Head of Division of Political Science & Public Administration  
and

*Nodal Officer*

**State Monitoring Institution for SSA, Bihar**

**A. N. Sinha Institute of Social Studies, Patna – 800 001**

## PREFACE

Mid Day Meal scheme is one of the flagship programmes of government of India in the field of social sector. It has to its credit many laurels. No wonder why it is the largest ever a school-lunch programme in the world. It currently caters to more than 12 crore children across the country. Needless to say that it has benefited poverty ridden populace of this country to the most. Not only in terms of providing food, it has in effect, contributed in expanding the base of school going children in rural areas. There may arguably be various other factors in expanding the number of school going children but its contribution is large enough without any further debate; this is for sure. The socially disadvantaged groups are supposed to be the real target groups of this programme. But the success of this programme is still highly debated, given the ground realities of field situations. Obviously, it needed some kind of monitoring and evaluation.

The MHRD chose to couple up such monitoring programme of MDM with SSA which is being presently conducted by various premier academic institutions of this country. A. N. Sinha Institute of Social Studies (ANSISS), Patna is one of them which has been entrusted with this job along with the monitoring of SSA in Bihar. Jamia Milia Islamia (JMI), New Delhi is also conducting it for half of the districts of Bihar along with us. In the 1<sup>st</sup> phase of 2010-11, four districts namely Jamui, Lakhisarai, Munger and Sheikhpura were taken up for the monitoring and supervision and the report was submitted to MHRD, Government of India. In the 2<sup>nd</sup> phase of 2010-11, next five districts namely Arwal, Katihar, Muzaffarpur, Patna and Vaishali were taken up for the monitoring and supervision and the report was submitted to MHRD, Government of India. In the 1<sup>st</sup> phase of 2011-12, next five districts namely *Begusarai, Khagaria, Samastipur, Saran and Siwan* were taken up for the monitoring and supervision.

The report for this phase was prepared after collecting the data obtained through monitoring visits of our team in sampled schools of selected districts and on the basis of the data as provided at the SPO and DPO levels.

The report has also been prepared with combined efforts and cooperation of the research team members working on this project. I acknowledge the efforts of our Senior Research Officer, **Dr. Surendra Prasad Jaiswal** and other three Research Officers namely **Ms. Mukta Sinha, Sri Mithilesh Kumar and Dr. Upendra Pd. Rajak**.

Special thanks are acknowledged to the Bihar Education Project Council, Patna. We also thank Sri Ravi Shankar Singh, the Programme Officer, for extending his full logistics support and cooperation to us. Our thanks are also due to Sri Rahul Singh, IAS, the SPD, Bihar Education Project Council, Patna and also to the SPD of MDM, Patna.

The District Superintendents of Education, the BRCCs & CRCCs and the Head Masters, teachers, VSS members of the schools and other community members of coverage area of the schools, they all provided very active support to us. We express our thanks to all of them.

However, in the entire effort of our monitoring and evaluation, the Director of our Institute, Prof D. M. Diwakar provided an active administrative and erudite support to us without which the given study would never have been possible. I express my deepest thanks to him on successful completion of this part of our study.

**AJAY KUMAR JHA**

(ii) Number of children availed MDM as per MDM register	10, 927	10, 069	4, 922	7, 011	12, 253
(iii) Number of children availed MDM on the day of visit	10, 927	10, 069	4, 922	7, 011	12, 253
(iv) Number of children availed MDM	9, 507	10, 725	6, 059	7, 461	12, 411

	Begusarai District (1)	Khagaria District (2)	Samastipur District (3)	Saran District (4)	Siwan District (5)
on the previous day of visit					

## 2. Regularity in supply of Food grain:

	Begusarai District (1)	Khagaria District (2)	Samastipur District (3)	Saran District (4)	Siwan District (5)
(i) Is school/ implementing agency not receiving food grain regularly? If there is delay in delivering food grains, what is the extent of delay and reasons for the same?	<ul style="list-style-type: none"> <li>In 30 (75%) sampled schools were not receiving food grains regularly in Begusarai district.</li> <li>None availability of rice with dealer.</li> </ul>	<ul style="list-style-type: none"> <li>In 28 (70%) sampled schools were not receiving food grains regularly in Khagaria district.</li> <li>None availability of rice with dealer.</li> </ul>	<ul style="list-style-type: none"> <li>In 18 (45%) sampled schools were not receiving food grains regularly in Samastipur district.</li> <li>None availability of rice with dealer.</li> </ul>	<ul style="list-style-type: none"> <li>In 22 (55%) sampled schools were not receiving food grains regularly in Saran district.</li> <li>None availability of rice with dealer.</li> </ul>	<ul style="list-style-type: none"> <li>In all (40) sampled schools were not receiving food grains regularly in Siwan district.</li> <li>None availability of rice with dealer.</li> </ul>
(ii) Is the quality of food grain FAQ?	The quality of food grains was found average in majority of (31) schools (77.5%).	The quality of food grains was found average in majority of (30) schools (75%).	The quality of food grains was found good in 4 (10%) schools, average 11 (27.5%) schools and poor in 3 (7.5%) schools.	The quality of food grains was found average in majority of (33) schools (82.5%).	Average
(iii) Is buffer stock of one-month's requirement maintained?	Buffer stock of one month's requirement was maintained by 29 (72.5%) schools of Begusarai district.	Buffer stock of one month's requirement was maintained by 23 (57.5%) schools of Khagaria district.	Buffer stock of one month's requirement was maintained by 18 (45%) schools of Samastipur district.	Buffer stock of one month's requirement was maintained by 22 (55%) schools of Saran district.	Buffer stock of one month's requirement was maintained in all (40) sampled schools of Siwan district.
(v) Is the food grains delivered at the school?	Yes	Yes	Yes	Yes	Yes

## 3. Payment of Cost of food grain to FCI:

	Begusarai District (1)	Khagaria District (2)	Samastipur District (3)	Saran District (4)	Siwan District (5)
<b>(a) Enabling conditions:</b>					
(i) Is payment of cost of food grain to FCI made monthly? Which the stipulated time?	Data not given	Data not given	Data not given	Data not given	Data not given
(ii) Has payment of cost of food grain to FCI made for the previous month	Data not given	Data not given	Data not given	Data not given	Data not given
(iii) Reasons for	Data not given	Data not given	Data not given	Data not given	Data not given

	Begusarai District (1)	Khagaria District (2)	Samastipur District (3)	Saran District (4)	Siwan District (5)
irregular payment, if any					

#### 4. Regularity in Delivering Cooking Cost at the school level:

	Begusarai District (1)	Khagaria District (2)	Samastipur District (3)	Saran District (4)	Siwan District (5)
(i) Number of schools /implementing agency receiving cooking cost in advance regularly?	In 36 (90%) sampled schools of Begusarai district were receiving cooking cost in advance regularly.	In 37 (92.5%) sampled schools of Khagaria district were receiving cooking cost in advance regularly.	In all (40) sampled schools of Samastipur district were receiving cooking cost in advance regularly.	In 35 (87.5%) sampled schools of Saran district were receiving cooking cost in advance regularly.	In 38 (95%) sampled schools of Siwan district were receiving cooking cost in advance regularly.
(ii) If there is delay in delivering cooking cost what is the extent of delay and reasons for it?	Block Resource Person of MDM did not provide cheque in time.	Block Resource Person of MDM did not provide cheque in time.	Not Applicable	Block Resource Person of MDM did not provide cheque in time.	Block Resource Person of MDM did not provide cheque in time.
(iii) In case of delay, how school/ implementing agency manages to ensure that there is no disruption in the feeding programme?	In case of delay of cooking cost MDM is discontinued.	In case of delay of cooking cost MDM is discontinued.	In case of delay of cooking cost MDM is discontinued.	In case of delay of cooking cost MDM is discontinued.	In case of delay of cooking cost MDM is discontinued.
(iv) Is cooking cost paid by Cash or through banking channel?	Through banking channel	Through banking channel	Through banking channel	Through banking channel	Through banking channel

#### 5. Social Equity:

	Begusarai District (1)	Khagaria District (2)	Samastipur District (3)	Saran District (4)	Siwan District (5)
<b>(a) In the classroom:</b>					
(i) Sitting arrangement for the children during serving of MDM.	Students were encouraged to sit in queue with their plates and after that food items were served by the cooks. Tat-Patti or carpet was not available in schools for this purpose.	Students were encouraged to sit in queue with their plates and after that food items were served by the cooks. Tat-Patti or carpet was not available in schools for this purpose.	Students were encouraged to sit in queue with their plates and after that food items were served by the cooks. Tat-Patti or carpet was not available in schools for this purpose.	Students were encouraged to sit in queue with their plates and after that food items were served by the cooks. Tat-Patti or carpet was not available in schools for this purpose.	Students were encouraged to sit in queue with their plates and after that food items were served by the cooks. Tat-Patti or carpet was not available in schools for this purpose.
(ii) Did you observe any	All children were treated equally	All children were treated equally	All children were treated equally	All children were treated equally	All children were treated equally

	<b>Begusarai District (1)</b>	<b>Khagaria District (2)</b>	<b>Samastipur District (3)</b>	<b>Saran District (4)</b>	<b>Siwan District (5)</b>
gender or caste or community discrimination in cooking or serving or seating arrangements?	irrespective of gender/caste/community/ disability in cooking or serving or seating arrangements.	irrespective of gender/caste/community/ disability in cooking or serving or seating arrangements.	irrespective of gender/caste/community/ disability in cooking or serving or seating arrangements.	irrespective of gender/caste/community/ disability in cooking or serving or seating arrangements.	irrespective of gender/caste/community/ disability in cooking or serving or seating arrangements.

## 6. Menu:

	<b>Begusarai District (1)</b>	<b>Khagaria District (2)</b>	<b>Samastipur District (3)</b>	<b>Saran District (4)</b>	<b>Siwan District (5)</b>
(i) Number of schools where menu is displayed on the wall and noticeable	In all (40) sampled schools of Begusarai district had displayed its weekly menu on the wall and noticeable.	In all (40) sampled schools of Khagaria district had displayed its weekly menu on the wall and noticeable.	In all (40) sampled schools of Samastipur district had displayed its weekly menu on the wall and noticeable.	In all (40) sampled schools of Saran had displayed its weekly menu on the wall and noticeable.	In all (40) sampled schools of Siwan had displayed its weekly menu on the wall and noticeable.
(ii) Who decides the menu	The State/ District level officer of MDM decides the menu.	The State/ District level officer of MDM decides the menu.	The State/ District level officer of MDM decides the menu.	The State/ District level officer of MDM decides the menu.	The State/ District level officer of MDM decides the menu.
(iii) Does daily menu include rice/ wheat, pulses (dal) and vegetable?	All (40) schools of Begusarai district include rice preparation, dal and vegetables in their daily menu where it is being served while none of sampled schools of this district include wheat preparation in their daily menu. Green vegetables are rarely cooked in the sampled schools.	All (40) schools of Khagaria district include rice preparation, dal and vegetables in their daily menu where it is being served while none of sampled schools of this district include wheat preparation in their daily menu. Green vegetables are rarely cooked in the sampled schools.	All (40) schools of Samastipur district include rice preparation, dal and vegetables in their daily menu where it is being served while none of sampled schools of this district include wheat preparation in their daily menu. Green vegetables are rarely cooked in the sampled schools.	All (40) schools of Saran district include rice preparation, dal and vegetables in their daily menu where it is being served while none of sampled schools of this district include wheat preparation in their daily menu. Green vegetables are rarely cooked in the sampled schools.	All (40) schools of Siwan district include rice preparation, dal and vegetables in their daily menu where it is being served while none of sampled schools of this district include wheat preparation in their daily menu. Green vegetables are rarely cooked in the sampled schools.
(iv) Number of schools where variety of foods is served daily	All (40) sampled schools of Begusarai district were serving variety of foods.	All (40) sampled schools of Khagaria district were serving variety of foods.	All (40) sampled schools of Samastipur district were serving variety of foods.	All (40) sampled schools of Saran district were serving variety of foods.	All (40) sampled schools of Siwan district were serving variety of foods.
(v) Number of schools where same food is served daily	None	None	None	None	None

