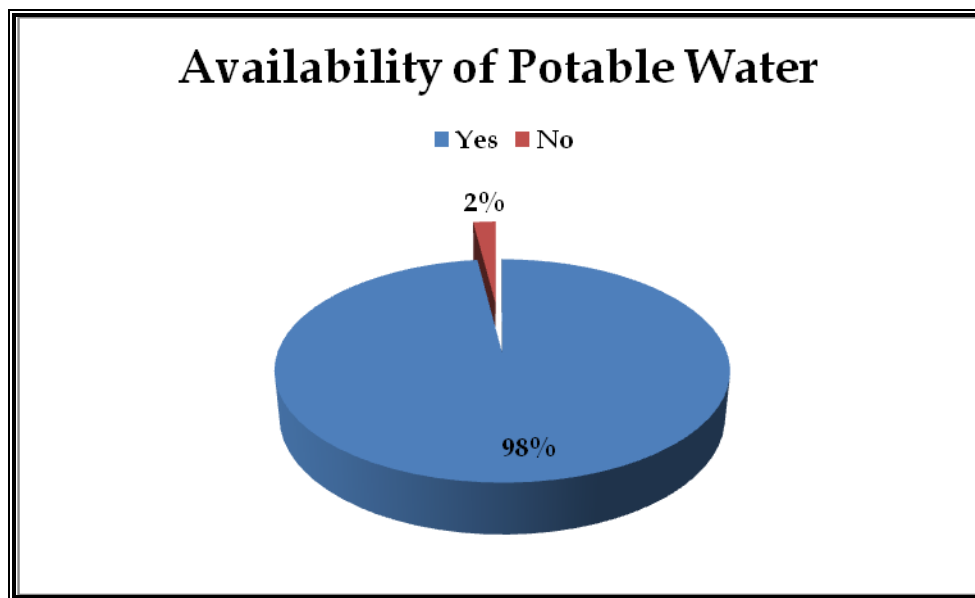

No 3 Schools

1. GLPS Kabbigarahalli, Chikkamagalore
2. GLPS Chakalumane, Chikkamagalore
3. GHPS Aramane Thalaguru, Mudigere

As regards the **usability of the toilets**, it was found that they were usable in 39 schools but it was not so in one school which was GHPS Shantinagara, Chickamagalore. There is a need on the part of the district administration to look into this school and also see to it that all schools have usable toilets.

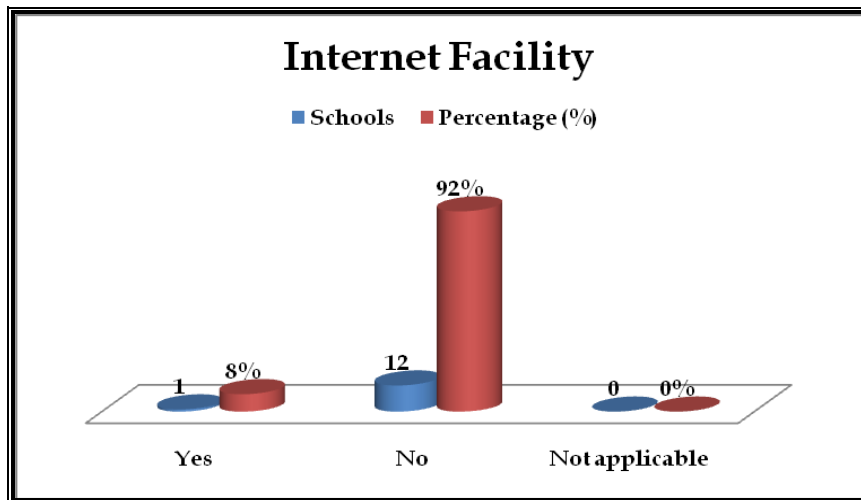

10.12.5 Availability of potable water: With regard to the availability of **potable water**, it was found to exist in 39 schools in one or the other form through either tap/ tube well/ hand pump/ well /jet pump, while in one school it was not available. It was GHPS Magadi, Chickamagalore. In this school, water is being supplied through mini water tank that is being used by the local people.