## 7. Community Mobilization:

	<b>Begusarai District (1)</b>	<b>Khagaria District (2)</b>	<b>Samastipur District (3)</b>	<b>Saran District (4)</b>	<b>Siwan District (5)</b>
(i) Familiarity level of the SMC members with their roles and	VSS/MTA members were aware with their roles and responsibilities as notified by the State	VSS/MTA members were not properly aware with their roles and responsibilities as notified by the State	VSS/MTA members were not properly aware with their roles and responsibilities as notified by the State	VSS/MTA members were not properly aware with their roles and responsibilities as notified by the State	VSS/MTA members were not properly aware with their roles and responsibilities as notified by the State

	<b>Begusarai District (1)</b>	<b>Khagaria District (2)</b>	<b>Samastipur District (3)</b>	<b>Saran District (4)</b>	<b>Siwan District (5)</b>
responsibilities and eligibility and entitlement of children as notified by the State Government.	Government.	State Government.	Government.	notified by the State Government.	notified by the State Government.
(ii) Number of schools where there is a roaster of parents for daily monitoring and supervision of MDMS	None	None	None	None	None
(iii) Number of members received training regarding MDMS and its monitoring	None	None	None	None	None

### 3. District Level Half Yearly Monitoring Report of Begusarai, Khagaria, Samastipur, Saran and Siwan.

#### (A) Mid-Day Meal Scheme: Begusarai District

3.1	Name of the District	Begusarai
3.2	Date of visit to the District/EGS/Schools	16 <sup>th</sup> to 24 <sup>th</sup> July 2012

1	<b><u>REGULARITY IN SERVING MEAL:</u></b>																										
	(i) Whether the school is serving hot cooked meal daily?																										
	<p>In Begusarai district, on the day of visit it was found that 28 (70%) sampled schools out of 40 sampled schools are serving MDM hot cooked meals daily in MDM to the students of all classes; whereas 5 (12.5%) sampled schools out of 40 sampled schools are serving hot cooked meals daily in the classes up to 5th only.</p> <p>The MI members observed that in 9 (22.5%) sampled schools the MDM is being served by NGO (Akta Foundation, Begusarai) was not hot.</p>																										
	(ii) If there was interruption, what was the extent and reasons for the same?																										
<p>12 (30%) sampled schools of this district was not serving hot cooked meals regularly to their children due to unavailability of rice and coking cost. The break-up of reasons are as follows in respect of interruption of MDM in Begusarai district where sampled schools are not serving hot cooked meals on the day of visit:</p>																											
<table border="1"> <thead> <tr> <th>Sl. No.</th> <th>Reasons</th> <th>No. of sampled schools</th> <th>Percent</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>MDM completely closed due to unavailability of rice</td> <td>4</td> <td>10.0</td> </tr> <tr> <td>2</td> <td>MDM closed for VI to VIII classes due to unavailability of rice</td> <td>4</td> <td>10.0</td> </tr> <tr> <td>3</td> <td>MDM completely closed due to lack of cooking cost</td> <td>1</td> <td>2.5</td> </tr> <tr> <td>4</td> <td>MDM closed for VI to VIII classes due to unavailability of cooking cost</td> <td>1</td> <td>2.5</td> </tr> <tr> <td>5</td> <td>MDM completely closed due to unavailability of rice &amp; cooking cost</td> <td>2</td> <td>5.0</td> </tr> </tbody> </table>				Sl. No.	Reasons	No. of sampled schools	Percent	1	MDM completely closed due to unavailability of rice	4	10.0	2	MDM closed for VI to VIII classes due to unavailability of rice	4	10.0	3	MDM completely closed due to lack of cooking cost	1	2.5	4	MDM closed for VI to VIII classes due to unavailability of cooking cost	1	2.5	5	MDM completely closed due to unavailability of rice & cooking cost	2	5.0
Sl. No.	Reasons	No. of sampled schools	Percent																								
1	MDM completely closed due to unavailability of rice	4	10.0																								
2	MDM closed for VI to VIII classes due to unavailability of rice	4	10.0																								
3	MDM completely closed due to lack of cooking cost	1	2.5																								
4	MDM closed for VI to VIII classes due to unavailability of cooking cost	1	2.5																								
5	MDM completely closed due to unavailability of rice & cooking cost	2	5.0																								
<p>After the discussion with students, teachers, parents, VSS members and also crosschecking the MDM register &amp; records, MI members found that MDM was not being served regularly. For instance, it was reported to us that during last ten days, it was not served since last 7 days in M. S. Tarbanna (Block - S. Kamal) &amp; Upgraded M. S. Khorampur Chakor (Block - Matihani), since last 2 days in M. S. Balia (Block - Balia) and since last 1 day in P. S. Terahpai (Block - Barauni).</p>																											
<p>It was worst in some other schools, for example it was not served since last 60 days in M. S. Shadpur (Block - S. Kamal), since last 24 days in M. S. Koria (Block - Begusarai), since last 22 days in M. S. Fulwaria (Block - Balia), since last 17 days in M. S. Matihani</p>																											

(Block - Matihani), since last 15 days in M. S. Muzaffara (Block - Birpur) & M. S. Keshave (Block - Barauni), since last 14 days in M. S. Lakho (Block - Begusarai) & M. S. Mohanpur (Block - Begusarai).

The MI members found that MDM was completely closed in 7 (17.5%) sampled schools of different blocks of Begusarai district whereas it was closed for VI to VIII classes in 5 (12.5%) sampled schools of different blocks of this district. The main reason of interruption of MDM in schools was unavailability of rice and cooking cost. **School-wise break-up may be seen in the Table No. - 1.**

2

**TRENDS:**

Extent of variation (As per school records vis-à-vis actual position/status on the day of visit)

No.	Details	Figure (No. of Students)
(i)	Enrollment	29, 011
(ii)	No. of children opted for Mid Day Meal	29, 011
(iii)	No. of children attending the school on the day of visit	15, 385
(iv)	No. of children availing MDM as per MDM Register	10, 927
(v)	No. of children actually availing MDM on the day of visit	10, 927
(v)	No. of children availed MDM on the previous day	9, 507

The above table reveals that –

- In the given 40 schools the total number of students enrolled was found to be 29, 011.
- Out of the total number of students enrolled in the 40 schools 15, 385 students were found to be present on the day of visit of monitoring team which comes to 53 percent of students attending the class on the day of visit of the monitoring team.
- On the date of visit of MI team out of the total number of students enrolled 10, 927 students were found to be taking MDM which comes to 37.7 percent of the total enrolled students taking MDM on the given date.
- On the date previous to the date of visit, it was reported, as per official record that out of the total number of students enrolled 9,507 students had taken MDM which comes to 32.8 percent of the total enrolled students taking MDM.

**Observation:**

- Food served was of poor quality.
- Food normally served by NGO reported to be not hot.

**Suggestions:**

Important steps should be taken by the concerned authority as early as possible to improve the quality and also regularize the MDM in the schools in respect to Right to Education.

**School-wise break-up may be seen in the Table No. - 2.**

3	<p><b><u>REGULARITY IN DELIVERING FOOD GRAINS TO SCHOOL LEVEL:</u></b></p> <p>(i) Is school receiving food grain regularly? If there is delay in delivering food grains, what is the extent of delay and reasons for the same?</p> <p>In 30 schools (75%) the food grains were being received regularly whereas 10 (25%) schools it was not being received regularly. The HM of concerned schools informed the MI that the MDM remains closed for months because of non availability of rice with the dealer. <b>School-wise break-up may be seen in the Table No. - 3.</b></p> <p>(ii) Is buffer stock of one-month's requirement is maintained?</p> <p>The buffer stock of one month's requirement was maintained by 29 (72.5%) sampled schools of Begusarai district. <b>School-wise break-up may be seen in the Table No. - 3.</b></p> <p>(iii) Is the quantity of food grain supplied was as per the marked/indicated weight?</p> <p>The HM, teachers and community people reported to MI members that quantity of food grain supplied by dealers in sampled schools was not matched with the marked/ indicated weight. They were facing so many problems. But none of them has lodged complains in front of the higher authority. The MI members also observed that the bag of food grains (rice) was not properly packed by FCI.</p> <p>(iv) Is the food grains delivered at the school?</p> <p>The HM of sampled schools reported to MI members that the food grains are delivered at school by the concerned dealer.</p> <p>(v) Is the quality of food grain good?</p> <p>The quality of food grains was found good in 1 (2.5%) sampled schools, average in 31 (77.5%) sampled schools while the quality of food grains was found poor in 2 (5%) sampled schools. On the other hand in 6 schools (15%) the MDM was completely closed due to lack of rice. <b>School-wise break-up may be seen in the Table No. - 3.</b></p>
4	<p><b><u>REGULARITY IN DELIVERING COOKING COST TO SCHOOL LEVEL:</u></b></p> <p>(i) Is school/implementing agency receiving cooking cost in advance regularly? If there is delay in delivering cooking cost, what is the extent of delay and reasons for it?</p> <p>In 36 schools (90%) of Begusarai district were receiving cooking cost in advance regularly. But the HM of 4 (10%) schools reported to MI members that they are not receiving cooking cost in advance regularly. Cooking cost (Rs.3.14 per head per day in primary schools and Rs.4.65 per head in upper primary schools) was released to majority of schools in advance by the concerned office of the district. <b>School-wise break-up may be seen in the Table No. - 4.</b></p> <p>(ii) In case of delay, how schools/implementing agency manages to ensure that there is no disruption in the feeding programme?</p> <p>In case of delay of cooking cost MDM is discontinued.</p> <p>(iii) Is cooking cost paid by Cash or through banking channel?</p> <p>All the sampled schools received cooking cost for MDM through banking channel.</p>

5	<p><b><u>SOCIAL EQUITY:</u></b></p> <p>(i) Did you observe any gender or caste or community discrimination in cooking or serving or seating arrangements?</p> <p>There was no caste / gender/ disability based discrimination seen during the serving of the Mid-Day Meal to the students in sampled schools of Begusarai district. All children were treated equally irrespective of caste, gender and disability. <b>School-wise break-up may be seen in the Table No. - 5.</b></p> <p>(ii) What is the system of serving and seating arrangements for eating?</p> <p>Students were encouraged to sit in queue with their plates and after that food items were served by the cooks. Tat-Patti or carpet was not available in schools for this purpose.</p>
6	<p><b><u>VARIETY OF MENU:</u></b></p> <p>(i) Has the school displayed its weekly menu at a place noticeable to community, and is it able to adhere to the menu displayed?</p> <p>All (40) sampled schools had displayed its weekly menu but they hardly adhered to the menu displayed. <b>School-wise break-up may be seen in the Table No. - 6.</b></p> <p>(ii) Who decides the menu?</p> <p>The State/District level officers of MDM decided the menu and a copy of such menu were provided to schools with a request to serve the MDM to their students according to the given menu.</p> <p>(iii) Is there variety in the food served or is the same food served daily?</p> <p>Sampled schools of Begusarai district are serving variety of food where it is being served. The food items i.e. khichari-chokha, rice-pulse &amp; vegetables, rice-rajma, Rice-nutrela etc. was served in sampled schools of this district where it is being served.</p> <p>(iv) Does the daily menu include rice / wheat preparation, dal and vegetables?</p> <p>Sampled schools of Begusarai district included rice preparation, dal and vegetables in their daily menu where it is being served, while none of sampled schools of this district included wheat preparation in their daily menu. Green vegetables are rarely cooked in the sampled schools.</p>
7	<p><b><u>QUALITY &amp; QUANTITY OF MEAL:</u></b></p> <p>Feedback from children on –</p> <p>(i) Quality of meal:</p> <ul style="list-style-type: none"> <li>• When the MI observers asked the children, parents and community members about the quality of mid-day meal which was served in schools, it was discovered that they were not happy with quality of food. Most of schools served often either average or poor quality of food items in unhygienic condition. Food was cooked and kept in open and dirty ground.</li> <li>• The quality of meal was found good in 1 (2.5%) sampled schools, average in 21 (52.5%) sampled schools while the quality of food grains was found poor in 11</li> </ul>

	<p>(27.5%) sampled schools. On the other hand in 7 schools (17.5%) the MDM was completely closed due to lack of rice and cooking cost.</p> <ul style="list-style-type: none"> <li>• Adequate number of plates was often not available in schools; therefore, many children bring their own plates for taking food.</li> </ul> <p><b>School-wise break-up may be seen in the Table No. - 7.</b></p>
	(ii) Quantity of meal:
	<p>When the MI observers asked the children, parents and community members about the quantity of mid-day meal which was served in the schools, it was discovered that they were not happy with quantity of food. Most of schools served insufficient quantity of food items; that too in unhygienic conditions.</p> <p>Sufficient quantity of food items was served in 10 (25%) schools; while it was not found to be of sufficient quantity in 23 (57.5%) other schools.</p> <p>On the other hand, in 7 schools (17.5%) the MDM was completely closed due to lack of rice and cooking cost.</p> <p><b>School-wise break-up may be seen in the Table No. - 7.</b></p>
	(iii) If children were not happy, Please give reasons and suggestions to improve.
	<p><b>Children were not happy with MDM because:</b></p> <ul style="list-style-type: none"> <li>• Poor quality of food materials is often served in unhygienic condition.</li> <li>• Food is cooked and kept in open and dirty ground.</li> <li>• They are forced to sit on the ground without any proper sitting arrangement like <i>tat-patti, carpet</i> etc.</li> <li>• Some children complained that they have to bring their own plates to eat the MDM.</li> <li>• Poor quality of food items is often served by the NGO.</li> <li>• The NGO is not providing hot cooked meal regularly in the school.</li> <li>• The NGO is not providing hot cooked meal timely in the school.</li> </ul> <p><b>Suggestions given by students for improvement in MDM:</b></p> <ul style="list-style-type: none"> <li>• Better quality of rice should be provided to the school authority.</li> <li>• Better quality of pulse and green vegetables with proper quantity should be served by the school management.</li> <li>• Fruits/Salad also must be included in the MDM.</li> <li>• Food items must be served by the concerned authority as per the menu.</li> <li>• Proper sitting arrangement also should be provided in the school.</li> <li>• Adequate utensils and plates should be available in schools for providing MDM.</li> <li>• Proper monitoring is necessary for maintaining the quality and quantity of meal.</li> <li>• Instead of NGOs, MDM should be prepared and served by the school management committee.</li> </ul> <p><b>Suggestions given by teachers for improvement in MDM:</b></p> <ul style="list-style-type: none"> <li>• Supply of rice should be regular</li> </ul>

- Separate staff should be appointed to look after MDM in the school.
- @ Rs10/- per students should be given by the Govt. for better quality of meal.
- Adequate utensils and plates should be made available in schools for preparing and serving the MDM.

**Suggestions given by parents and community people for improvement in MDM:**

- The services of NGO should be taken off immediately in respect of MDM because-
  - (a) Poor quality of food items is often served by the NGO irregular manner in the schools.
  - (b) The NGO is not providing hot cooked meal timely in the schools.
  - (c) The quality of food being served by NGO is so poor that the children refused to eat them in many schools.
- Instead of NGOs, MDM should be prepared and served by the school management committee. In this regard, responsibility should be given to the present VSS/MTA of concerned school.
- Separate person should be appointed at CRC level to look after the MDM quantity and quality in the school.
- Block level authority must visit once in a week to see the MDM facilities in the schools.
- Concerned people must be punished for serving bad quality of meal
- Better quality food should be provided to the children.
- Green vegetables should also be given to the students in MDM.
- Supply of rice should be regular in the schools.

**Suggestions given MI for improvement in MDM:**

- The NGO is not doing good job in relation to preparation and distribution of hot cooked meal as reported by the different level of authority as well as children and parents/community people of the coverage area.
- MDM should be prepared and served either school level or Panchayat level. In this regard, responsibility should be given to present VSS/MTA of concerned school or Panchayat level authority.
- Food grains and cooking cost should be provided to the VSS/MTA of concerned school regularly.
- Block level authority must visit once in a week to see the MDM facilities in the schools.
- Separate person should be appointed at CRC level to look after the quality of MDM in schools.
- Green vegetables should also be given to the students in MDM.
- Light food items may also be distributed among students at dismissal hours, so that the students may have incentive to wait till the school hours are over.
- Amount for MDM food items should be increased to Rs10/- per students for better quality of meal.

	<ul style="list-style-type: none"> <li>• Separate trained staff should be appointed to look after MDM in the school.</li> <li>• The gas facilities should be provided to the schools for cooking the food.</li> <li>• Adequate utensils and plates should be made available in the school for preparing and serving the MDM.</li> <li>• Fruits and Salad also should be given to the students for better nutrition at least twice in a week.</li> <li>• Provision should be made by the government for construction of a <b>dining hall</b> in each school where children may take their meal in proper manner and in hygienic condition.</li> <li>• For different types of expenditure schools must maintain different account so that it gives clear picture.</li> <li>• The remuneration of cooks should be increased by another Rs.1000/- presently they are being given Rs. 1000/-which is insufficient.</li> </ul>
8	<p><b><u>SUPPLEMENTARY:</u></b></p> <p>(i) Is there school Health Card maintained for each child?</p> <p>In 22 (55%) sampled schools maintained the health card for each child, while 18 schools (45%) did not maintain the health card of any child. <b>School-wise break-up may be seen in the Table No. - 8.</b></p> <p>(ii) What is the frequency of health check-up?</p> <p>Health check-up of school students was not done in any sampled schools of Begusarai district during last six months.</p> <p>(iii) Whether children are given micronutrients (iron, folic acid, vitamin – A dosage) and de-worming medicine periodically?</p> <p>Micronutrients (Iron, folic acid &amp; vitamin – A dosage) which are necessary for improving the health and proper growth of the children was not provided in any sampled schools of Begusarai district, whereas de-worming medicine was given to the children only one time in all (40) sampled schools of Begusarai district during 2011-12.</p> <p>1. Who administers these medicines and at what frequency?</p> <p>The Medical Officer of Primary Health Center of concerned block administers these medicines. It was rarely distributed in different schools of concerned block as reported by HM, teachers, parents and community people of coverage area of schools.</p>
9	<p><b><u>STATUS OF COOKS:</u></b></p> <p>(i) Who cooks and serves the meal? (Cook cum helper appointed by the Department/VEC/ Self Help Group/NGO/Contractor)</p> <p>In 31 sampled schools (77.5%) of Begusarai district MDM preparation and distribution are managed by the VSS of concerned school but in 9 sampled schools (22.5%) MDM preparation and distribution are managed by the NGO. Hence the cook-cum-helper is appointed by the VSS/NGO of the concerned school. <b>School-wise break-up may be seen in the Table No. - 9.</b></p> <p>(ii) Is the number of cooks and helpers engaged in the school as per GOI norms?</p>

None of the schools visited have got any guidelines of Government of India with regard to the number of cooks to be engaged by them. Therefore, they are not engaging proper numbers of cooks.

(iii) What is remuneration paid to cooks cum helpers and mode of payment?

School where MDM is cooked & served the honorarium of Rs.1000/- per month is paid to a cook. But in such schools where MDM was served by NGO, MDM cooks/helpers paid the honorarium Rs.500/- per month. The HM reported to MI members that the remuneration of cooks/helpers was paid by them through banking channel. But their remuneration was not released by the concerned authority to the sampled schools from April 2012.

(iv) Is the remuneration paid to cooks cum helpers regularly?

The remuneration of cooks/helpers was not paid regularly (i.e. once in a month). The cooks/helpers of sampled schools reported MI members that they did not receive their remuneration from April, 2012. The HM, teachers and community people has also authenticated this matter.

(v) Specify the social composition of cooks cum helpers? (SC/ST/OBC/Minority)

Cooks/helpers of OBC category were found in majority of (39) sampled schools (97.5%) of Begusarai district. Outside OBC category the break-up of cooks of different castes was as follows:

Sl. No.	Caste Category	No. of Sampled Schools	Percent
1	SC	12	30.0
2	Minority	2	5.0
3	General	3	7.5

**School-wise break-up may be seen in the Table No. - 9.**

**10 INFRASTRUCTURE:**

Is a pucca kitchen shed-cum-store:

1. Constructed and in use
2. Scheme under which kitchen sheds constructed – MDM/SSA/Others
3. Constructed but not in use (Reason for not using)
4. Under construction
5. Sanctioned, but construction not started
6. Not sanctioned
7. Any other (specify)

- The pucca kitchen shed-cum-store was available and also in use in 29 (72.5%) of the sampled schools of Begusarai district and it was constructed under SSA scheme.
- The pucca kitchen shed-cum-store was constructed but not in use in 1 (2.5%) sampled school of Begusarai district. The HM of concerned school reported to MI members that- the size of the pucca kitchen shed-cum-store was not adequate as per the requirement. Therefore, additional room was engaged.

	<ul style="list-style-type: none"> <li>• 1 (2.5%) sampled schools has received amount for construction of a Kitchen shed. But the construction of pucca kitchen shed-cum store was not started by the concerned schools.</li> <li>• The pucca kitchen shed-cum-store was not sanctioned in 9 (22.5%) sampled schools.</li> </ul> <p><b>School-wise break-up may be seen in the Table No. - 10.</b></p>
11	<p>In case the pucca kitchen shed is not available, where is the food being cooked and where the food grains /other ingredients are being stored?</p> <ul style="list-style-type: none"> <li>• In such situation in all the ten schools where kitchen was either under construction or not sanctioned the food items were cooked and kept under thatched kitchen shed or in the open places or in a separate classroom.</li> <li>• The MDM food grains and other ingredients are kept in safe places inside the school (in the HM room/classroom).</li> </ul>
12	<p>Whether potable water is available for cooking and drinking purpose?</p> <p>Potable water was though available in all (40) schools visited of Begusarai district, but the number of hand pumps needed to be increased in some schools where the number of students was higher. In some schools the hand pumps are not in proper condition and it needs to be repaired.</p>
13	<p>Whether utensils are available for cooking food? If available, is it adequate?</p> <p>In Begusarai district, utensils were available in all (40) sampled schools for cooking food. But adequate number of utensils was not available in majority (35) of sampled schools (87.5%) of this district as reported by HM and cooks/helpers of concerned schools. <b>School-wise break-up may be seen in the Table No. - 11.</b></p>
14	<p>What is the kind of fuel used? (Gas based/firewood etc.)</p> <p>In 30 sampled schools (75%) of Begusarai district used firewood as fuel for cooking MDM where MDM was prepared in the school. But in 1 (2.5%) school of this district used coal as fuel for cooking MDM. On the other hand in 9 (22.5%) sampled schools the MDM is being served by NGO (Akta Foundation, Begusarai). <b>School-wise break-up may be seen in the Table No. - 11.</b></p>
15	<p><b><u>SAFETY &amp; HYGIENE:</u></b></p> <p>General Impression of the environment, Safety and hygiene:</p> <p>(i) Are children encouraged to wash hands before and after eating?</p> <p>It was observed in sampled schools that teachers were encouraged their students to wash hands before and after taking meals.</p> <p>(ii) Do the children take meals in an orderly manner?</p> <p>There were 31 (77.5%) schools where children were found to take meals in an orderly manner in Begusarai district, while in 2 (5%) schools children ate their meal here and there. The MDM was completely closed in 7 (17.5%) sampled schools of this district. <b>School-wise break-up may be seen in the Table No. - 12.</b></p> <p>(iii) Conservation of water?</p>