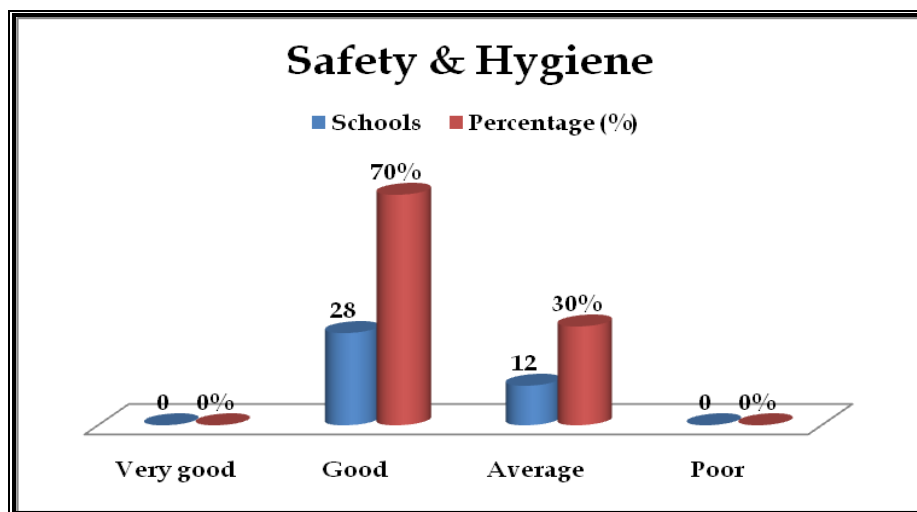

10.12.6 Availability of fire extinguisher: It was a matter of great satisfaction that all the 40 schools visited by the monitoring institution had fire extinguishers. The district needs to be complimented on this issue.

10.12.7 IT infrastructure available at school level: Out of the 40 schools visited by the monitoring institution, there were 13 schools which had computers. From them there were 58 computers available. Among them in only one school there was internet

connection but not in the remaining 12 schools. While, none of the schools had any IT /IT enabled service-based solutions/ services in schools.

10.13 Safety and Hygiene: As regards the **general impression of the safety and hygiene**, it was found to be good in 28 schools and average in 12 schools.

On the issue of whether children are **encouraged to wash their hands** before and after eating food, it was found that 38 schools encourage while 2 schools do not seem to encourage. These two schools include the following.

No 2 Schools

1. GHPS Shanthinagara, Chikkamagalore
2. GHPS Gonibeedu, Mudigere.

There is a need on the part of the district to attend to not only these two schools but also other schools in the district where children are not encouraged to wash their hands before and after the meal.

On the issue of whether children **take meals in an orderly manner**, it was a matter of great satisfaction that children were taking meal in an orderly manner in 39 schools out of the 40 schools but not in one school which was GHPS Shantinagara, Chickamagalore.

On the issue of whether **children conserve water**, it was found that in 31 schools children conserve water but not in the remaining 9 schools. This is something on which the district needs to address this issue not only in these nine schools but also in all other schools. The list of these schools includes the following.

No 9 Schools

On the issue of the participation of the **VECs in the MDM programme**, it was found that in only one school they rarely participate, while in all the 39 schools they never participate. While, the panchayats rarely participate in the MDM programme in 14 schools and there never participate in the remaining 26 schools.

With regard to the **roaster of community members** being maintained for supervision of MDM programme, it was found in 21 schools but not in the remaining 19 schools at all. These 19 schools include the following.

With regard to the **social audit mechanism** in schools, it was not found to exist in 39 schools out of 40 schools. There is a need on the part of the district to immediately do something to bring in the element of social audit mechanisms in the MDM programme and its implementation.

On the issue of the **number of SDMC meetings held** during the monitoring period, it was noticed that there were meetings up to eight times. It is a matter of happiness to note that in all these meetings one or the other issue related to MDM were invariably discussed.

10.15 Inspection & Supervision: It is a matter of satisfaction to know that the **inspection registers** are available in all the 40 schools visited by the monitoring team. It was equally interesting to note that all the 40 schools had received the **MME funds**. On the issue of the MDM programme being inspected by officers at different levels at the state and sub state level functionaries, it was noted that none of the schools was inspected and monitored by the state level functionaries, while, only three schools were

inspected and monitored by the district level functionaries, and 19 schools were monitored and inspected by the block level functionaries. The frequency of such inspections ranged from one time to five times.

10.16 Impact : The impressionistic feedback suggests that it has helped to improve the enrolment in all the 40 schools, apart from enhancing the attendance and general well-being of children. It was also felt to that the MDM has helped in the improvement of social harmony. It has also helped in the improvement of nutritional status of children.

10.17 Grievance Redressal Mechanism: It is a matter of great satisfaction to note that the Grievance Redressal Mechanism exists in all the 40 schools visited by the monitoring institution and all the schools have the toll free numbers to communicate in case of any emergency. The district deserves to be complimented on this.