	<p>Children are not taught in school to conserve water while washing dishes in Begusarai district. Therefore, none of the sample school's children of this district used the practice of conserving water while washing dishes.</p>																		
	<p>(iv) Is the cooking process and storage of fuel safe, not posing any fire hazard?</p>																		
	<p>The cooking process and storage of fuel is safe in all sampled schools where MDM prepared in school.</p>																		
16	<p><b>COMMUNITY PARTICIPATION AND AWARENESS:</b> Extent of participation by Parents/VSSs/VECs/Panchayats/Urban bodies in daily supervision, monitoring and participation.</p>																		
	<p>(i) Is any roster being maintained by the community members for supervision of the MDM</p>																		
	<p>Roster was not maintained by the community members for supervision of the MDM in any of the sampled schools of Begusarai district.</p>																		
	<p>(ii) Are the parents/community members aware about the following?</p>																		
	<p>(a) Quantity of MDM per child:</p>																		
	<p>In all (40) schools visited it was found that many of the parents and many among the community members of the schools are aware that MDM is provided to students @100 gram rice per child, per day for primary school (i.e. class I to V) and @150 gram rice per child per day for Upper Primary School (i.e. class VI to VIII).</p> <p>But, also there were parents and members of community who were not aware about FCI releasing rice.</p>																		
	<p>(b) Entitlement of quantity and types of nutrients in MDM per child as supplied in the menu:</p>																		
	<p>According to menu, the cooks/helpers have to cook rice @100 gram rice per child per day for primary school and @150 gram rice per child per day for Upper Primary School. Also, they prepared other things like vegetables, dal, rajama, karhi, nutrella, chokha etc. as per the menu.</p>																		
	<p>(c) General awareness about the overall implementation of MDM programme:</p>																		
	<p>The parents/community members were aware of the MDM programme. Their general awareness about the overall implementation of MDM programme was found satisfactory by the MI members. But they did not visit frequently in schools to look after the MDM programme.</p>																		
	<p>(d) Sources of awareness about the MDM scheme:</p>

17	<b>INSPECTION &amp; SUPERVISION</b>	
	(i) Has the mid day meal programme been inspected by any state/district/block level officers/officials?	
	According to HM of sampled schools, the MDM programme was supposed to be inspected by the state/ district/ block level officers/officials in sampled schools of this district. But it was rarely inspected by the state/district/block level officers/officials in sampled schools of this district.	
	(ii) The frequency of such inspection?	
	In Begusarai district, MDM programme was not frequently inspected by the state/ district/ block level officers/ officials in sampled schools of this district. Block resource person of MDM visited respective schools of block once in a month only for data collection. The SDO/BEEOs/BRCCs of concerned block visited very few schools in a block of six months.	
	(iii) Remarks made by the visiting officers? If any?	
	Since hardly any visit was conducted, no remarks were found in either visiting register or in MDM registers.	
18	<b>IMPACT</b>	
	(i) Has the mid day meal improved the enrollment, attendance of children in school, any improvement in general well being, nutritional status of children?	
	In fact the MDM has improved the enrollment and attendance of children in schools especially in rural areas. Comparatively at least the poor and below poverty line children were getting the kind of food which they would have otherwise not got at their homes. Thus, the MDM has attracted weaker sections of parents to send their children to school for education. The nutritional status of the children especially weaker section children has also improved.	
	(ii) Is there any other incidental benefit to the children and school due to serving of mid-day-meal by VSS, VEC, PRI members?	
	The MDM has attracted the weaker section parents to send their children to school for education. Poor women got part time employment for preparing and serving MDM in the nearest school. The poor and below poverty line children get adequate nutrients and food through MDM. The dropout rate of children from schools is also decreasing with the help of this programme.

## (B) Mid-Day Meal Scheme: Khagaria district

3.1	Name of the District	Khagaria
3.2	Date of visit to the District/EGS/Schools	30 <sup>th</sup> July to 7 <sup>th</sup> August 2012

1	<p><b><u>REGULARITY IN SERVING MEAL:</u></b></p> <p>(i) Whether the school is serving hot cooked meal daily?</p> <p>In Khagaria district, on the day of visit it was found that 28 (70%) sampled schools out of 40 sampled schools are serving hot cooked meals daily in MDM to the students of all classes. In all sampled schools MDM was prepared and served by VSS/MTA.</p> <p>(ii) If there was interruption, what was the extent and reasons for the same?</p> <p>12 (30%) sampled schools of this district was not serving hot cooked meals regularly to their children due to many reasons. The break-up of reasons are as follows in respect of interruption of MDM in Khagaria district where sampled schools are not serving hot cooked meals on the day of visit to their students:</p> <table border="1"> <thead> <tr> <th>Sl. No.</th> <th>Reasons</th> <th>No. of Sampled Schools</th> <th>Percent</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Unavailability of rice in the schools</td> <td>7</td> <td>17.5</td> </tr> <tr> <td>2</td> <td>Unavailability of cooking cost</td> <td>2</td> <td>5.0</td> </tr> <tr> <td>3</td> <td>Unavailability of fresh rice</td> <td>2</td> <td>5.0</td> </tr> <tr> <td>4</td> <td>Unavailability of rice &amp; cooking cost</td> <td>1</td> <td>2.5</td> </tr> </tbody> </table> <p>After the discussion with students, teachers, parents, VSS members and also crosschecking the MDM register &amp; records, MI members found that MDM was not being served regularly. For instance, it was reported to us that during last ten days, it was not served since last 8 days in M. S. Roun - 2 (Block - Alauli), since last 7 days in M. S. Sirjua (Block - Gogari), since last 6 days in M. S. Chaidha Banni Chanditola (Block - Gogari) &amp; Sukhraj M. S. Chautham (Block - Chautham), since last 5 days in P. S. Lalpur (Block - Chautham), since last 4 days in M. S. Chandra Nagar Dakshini (Block - Khagaria), since last 3 days in M. S. Kamathan (Block - Alauli) and since last 2 days in M. S. Haripur (Block - Alauli).</p> <p>It was worst in some other schools, for example it was not served since last 79 days in P. S. Jayantigoan Auta (Block - Gogari), since last 30 days in P. S. Barichak (Block - Gogari), since last 16 days in P. S. Chakyusuf (Block - Gogari) and since last 15 days in M. S. Mahaddipur (Block - Parbatta).</p> <p>The MI members found that MDM was completely closed in 7 (17.5%) schools due to unavailability of rice, in 2 (5%) schools due to unavailability of fresh rice, in another 2 (5%) schools due to unavailability of cooking cost and in 1 (2.5%) schools due to unavailability of</p>			Sl. No.	Reasons	No. of Sampled Schools	Percent	1	Unavailability of rice in the schools	7	17.5	2	Unavailability of cooking cost	2	5.0	3	Unavailability of fresh rice	2	5.0	4	Unavailability of rice & cooking cost	1	2.5
Sl. No.	Reasons	No. of Sampled Schools	Percent																				
1	Unavailability of rice in the schools	7	17.5																				
2	Unavailability of cooking cost	2	5.0																				
3	Unavailability of fresh rice	2	5.0																				
4	Unavailability of rice & cooking cost	1	2.5																				

both rice and cooking cost. **School-wise break-up may be seen in the Table No. - 1.**

**TRENDS:**

Extent of variation (As per school records vis-à-vis actual position/status on the day of visit)

No.	Details	Figure (No. of Students)
(i)	Enrollment	22, 022
(ii)	No. of children opted for Mid Day Meal	22, 022
(iii)	No. of children attending the school on the day of visit	12, 917
(iv)	No. of children availing MDM as per MDM Register	10, 069
(v)	No. of children actually availing MDM on the day of visit	10, 069
(vi)	No. of children availed MDM on the previous day	10, 725

The above table reveals that –

- In the given 40 schools the total number of students enrolled was found to be 22, 022.
- Out of the total number of students enrolled in the 40 schools 12, 917 students were found to be present on the day of visit of monitoring team which comes to 58.7 percent of students attending the class on the day of visit of the monitoring team.
- On the date of visit of MI team out of the total number of students enrolled 10,069 students were found to be taking MDM which comes to 45.7 percent of the total enrolled students taking MDM on the given date.
- On the date previous to the date of visit, it was reported, as per official record that out of the total number of students enrolled 10, 725 students had taken MDM which comes to 48.7 percent of the total enrolled students taking MDM.

**Observation:**

- Food served was of poor quality.

**Suggestions:**

Important steps should be taken by the concerned authority as early as possible to improve the quality and also regularize the MDM in the schools in respect to Right to Education.

**School-wise break-up may be seen in the Table No. - 2.**

3

**REGULARITY IN DELIVERING FOOD GRAINS TO SCHOOL LEVEL:**

(i) Is school receiving food grain regularly? If there is delay in delivering food grains, what is the extent of delay and reasons for the same?

In 28 schools (70%) the food grains were being received regularly whereas 12 (30%) schools it was not being received regularly. The HM of concerned schools informed the MI that the MDM remains closed for months because of non availability of rice with the dealer. **School-wise break-up may be seen in the Table No. - 3.**

(ii) Is buffer stock of one-month's requirement is maintained?

	<p>The buffer stock of one month's requirement was maintained by 23 (57.5%) sampled schools of Khagaria district. <b>School-wise break-up may be seen in the Table No. - 3.</b></p>
	<p>(iii) Is the quantity of food grain supplied was as per the marked/indicated weight?</p>
	<p>The HM, teachers and community people reported to MI members that quantity of food grain supplied by dealers in sampled schools was not matched with the marked/ indicated weight. They were facing so many problems. But none of them has lodged complains in front of the higher authority. The MI members also observed that the bag of food grains (rice) was not properly packed by FCI.</p>
	<p>(iv) Is the food grains delivered at the school?</p>
	<p>The HM of sampled schools reported to MI members that the food grains are delivered at school by the concerned dealer.</p>
	<p>(v) Is the quality of food grain good?</p>
	<p>The quality of food grains was found average in 30 (75%) sampled schools. On the other hand in 10 (25%) schools the MDM was completely closed due to lack of rice. <b>School-wise break-up may be seen in the Table No. - 3.</b></p>
4	<p><b><u>REGULARITY IN DELIVERING COOKING COST TO SCHOOL LEVEL:</u></b></p>
	<p>(i) Is school/implementing agency receiving cooking cost in advance regularly? If there is delay in delivering cooking cost, what is the extent of delay and reasons for it?</p>
	<p>In 37 schools (92.5%) of Khagaria district were receiving cooking cost in advance regularly. But the HM of 3 (7.5%) schools reported to MI members that they are not receiving cooking cost in advance regularly. Cooking cost (Rs.3.14 per head per day in primary schools and Rs.4.65 per head in upper primary schools) was released to majority of schools in advance by the concerned office of the district. <b>School-wise break-up may be seen in the Table No. - 4.</b></p>
	<p>(ii) In case of delay, how schools/implementing agency manages to ensure that there is no disruption in the feeding programme?</p>
	<p>In case of delay of cooking cost MDM is discontinued.</p>
	<p>(iii) Is cooking cost paid by Cash or through banking channel?</p>
	<p>All the sampled schools received cooking cost for MDM through banking channel.</p>
5	<p><b><u>SOCIAL EQUITY:</u></b></p>
	<p>(i) Did you observe any gender or caste or community discrimination in cooking or serving or seating arrangements?</p>
	<p>There was no caste / gender/ disability based discrimination seen during the serving the Mid-Day Meal to the students in sampled schools of Khagaria district. All children were treated equally irrespective of caste, gender and disability. <b>School-wise break-up may be seen in the Table No. - 5.</b></p>
	<p>(ii) What is the system of serving and seating arrangements for eating?</p>
	<p>Students were encouraged to sit in queue with their plates and after that food items were</p>

	served by the cooks. Tat-Patti or carpet was not available in schools for this purpose.
6	<p><b><u>VARIETY OF MENU:</u></b></p> <p>(i) Has the school displayed its weekly menu at a place noticeable to community, and is it able to adhere to the menu displayed?</p> <p>All (40) sampled schools had displayed its weekly menu but they hardly adhered to the menu displayed. <b>School-wise break-up may be seen in the Table No. - 6.</b></p> <p>(ii) Who decides the menu?</p> <p>The State/District level officers of MDM decided the menu and a copy of such menu were provided to schools with a request to serve the MDM to their students according to the given menu.</p> <p>(iii) Is there variety in the food served or is the same food served daily?</p> <p>Sampled schools of Khagaria district are serving variety of food where it is being served. The food items i.e. khichari-chokha, rice-pulse &amp; vegetables, rice-rajma, Rice-nutrela etc. was served in sampled schools of this district where it is being served.</p> <p>(iv) Does the daily menu include rice / wheat preparation, dal and vegetables?</p> <p>Sampled schools of Khagaria district included rice preparation, dal and vegetables in their daily menu where it is being served, while none of sampled schools of this district included wheat preparation in their daily menu. Green vegetables are rarely cooked in the sampled schools.</p>
7	<p><b><u>QUALITY &amp; QUANTITY OF MEAL:</u></b></p> <p>Feedback from children on –</p> <p>(i) Quality of meal:</p> <ul style="list-style-type: none"> <li>• When the MI observers asked the children, parents and community members about the quality of mid-day meal which was served in schools, it was discovered that they were not happy with quality of food. Most of schools served often either average or poor quality of food items in unhygienic condition. Food was cooked and kept in open and dirty ground.</li> <li>• The quality of meal was found average in 28 (70%) sampled schools. On the other hand in 12 (30%) schools the MDM was completely closed due to lack of rice and cooking cost.</li> <li>• Adequate number of plates was often not available in schools; therefore, many children bring their own plates for taking food.</li> <li>• <b>School-wise break-up may be seen in the Table No. - 7.</b></li> </ul> <p>(ii) Quantity of meal:</p> <p>When the MI observers asked the children, parents and community members about the quantity of mid-day meal which was served in the schools, it was discovered that they were not happy with quantity of food. Most of schools served insufficient quantity of food items; that too in unhygienic conditions.</p> <p>Insufficient quantity of food items was served in 28 (70%) schools.</p>

On the other hand, in 12 (30%) schools the MDM was completely closed due to lack of rice and cooking cost.

**School-wise break-up may be seen in the Table No. - 7.**

(iii) If children were not happy, Please give reasons and suggestions to improve.

**Children were not happy with MDM because:**

- Bad quality of food materials is often served in unhygienic condition.
- Food is cooked and kept in open and dirty ground.
- They are forced to sit on the ground without any proper sitting arrangement like *tat-patti*, *carpet* etc.
- Some children complained that they have to bring their own plates to eat the MDM.

**Suggestions given by students for improvement in MDM:**

- Better quality of rice should be provided to the school authority.
- Better quality of pulse and green vegetables with proper quantity should be served by the school management.
- Fruits/Salad also must be included in the MDM.
- Food items must be served by the concerned authority as per the menu.
- Proper sitting arrangement facilities also should be provided in the school for MDM.
- Adequate utensils and plates should be available in schools for providing MDM.
- Proper monitoring is necessary for maintaining the quality and quantity of meal.

**Suggestions given by teachers for improvement in MDM:**

- Supply of rice should be regular
- Separate staff should be appointed to look after MDM in the school.
- @ Rs10/- per students should be given by the Govt. for better quality of meal.
- Adequate utensils and plates should be made available in schools for preparing and serving the MDM.

**Suggestions given by parents and community people for improvement in MDM:**

- Separate person should be appointed at CRC level to look after the MDM quantity and quality in the school.
- Block level authority must visit once in a week to see the MDM facilities in the schools.
- Concerned people must be punished for serving bad quality of meal.
- Better quality food should be provided to the children.
- Green vegetables should also be given to the students in MDM.
- Supply of rice should be regular in the schools.

**Suggestions given MI for improvement in MDM:**

- Food grains and cooking cost should be provided to the VSS/MTA of concerned school regularly.

	<ul style="list-style-type: none"> <li>• Block level authority must visit twice in a month to see the MDM facilities in the schools.</li> <li>• Separate person should be appointed at CRC level to look after the quality of MDM in schools.</li> <li>• Green vegetables should also be given to the students in MDM.</li> <li>• Light food items may also be distributed among students at dismissal hours, so that the students may have incentive to wait till the school hours are over.</li> <li>• Amount for MDM food items should be increased to Rs10/- per students for better quality of meal.</li> <li>• Separate trained staff should be appointed to look after MDM in the school.</li> <li>• The gas facilities should be provided to the schools for cooking the food.</li> <li>• Adequate utensils and plates should be made available in the school for preparing and serving the MDM.</li> <li>• Fruits and Salad also should be given to the students for better nutrition at least twice in a week.</li> <li>• Provision should be made by the government for construction of <b>a dining hall</b> in each school where children may take their meal in properly manner and hygienic condition.</li> <li>• For different types of expenditure schools must maintain different account so that it gives clear picture.</li> <li>• The remuneration of cooks should be increased by another Rs.1000/- presently they are being given Rs. 1000/-which is insufficient.</li> </ul>
8	<p><b><u>SUPPLEMENTARY:</u></b></p> <p>(i) Is there school Health Card maintained for each child?</p> <p>All (40) sampled schools did not maintain the health card of any child.</p> <p>(ii) What is the frequency of health check-up?</p> <p>Health check-up of school students was not done in any sampled schools of Khagaria district during the last six months.</p> <p>(iii) Whether children are given micronutrients (iron, folic acid, vitamin – A dosage) and de-worming medicine periodically?</p> <p>Micronutrients (Iron, folic acid &amp; vitamin – A dosage) which are necessary for improving the health and proper growth of the children was not provided in any sampled schools of Khagaria district, whereas de-worming medicine was given to the children only one time in all (40) sampled schools of Khagaria district during 2011-12.</p> <p>2. Who administers these medicines and at what frequency?</p> <p>The Medical Officer of Primary Health Center of concerned block administers these medicines. It was rarely distributed in different schools of concerned block as reported by HM, teachers, parents and community people of coverage area of schools.</p>
9	<p><b><u>STATUS OF COOKS:</u></b></p>

	<p>(ii) Who cooks and serves the meal? (Cook cum helper appointed by the Department/VEC/ Self Help Group/NGO/Contractor)</p> <p>All (40) sampled schools of Khagaria district MDM preparation and distribution are managed by the VSS of concerned school. Hence the cook-cum-helper is appointed by the VSS of the concerned school.</p> <p>(ii) Is the number of cooks and helpers engaged in the school as per GOI norms?</p> <p>None of the schools visited have got any guidelines of Government of India with regard to the number of cooks to be engaged by them. Therefore, they are not engaging proper numbers of cooks.</p> <p>(iii) What is remuneration paid to cooks cum helpers and mode of payment?</p> <p>Schools where MDM is cooked &amp; served the honorarium of Rs.1000/- per month is paid to a cook. The HM reported to MI members that the remuneration of cooks/helpers was paid by them through banking channel. But their remuneration was not released by the concerned authority to the sampled schools from April, 2012.</p> <p>(iv) Is the remuneration paid to cooks cum helpers regularly?</p> <p>The remuneration of cooks/helpers was not paid regularly (i.e. once in a month). The cooks/helpers of sampled schools reported MI members that they did not receive their remuneration from April 2012. The HM, teachers and community people has also authenticated this matter.</p> <p>(v) Specify the social composition of cooks cum helpers? (SC/ST/OBC/Minority)</p> <p>Cooks/helpers of OBC category were found in majority of (39) sampled schools (97.5%) of Khagaria district. Outside OBC category the break-up of cooks of different castes was as follows:</p> <table border="1" data-bbox="306 1171 1430 1434"> <thead> <tr> <th>Sl. No.</th> <th>Caste Category</th> <th>No. of Sampled Schools</th> <th>Percent</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>SC</td> <td>10</td> <td>25.0</td> </tr> <tr> <td>2</td> <td>Minority</td> <td>2</td> <td>5.0</td> </tr> <tr> <td>3</td> <td>General</td> <td>3</td> <td>7.5</td> </tr> </tbody> </table> <p><b>School-wise break-up may be seen in the Table No. - 9.</b></p>	Sl. No.	Caste Category	No. of Sampled Schools	Percent	1	SC	10	25.0	2	Minority	2	5.0	3	General	3	7.5
Sl. No.	Caste Category	No. of Sampled Schools	Percent														
1	SC	10	25.0														
2	Minority	2	5.0														
3	General	3	7.5														
10	<p><b><u>INFRASTRUCTURE:</u></b></p> <p>Is a pucca kitchen shed-cum-store:</p> <ol style="list-style-type: none"> <li>Constructed and in use</li> <li>Scheme under which kitchen sheds constructed – MDM/SSA/Others</li> <li>Constructed but not in use (Reason for not using)</li> <li>Under construction</li> <li>Sanctioned, but construction not started</li> <li>Not sanctioned</li> <li>Any other (specify)</li> </ol>																

	<ul style="list-style-type: none"> <li>The pucca kitchen shed-cum-store was available and also in use in 38 (95%) of the sampled schools of Khagaria district and it was constructed under SSA scheme.</li> <li>In 1 (7.5%) schools pucca kitchen shed-cum-store was under construction stage.</li> <li>The pucca kitchen shed-cum-store was not sanctioned in 1 (2.5%) sampled schools.</li> </ul> <p><b>School-wise break-up may be seen in the Table No. - 10.</b></p>
11	<p>In case the pucca kitchen shed is not available, where is the food being cooked and where the food grains /other ingredients are being stored?</p> <ul style="list-style-type: none"> <li>In such situation in all the two schools where kitchen was either under construction or not sanctioned the food items were cooked and kept under thatched kitchen shed or in the open places or in a separate classroom.</li> <li>The MDM food grains and other ingredients are kept in safe places inside the school (in the HM room/classroom).</li> </ul>
12	<p>Whether potable water is available for cooking and drinking purpose?</p> <p>Potable water was though available in all (40) schools visited of Khagaria district, but the number of hand pumps needed to be increased in some schools where the number of students was higher. In some schools the hand pumps are not in proper condition and it needs to be repaired.</p>
13	<p>Whether utensils are available for cooking food? If available, is it adequate?</p> <p>In Khagaria district, utensils were available in all (40) sampled schools for cooking food. But adequate number of utensils was not available in 18 (45%) sampled schools of this district as reported by HM and cooks/helpers of concerned schools.</p>
14	<p>What is the kind of fuel used? (Gas based/firewood etc.)</p> <p>All (40) sampled schools of Khagaria district used firewood as fuel for cooking MDM.</p>
15	<p><b><u>SAFETY &amp; HYGIENE:</u></b></p> <p>General Impression of the environment, Safety and hygiene:</p> <p>(i) Are children encouraged to wash hands before and after eating?</p> <p>It was observed in sampled schools that teachers were encouraged their students to wash hands before and after taking meals.</p> <p>(ii) Do the children take meals in an orderly manner?</p> <p>There were 28 (70%) schools where children were found to take meals in an orderly manner in Khagaria district. The MDM was completely closed in 12 (30%) sampled schools of this district. <b>School-wise break-up may be seen in the Table No. - 12.</b></p> <p>(iii) Conservation of water?</p> <p>Children are not taught in school to conserve water while washing dishes in Khagaria district. Therefore, none of the sample school's children of this district used the practice of conserving water while washing dishes.</p> <p>(iv) Is the cooking process and storage of fuel safe, not posing any fire hazard?</p>

	The cooking process and storage of fuel is safe in all sampled schools where MDM prepared in the school.																								
16	<p><b>COMMUNITY PARTICIPATION AND AWARENESS:</b></p> <p>Extent of participation by Parents/VSSs/VECs/Panchayats/Urban bodies in daily supervision, monitoring and participation.</p> <p>(i) Is any roster being maintained by the community members for supervision of the MDM</p> <p>Roster was not maintained by the community members for supervision of the MDM in any of the sampled schools of Khagaria district.</p> <p>(ii) Are the parents/community members aware about the following?</p> <p>(a) Quantity of MDM per child:</p> <p>In all the 40 schools visited it was found that many of the parents and many among the community members of the schools are aware that MDM is provided to students @100 gram rice per child, per day for primary school (i.e. class I to V) and @150 gram rice per child per day for Upper Primary School (i.e. class VI to VIII).</p> <p>But, also there were parents and members of community who were not aware about FCI releasing rice.</p> <p>(b) Entitlement of quantity and types of nutrients in MDM per child as supplied in the menu:</p> <p>According to menu, the cooks/helpers have to cook rice @100 gram rice per child per day for primary school and @150 gram rice per child per day for Upper Primary School. Also, they prepared other things like vegetables, dal, rajama, karhi, nutrella, chokha etc. as per the menu.</p> <p>(c) General awareness about the overall implementation of MDM programme:</p> <p>The parents/community members were aware of the MDM programme. Their general awareness about the overall implementation of MDM programme was found satisfactory by the MI members. But they did not visit frequently in schools to look after the MDM programme.</p> <p>(d) Sources of awareness about the MDM scheme:</p> <table border="0"> <tr> <td>1. 17	<b>INSPECTION &amp; SUPERVISION</b>
	(i) Has the mid day meal programme been inspected by any state/district/block level officers/officials?
	According to HM of sampled schools, the MDM programme was supposed to be inspected by the state/ district/ block level officers/officials in sampled schools of this district. But it was rarely inspected by the state/district/block level officers/officials in sampled schools of this district.
	(ii) The frequency of such inspection?
	In Khagaria district, MDM programme was not frequently inspected by the state/ district/ block level officers/ officials in sampled schools of this district. Block resource person of MDM visited respective schools of block once in a month only for data collection. The SDO/BEEOs/BRCCs of concerned block visited very few schools in a block of six months.
	(iii) Remarks made by the visiting officers? If any?
	Since hardly any visit was conducted, no remarks were found in either visiting register or in MDM registers.
18	<b>IMPACT</b>
	(i) Has the mid day meal improved the enrollment, attendance of children in school, any improvement in general well being, nutritional status of children?
	In fact the MDM has improved the enrollment and attendance of children in schools especially in rural areas. Comparatively at least the poor and below poverty line children were getting the kind of food which they would have otherwise not got at their homes. Thus, the MDM has attracted weaker sections of parents to send their children to school for education. The nutritional status of the children especially weaker section children has also improved.
	(ii) Is there any other incidental benefit to the children and school due to serving of mid-day-meal by VSS, VEC, PRI members?
	The MDM has attracted the weaker section parents to send their children to school for education. Poor women got part time employment for preparing and serving MDM in the nearest school. The poor and below poverty line children get adequate nutrients and food through MDM. The dropout rate of children from schools is also decreasing with the help of this programme.

## (C) Mid-Day Meal Scheme: Samastipur District

3.1	Name of the District	Samastipur
3.2	Date of visit to the District/EGS/Schools	30 <sup>th</sup> July to 7 <sup>th</sup> August 2012

1	<p><b><u>REGULARITY IN SERVING MEAL:</u></b></p> <p>(i) Whether the school is serving hot cooked meal daily?</p> <p>In Samastipur district, on the day of visit it was found that 18 (45%) sampled schools out of 40 sampled schools are serving hot cooked meals daily in MDM to the students of all classes. In all sampled schools MDM was prepared and served by VSS/MTA.</p> <p>(ii) If there was interruption, what was the extent and reasons for the same?</p> <p>22 (55%) sampled schools of this district was not serving hot cooked meal regularly to their children due to unavailability of rice in the schools on the day of visit.</p> <p>After the discussion with students, teachers, parents, VSS members and also crosschecking the MDM register &amp; records, MI members found that MDM was not being served regularly. For instance, it was reported to us that during last ten days, it was not served since last 7 days in M. S. Gola Road Chini Mill (Block - Samastipur) &amp; M. S. Bithan (Block - Bithan), since last 6 days in M. S. Bahadurpur Samastipur (Block - Samastipur), since last 5 days in M. S. Jitwaria (Block - Kalyanpur), since last 4 days in P. S. (Urdu) Idgah Kashipur (Block - Samastipur), since last 3 days in Govt. M. S. Tajpur (Block – Tajpur) and since last 2 day in S. K. B. Narayan M. S. Rosara (Block – Rosara).</p> <p>It was worst in some other schools, for example it was not served since last 150 days in Kanya P. S. Lakshmipur (Block - Rosara), since last 122 days in P. S. Shihama (Block - Sarairanjan), since last 120 in P. S. (Kanya) Dharaha (Block - Rosara), Since last 118 days in M. S. Shahiyar Bujurg (Block - Rosara), since last 32 days in U. M. S. Prakhand Campus (Block - Kalyanpur), since last 22 days in Balika M. S. Rosara (Block - Rosara), since last 21 days in P. S. Bhatgama (Block - Sarairanjan), since last 20 days in M. S. Sarai Ranjan (Block - Sarairanjan), since last 18 days in M. S. (Urdu) Dharampur (Block - Samastipur), since last 17 days in P. S. (Maktab) Dharmpur (Block - Samastipur), since last 16 days in M. S. Bathuya Bujurg (Block - Sarairanjan), since last 16 days in P. S. Baharokhra Urdu Boys (Block - Tajpur), since last 15 days in P. S. (Urdu) Hari Shankarpur Badhouni (Block - Tajpur), since last 14 days in M. S. Thatiya (Block - Rosara) and since last 13 days in U. M. S. Jhakhara Pataili (block - Sarairanjan).</p> <p>Thus, the MI members found that MDM was completely closed in 22 (55%) sampled schools of different blocks of Samastipur district. The main reason of interruption of MDM in schools was unavailability of rice. <b>School-wise break-up may be seen in the Table No. – 1.</b></p>							
2	<p><b><u>TRENDS:</u></b></p> <p>Extent of variation (As per school records vis-à-vis actual position/status on the day of visit)</p> <table border="1"> <thead> <tr> <th>No.</th> <th>Details</th> <th>Figure (No. of Students)</th> </tr> </thead> <tbody> <tr> <td>(i)</td> <td>Enrollment</td> <td>22, 841</td> </tr> </tbody> </table>		No.	Details	Figure (No. of Students)	(i)	Enrollment	22, 841
No.	Details	Figure (No. of Students)						
(i)	Enrollment	22, 841						

	(ii)	No. of children opted for Mid Day Meal	22, 841
	(iii)	No. of children attending the school on the day of visit	11, 282
	(iv)	No. of children availing MDM as per MDM Register	4, 922
	(v)	No. of children actually availing MDM on the day of visit	4, 922
	(v)	No. of children availed MDM on the previous day	6, 059
<p>The above table reveals that –</p> <ul style="list-style-type: none"> <li>• In the given 40 schools the total number of students enrolled was found to be 22, 841.</li> <li>• Out of the total number of students enrolled in the 40 schools 11, 282 students were found to be present on the day of visit of monitoring team which comes to 49.4 percent of students attending the class on the day of visit of the monitoring team.</li> <li>• On the date of visit of MI team out of the total number of students enrolled 4, 922 students were found to be taking MDM which comes to 21.5 percent of the total enrolled students taking MDM on the given date.</li> <li>• On the date previous to the date of visit, it was reported, as per official record that out of the total number of students enrolled 6, 059 students had taken MDM which comes to 26.5 percent of the total enrolled students taking MDM.</li> </ul> <p><b>Observation:</b></p> <ul style="list-style-type: none"> <li>• Food served was of poor quality.</li> </ul> <p><b>Suggestions:</b></p> <p>Important steps should be taken by the concerned authority as early as possible to improve the quality and also regularize the MDM in the schools in respect to Right to Education.</p> <p><b>School-wise break-up may be seen in the Table No. - 2.</b></p>			
3	<b><u>REGULARITY IN DELIVERING FOOD GRAINS TO SCHOOL LEVEL:</u></b>		
	(i)	Is school receiving food grain regularly? If there is delay in delivering food grains, what is the extent of delay and reasons for the same?	
	In 18 schools (45%) the food grains were being received regularly whereas 22 (55%) schools it was not being received regularly. The HM of concerned schools informed the MI that the MDM remains closed for months because of non availability of rice with the dealer.		
	(ii)	Is buffer stock of one-month's requirement is maintained?	
	The buffer stock of one month's requirement was maintained by 18 (45%) sampled schools of Samastipur district.		
	(iii)	Is the quantity of food grain supplied was as per the marked/indicated weight?	
	The HM, teachers and community people reported to MI members that quantity of food grain supplied by dealers in sampled schools was not matched with the marked/ indicated weight. They were facing so many problems. But none of them has lodged complains in front		

	<p>of the higher authority. The MI members also observed that the bag of food grains (rice) was not properly packed by FCI.</p>
	<p>(iv) Is the food grains delivered at the school?</p>
	<p>The HM of sampled schools reported to MI members that the food grains are delivered at school by the concerned dealer.</p>
	<p>(v) Is the quality of food grain good?</p>
	<p>The quality of food grains was found good in 4 (10%) sampled schools, average in 11 (27.5%) sampled schools while the quality of food grains was found poor in 3 (7.5%) sampled schools. On the other hand in 22 schools (55%) the MDM was completely closed due to lack of rice. <b>School-wise break-up may be seen in the Table No. - 3.</b></p>
4	<p><b><u>REGULARITY IN DELIVERING COOKING COST TO SCHOOL LEVEL:</u></b></p> <p>(i) Is school/implementing agency receiving cooking cost in advance regularly? If there is delay in delivering cooking cost, what is the extent of delay and reasons for it?</p> <p>In all (40) schools of Samastipur district were receiving cooking cost in advance regularly. Cooking cost (Rs.3.14 per head per day in primary schools and Rs.4.65 per head in upper primary schools) was released to majority of schools in advance by the concerned office of the district.</p> <p>(ii) In case of delay, how schools/implementing agency manages to ensure that there is no disruption in the feeding programme?</p> <p>In case of delay of cooking cost MDM is discontinued.</p> <p>(iii) Is cooking cost paid by Cash or through banking channel?</p> <p>All (40) sampled schools received cooking cost for MDM through banking channel. <b>School-wise break-up may be seen in the Table No. - 4.</b></p>
5	<p><b><u>SOCIAL EQUITY:</u></b></p> <p>(i) Did you observe any gender or caste or community discrimination in cooking or serving or seating arrangements?</p> <p>There was no caste / gender/ disability based discrimination seen during the serving the Mid-Day Meal to the students in sampled schools of Samastipur district. All children were treated equally irrespective of caste, gender and disability.</p> <p>(ii) What is the system of serving and seating arrangements for eating?</p> <p>Students were encouraged to sit in queue with their plates and after that food items were served by the cooks. Tat-Patti or carpet was not available in schools for this purpose. <b>School-wise break-up may be seen in the Table No. - 5.</b></p>
6	<p><b><u>VARIETY OF MENU:</u></b></p> <p>(i) Has the school displayed its weekly menu at a place noticeable to community, and is it able to adhere to the menu displayed?</p> <p>All (40) sampled schools had displayed its weekly menu but they hardly adhered to the menu displayed.</p>

	(ii) Who decides the menu?
	The State/District level officers of MDM decided the menu and a copy of such menu were provided to schools with a request to serve the MDM to their students according to the given menu.
	(iii) Is there variety in the food served or is the same food served daily?
	Sampled schools of Samastipur district are serving variety of food where it is being served. The food items i.e. khichari-chokha, rice-pulse & vegetables, rice-rajma, Rice-nutrela etc. was served in sampled schools of this district where it is being served.
	(iv) Does the daily menu include rice / wheat preparation, dal and vegetables?
	Sampled schools of Samastipur district included rice preparation, dal and vegetables in their daily menu where it is being served, while none of sampled schools of this district included wheat preparation in their daily menu. Green vegetables are rarely cooked in the sampled schools. <b>School-wise break-up may be seen in the Table No. - 6.</b>
7	<b><u>QUALITY &amp; QUANTITY OF MEAL:</u></b> Feedback from children on – (i) Quality of meal:
	<ul style="list-style-type: none"> <li>• When the MI observers asked the children, parents and community members about the quality of mid-day meal which was served in schools, it was discovered that they were not happy with quality of food. Most of schools served often either average or poor quality of food items in unhygienic condition. Food was cooked and kept in open and dirty ground.</li> <li>• The quality of meal was found average in 18 (45%) sampled schools. On the other hand in 22 (55%) schools the MDM was completely closed due to lack of rice.</li> <li>• Adequate number of plates was often not available in schools; therefore, many children bring their own plates for taking food.</li> </ul> <p><b>School-wise break-up may be seen in the Table No. - 7.</b></p>
	(ii) Quantity of meal:
	<p>When the MI observers asked the children, parents and community members about the quantity of mid-day meal which was served in the schools, it was discovered that they were not happy with quantity of food. Most of schools served insufficient quantity of food items; that too in unhygienic conditions.</p> <p>Insufficient quantity of food items was served in 18 (45%) schools.</p> <p>On the other hand in 22 (55%) schools the MDM was completely closed due to lack of rice.</p> <p><b>School-wise break-up may be seen in the Table No. - 7.</b></p>
	(iii) If children were not happy, Please give reasons and suggestions to improve.
	<b>Children were not happy with MDM because:</b>
	<ul style="list-style-type: none"> <li>• Bad quality of food materials is often served in unhygienic condition.</li> <li>• Food is cooked and kept in open and dirty ground.</li> </ul>

- They are forced to sit on the ground without any proper sitting arrangement like *tat-patti*, *carpet* etc.
- Some children complained that they have to bring their own plates to eat the MDM.

**Suggestions given by students for improvement in MDM:**

- Better quality of rice should be provided to the school authority.
- Better quality of pulse and green vegetables with proper quantity should be served by the school management.
- Fruits/Salad also must be included in the MDM.
- Food items must be served by the concerned authority as per the menu.
- Proper sitting arrangement facilities also should be provided in the school for MDM.
- Adequate utensils and plates should be available in schools for providing MDM.
- Proper monitoring is necessary for maintaining the quality and quantity of meal.

**Suggestions given by teachers for improvement in MDM:**

- Supply of rice should be regular
- Separate staff should be appointed to look after MDM in the school.
- @ Rs10/- per students should be given by the Govt. for better quality of meal.
- Adequate utensils and plates should be made available in schools for preparing and serving the MDM.

**Suggestions given by parents and community people for improvement in MDM:**

- Separate person should be appointed at CRC level to look after the MDM quantity and quality in the school.
- Block level authority must visit once in a week to see the MDM facilities in the schools.
- Concerned people must be punished for serving bad quality of meal.
- Better quality food should be provided to the children.
- Green vegetables should also be given to the students in MDM.
- Supply of rice should be regular in the schools.

**Suggestions given MI for improvement in MDM:**

- Food grains and cooking cost should be provided to the VSS/MTA of concerned school regularly.
- Block level authority must visit twice in a month to see the MDM facilities in the schools.
- Separate person should be appointed at CRC level to look after the quality of MDM in schools.
- Green vegetables should also be given to the students in MDM.
- Light food items may also be distributed among students at dismissal hours, so that the students may have incentive to wait till the school hours are over.
- Amount for MDM food items should be increased to Rs10/- per students for better

	<p>quality of meal.</p> <ul style="list-style-type: none"> <li>• Separate trained staff should be appointed to look after MDM in the school.</li> <li>• The gas facilities should be provided to the schools for cooking the food.</li> <li>• Adequate utensils and plates should be made available in the school for preparing and serving the MDM.</li> <li>• Fruits and Salad also should be given to the students for better nutrition at least twice in a week.</li> <li>• Provision should be made by the government for construction of a <b>dining hall</b> in each school where children may take their meal in properly manner and hygienic condition.</li> <li>• For different types of expenditure schools must maintain different account so that it gives clear picture.</li> <li>• The remuneration of cooks should be increased by another Rs.1000/- presently they are being given Rs. 1000/-which is insufficient.</li> </ul>
8	<p><b><u>SUPPLEMENTARY:</u></b></p> <p>(i) Is there school Health Card maintained for each child?</p> <p>In 27 (67.5%) sampled schools maintained the health card for each child, while in 13 (32.5%) schools did not maintain the health card of any child.</p> <p>(ii) What is the frequency of health check-up?</p> <p>Health check-up of school students was done only one time in 27 (67.5%) sampled schools of Samastipur district during 2011-12.</p> <p>(iii) Whether children are given micronutrients (iron, folic acid, vitamin – A dosage) and de-worming medicine periodically?</p> <p>Micronutrients (Iron, folic acid &amp; vitamin – A dosage) which are necessary for improving the health and proper growth of the children was provided only one time in 27 (67.5%) sampled schools of Samastipur district during 2011-12. De-worming medicine was also given to the children only one time in 27 (67.5%) sampled schools of Samastipur district during 2011-12. <b>School-wise break-up may be seen in the Table No. - 8.</b></p> <p>4. Who administers these medicines and at what frequency?</p> <p>The Medical Officer of Primary Health Center of concerned block administers these medicines. It was rarely distributed in different schools of concerned block as reported by HM, teachers, parents and community people of coverage area of schools.</p>
9	<p><b><u>STATUS OF COOKS:</u></b></p> <p>(iii) Who cooks and serves the meal? (Cook cum helper appointed by the Department/VEC/ Self Help Group/NGO/Contractor)</p> <p>All (40) sampled schools of Samastipur district MDM preparation and distribution are managed by the VSS of concerned school. Hence the cook-cum-helper is appointed by the VSS of the concerned school.</p> <p>(ii) Is the number of cooks and helpers engaged in the school as per GOI norms?</p>

	<p>None of the schools visited have got any guidelines of Government of India with regard to the number of cooks to be engaged by them. Therefore, they are not engaging proper numbers of cooks.</p>												
	<p>(iii) What is remuneration paid to cooks cum helpers and mode of payment?</p>												
	<p>Schools where MDM is cooked &amp; served the honorarium of Rs.1000/- per month is paid to a cook. The HM reported to MI members that the remuneration of cooks/helpers was paid by them through banking channel. But their remuneration was not released by the concerned authority to the sampled schools from April, 2012.</p>												
	<p>(iv) Is the remuneration paid to cooks cum helpers regularly?</p>												
	<p>The remuneration of cooks/helpers was not paid regularly (i.e. once in a month). The cooks/helpers of sampled schools reported MI members that they did not receive their remuneration from April 2012. The HM, teachers and community people has also authenticated this matter.</p>												
	<p>(v) Specify the social composition of cooks cum helpers? (SC/ST/OBC/Minority)</p>												
	<p>Cooks/helpers of OBC category were found in majority of 33 (82.5%) sampled schools of Samastipur district. Outside OBC category the break-up of cooks of different castes was as follows:</p>												
	<table border="1"> <thead> <tr> <th>Sl. No.</th> <th>Caste Category</th> <th>No. of Sampled Schools</th> <th>Percent</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>SC</td> <td>27</td> <td>67.5</td> </tr> <tr> <td>2</td> <td>Minority</td> <td>2</td> <td>5.0</td> </tr> </tbody> </table>	Sl. No.	Caste Category	No. of Sampled Schools	Percent	1	SC	27	67.5	2	Minority	2	5.0
Sl. No.	Caste Category	No. of Sampled Schools	Percent										
1	SC	27	67.5										
2	Minority	2	5.0										
	<p><b>School-wise break-up may be seen in the Table No. - 9.</b></p>												
10	<p><b><u>INFRASTRUCTURE:</u></b></p> <p>Is a pucca kitchen shed-cum-store:</p> <ol style="list-style-type: none"> <li>1. Constructed and in use</li> <li>2. Scheme under which kitchen sheds constructed – MDM/SSA/Others</li> <li>3. Constructed but not in use (Reason for not using)</li> <li>4. Under construction</li> <li>5. Sanctioned, but construction not started</li> <li>6. Not sanctioned</li> <li>7. Any other (specify)</li> </ol>												
	<ul style="list-style-type: none"> <li>• The pucca kitchen shed-cum-store was available and also in use in 28 (70%) sampled schools of Samastipur district and it was constructed under SSA scheme.</li> <li>• In 1 (2.5%) schools pucca kitchen shed-cum-store was under construction stage.</li> <li>• 2 (5%) sampled schools has received amount for construction a Kitchen shed. But the construction of pucca kitchen shed-cum store was not started by the concerned schools.</li> <li>• The pucca kitchen shed-cum-store was not sanctioned in 9 (22.5%) sampled schools.</li> </ul>												

<b>School-wise break-up may be seen in the Table No. - 10.</b>	
11	<p>In case the pucca kitchen shed is not available, where is the food being cooked and where the food grains /other ingredients are being stored?</p> <ul style="list-style-type: none"> <li>• In such situation in all the twelve schools where kitchen was either under construction or construction not started or not sanctioned the food items were cooked and kept under thatched kitchen shed or in the open places or in a separate classroom.</li> <li>• The MDM food grains and other ingredients are kept in safe places inside the school (in the HM room/classroom).</li> </ul>
12	<p>Whether potable water is available for cooking and drinking purpose?</p> <p>Potable water was available in 38 (95%) schools visited of Samastipur district, but the number of hand pumps needed to be increased in some schools where the number of students was higher. In some schools the hand pumps are not in proper condition and it needs to be repaired. <b>School-wise break-up may be seen in the Table No. - 11.</b></p>
13	<p>Whether utensils are available for cooking food? If available, is it adequate?</p> <p>In Samastipur district, utensils were available in all (40) sampled schools for cooking food. But adequate number of utensils was not available in majority of (39) sampled schools (97.5%) of this district as reported by HM and cooks/helpers of concerned schools. <b>School-wise break-up may be seen in the Table No. - 11.</b></p>
14	<p>What is the kind of fuel used? (Gas based/firewood etc.)</p> <p>All sampled schools of Samastipur district used firewood as fuel for cooking MDM where MDM was prepared in the school.</p>
15	<p><b><u>SAFETY &amp; HYGIENE:</u></b></p> <p>General Impression of the environment, Safety and hygiene:</p> <p>(i) Are children encouraged to wash hands before and after eating?</p> <p>It was observed in sampled schools that teachers were encouraged their students to wash hands before and after taking meals.</p> <p>(ii) Do the children take meals in an orderly manner?</p> <p>There were 18 (45%) schools where children were found to take meals in an orderly manner in Samastipur district. The MDM was completely closed in 22 (55%) sampled schools of this district due to lack of rice. <b>School-wise break-up may be seen in the Table No. - 12.</b></p> <p>(iii) Conservation of water?</p> <p>Children are not taught in school to conserve water while washing dishes in Samastipur district. Therefore, none of the sample school's children of this district used the practice of conserving water while washing dishes.</p> <p>(iv) Is the cooking process and storage of fuel safe, not posing any fire hazard?</p> <p>The cooking process and storage of fuel is safe in all sampled schools where MDM prepared in the school.</p>

16	<b>COMMUNITY PARTICIPATION AND AWARENESS:</b>																					
	Extent of participation by Parents/VSSs/VECs/Panchayats/Urban bodies in daily supervision, monitoring and participation.																					
	(i) Is any roster being maintained by the community members for supervision of the MDM																					
	Roster was not maintained by the community members for supervision of the MDM in any of the sampled schools of Samastipur district.																					
	(ii) Are the parents/community members aware about the following?																					
	(a) Quantity of MDM per child:																					
	In all the 40 schools visited it was found that many of the parents and many among the community members of the schools are aware that MDM is provided to students @100 gram rice per child, per day for primary school (i.e. class I to V) and @150 gram rice per child per day for Upper Primary School (i.e. class VI to VIII).  But, also there were parents and members of community who were not aware about FCI releasing rice.																					
	(b) Entitlement of quantity and types of nutrients in MDM per child as supplied in the menu:																					
	According to menu, the cooks/helpers have to cook rice @100 gram rice per child per day for primary school and @150 gram rice per child per day for Upper Primary School. Also, they prepared other things like vegetables, dal, rajama, karhi, nutrella, chokha etc. as per the menu.																					
	(c) General awareness about the overall implementation of MDM programme:																					
The parents/community members were aware of the MDM programme. Their general awareness about the overall implementation of MDM programme was found satisfactory by the MI members. But they did not visit frequently in schools to look after the MDM programme.																						
(d) Sources of awareness about the MDM scheme:																						
<table border="0"> <tr> <td>1. Newspaper/Magazine</td> <td>43.5%</td> </tr> <tr> <td>2. Villagers/Friends/Relatives</td> <td>84.5%</td> </tr> <tr> <td>3. 17	<b>INSPECTION &amp; SUPERVISION</b>																					
(i) Has the mid day meal programme been inspected by any state/district/block level officers/officials?																						

	<p>According to HM of sampled schools, the MDM programme was supposed to be inspected by the state/ district/ block level officers/officials in sampled schools of this district. But it was rarely inspected by the state/district/block level officers/officials in sampled schools of this district.</p>
	<p>(ii) The frequency of such inspection?</p>
	<p>In Samastipur district, MDM programme was not frequently inspected by the state/ district/ block level officers/ officials in sampled schools of this district. Block resource person of MDM visited respective schools of block once in a month only for data collection. The SDO/BEEOs/BRCCs of concerned block visited very few schools in a block of six months.</p>
	<p>(iii) Remarks made by the visiting officers? If any?</p>
	<p>Since hardly any visit was conducted, no remarks were found in either visiting register or in MDM registers.</p>
18	<p><b>IMPACT</b></p> <p>(i) Has the mid day meal improved the enrollment, attendance of children in school, any improvement in general well being, nutritional status of children?</p>
	<p>In fact the MDM has improved the enrollment and attendance of children in schools especially in rural areas. Comparatively at least the poor and below poverty line children were getting the kind of food which they would have otherwise not got at their homes. Thus, the MDM has attracted weaker sections of parents to send their children to school for education. The nutritional status of the children especially weaker section children has also improved.</p>
	<p>(ii) Is there any other incidental benefit to the children and school due to serving of mid-day-meal by VSS, VEC, and PRI members?</p>
	<p>The MDM has attracted the weaker section parents to send their children to school for education. Poor women got part time employment for preparing and serving MDM in the nearest school. The poor and below poverty line children get adequate nutrients and food through MDM. The dropout rate of children from schools is also decreasing with the help of this programme.</p>

**Table: 1**

## School-wise Status of MDM and Reasons for Interruption in MDM Facilities

Name of Block	Sl. No.	Name of School	Schools are serving hot cooked meal daily (Yes/No)	Main reasons for interruption in MDM facilities
Samastipur	1	M. S. Gola Road Chini Mill	No	Due to lack of rice
	2	M. S. Bahadurpur Samastipur	No	Due to lack of rice
	3	P. S. (Maktab) Dharpur	No	Due to lack of rice

## (D) Mid-Day Meal Scheme: Saran district

3.1	Name of the District	Saran
3.2	Date of visit to the District/EGS/Schools	16 <sup>th</sup> to 24 <sup>th</sup> July 2012

1	<p><b><u>REGULARITY IN SERVING MEAL:</u></b></p> <p>(i) Whether the school is serving hot cooked meal daily?</p> <p>In Saran district, on the day of visit it was found that 29 (72.5%) sampled schools out of 40 sampled schools are serving hot cooked meals daily in MDM to the students of all classes. In all sampled schools MDM was prepared and served by VSS/MTA.</p> <p>(ii) If there was interruption, what was the extent and reasons for the same?</p> <p>11 (27.5%) sampled schools of this district was not serving hot cooked meals regularly to their children due to many reasons. The break-up of reasons are as follows in respect of interruption of MDM in Saran district where sampled schools are not serving hot cooked meals on the day of visit:</p> <table border="1"> <thead> <tr> <th>Sl. No.</th> <th>Reasons</th> <th>No. of Sampled Schools</th> <th>Percent</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Unavailability of rice in the schools</td> <td>6</td> <td>15.0</td> </tr> <tr> <td>2</td> <td>Unavailability of rice and coking cost</td> <td>4</td> <td>10.0</td> </tr> <tr> <td>3</td> <td>Unavailability of rice and coking cost</td> <td>1</td> <td>2.5</td> </tr> </tbody> </table> <p>After the discussion with students, teachers, parents, VSS members and also crosschecking the MDM register &amp; records, MI members found that MDM was not being served regularly. For instance, it was reported to us that during last 1 day in M. S. Manupur (Block - Dighwara).</p> <p>It was worst in some other schools, for example it was not served since last 141 days in Ganga Devi Arya Kanya M. S. Sahibganj (Block - Chapra) &amp; Arya Shishu M. S. Sahibganj (Block - Chapra), since last 82 days in P. S. Chainpur Yadav Tola (Block - Taraiya), since last 65 days in M. S. Banauta (Block - Parsa), since last 55 days Kanya P. S. Chhota Telpa (Block - Chapra), since last 51 days in P. S. Shobhepur (Block - Sonapur), since last 47 days in Adarsh M. S. Parsa, since last 35 days in P. S. Usarikala (Block - Ishuapur), since last 25 days in P. S. Suguni (Block - Parsa) and since last 22 days in P. S. Masrak Dakshini Tola (Masrak).</p> <p>The MI members found that MDM was completely closed in 11 (27.5%) sampled schools of different blocks of Saran district. The main reason of interruption of MDM in schools was unavailability of rice and cooking cost. <b>School-wise break-up may be seen in the Table No. - 1.</b></p>			Sl. No.	Reasons	No. of Sampled Schools	Percent	1	Unavailability of rice in the schools	6	15.0	2	Unavailability of rice and coking cost	4	10.0	3	Unavailability of rice and coking cost	1	2.5
Sl. No.	Reasons	No. of Sampled Schools	Percent																
1	Unavailability of rice in the schools	6	15.0																
2	Unavailability of rice and coking cost	4	10.0																
3	Unavailability of rice and coking cost	1	2.5																

2	<p><b><u>TRENDS:</u></b></p> <p>Extent of variation (As per school records vis-à-vis actual position/status on the day of visit)</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">No.</th> <th style="text-align: center;">Details</th> <th style="text-align: center;">Figure (No. of Students)</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">(i)</td> <td>Enrollment</td> <td style="text-align: center;">17, 597</td> </tr> <tr> <td style="text-align: center;">(ii)</td> <td>No. of children opted for Mid Day Meal</td> <td style="text-align: center;">17, 597</td> </tr> <tr> <td style="text-align: center;">(iii)</td> <td>No. of children attending the school on the day of visit</td> <td style="text-align: center;">9, 935</td> </tr> <tr> <td style="text-align: center;">(iv)</td> <td>No. of children availing MDM as per MDM Register</td> <td style="text-align: center;">7, 011</td> </tr> <tr> <td style="text-align: center;">(v)</td> <td>No. of children actually availing MDM on the day of visit</td> <td style="text-align: center;">7, 011</td> </tr> <tr> <td style="text-align: center;">(vi)</td> <td>No. of children availed MDM on the previous day</td> <td style="text-align: center;">7, 461</td> </tr> </tbody> </table> <p>The above table reveals that –</p> <ul style="list-style-type: none"> <li>• In the given 40 schools the total number of students enrolled was found to be 17, 597.</li> <li>• Out of the total number of students enrolled in the 40 schools 9, 935 students were found to be present on the day of visit of monitoring team which comes to 56.5 percent of students attending the class on the day of visit of the monitoring team.</li> <li>• On the date of visit of MI team out of the total number of students enrolled 7, 011 students were found to be taking MDM which comes to 39.8 percent of the total enrolled students taking MDM on the given date.</li> <li>• On the date previous to the date of visit, it was reported, as per official record that out of the total number of students enrolled 7, 461 students had taken MDM which comes to 42.4 percent of the total enrolled students taking MDM.</li> </ul> <p><b>Observation:</b></p> <ul style="list-style-type: none"> <li>• Food served was of poor quality.</li> </ul> <p><b>Suggestions:</b></p> <p>Important steps should be taken by the concerned authority as early as possible to improve the quality and also regularize the MDM in the schools in respect to Right to Education.</p> <p style="text-align: center;"><b>School-wise break-up may be seen in the Table No. - 2.</b></p>	No.	Details	Figure (No. of Students)	(i)	Enrollment	17, 597	(ii)	No. of children opted for Mid Day Meal	17, 597	(iii)	No. of children attending the school on the day of visit	9, 935	(iv)	No. of children availing MDM as per MDM Register	7, 011	(v)	No. of children actually availing MDM on the day of visit	7, 011	(vi)	No. of children availed MDM on the previous day	7, 461

3	<p><b><u>REGULARITY IN DELIVERING FOOD GRAINS TO SCHOOL LEVEL:</u></b></p> <p>(i) Is school receiving food grain regularly? If there is delay in delivering food grains, what is the extent of delay and reasons for the same?</p> <p style="text-align: center;">In 22 schools (55%) the food grains were being received regularly whereas 18 (45%) schools it was not being received regularly. The HM of concerned schools informed the MI that the MDM remains closed for months because of non availability of rice with the dealer. <b>School-wise break-up may be seen in the Table No. - 3.</b></p> <p>(ii) Is buffer stock of one-month's requirement is maintained?</p> <p style="text-align: center;">The buffer stock of one month's requirement was maintained by 22 (55%) sampled</p>																					

	<p>schools of Saran district. <b>School-wise break-up may be seen in the Table No. - 3.</b></p>
	<p>(iii) Is the quantity of food grain supplied was as per the marked/indicated weight?</p> <p>The HM, teachers and community people reported to MI members that quantity of food grain supplied by dealers in sampled schools was not matched with the marked/ indicated weight. They were facing so many problems. But none of them has lodged complains in front of the higher authority. The MI members also observed that the bag of food grains (rice) was not properly packed by FCI.</p>
	<p>(iv) Is the food grains delivered at the school?</p> <p>The HM of sampled schools reported to MI members that the food grains are delivered at school by the concerned dealer.</p>
	<p>(v) Is the quality of food grain good?</p> <p>The quality of food grains was found average in 33 (82.5%) sampled schools. On the other hand in 7 schools (17.5%) the MDM was completely closed due to lack of rice. <b>School-wise break-up may be seen in the Table No. - 3.</b></p>
4	<p><b><u>REGULARITY IN DELIVERING COOKING COST TO SCHOOL LEVEL:</u></b></p> <p>(i) Is school/implementing agency receiving cooking cost in advance regularly? If there is delay in delivering cooking cost, what is the extent of delay and reasons for it?</p> <p>In 35 (87.5%) sampled schools of Saran district were receiving cooking cost in advance regularly. Cooking cost (Rs.3.14 per head per day in primary schools and Rs.4.65 per head in upper primary schools) was released to majority of schools in advance by the concerned office of the district. <b>School-wise break-up may be seen in the Table No. - 4.</b></p> <p>(ii) In case of delay, how schools/implementing agency manages to ensure that there is no disruption in the feeding programme?</p> <p>In case of delay of cooking cost MDM is discontinued.</p> <p>(iii) Is cooking cost paid by Cash or through banking channel?</p> <p>All the sampled schools received cooking cost for MDM through banking channel.</p>
5	<p><b><u>SOCIAL EQUITY:</u></b></p> <p>(i) Did you observe any gender or caste or community discrimination in cooking or serving or seating arrangements?</p> <p>There was no caste / gender/ disability based discrimination seen during the serving the Mid-Day Meal to the students in sampled schools of Saran district. All children were treated equally irrespective of caste, gender and disability.</p> <p>(ii) What is the system of serving and seating arrangements for eating?</p> <p>Students were encouraged to sit in queue with their plates and after that food items were served by the cooks. Tat-Patti or carpet was not available in schools for this purpose. <b>School-wise break-up may be seen in the Table No. - 5.</b></p>
6	<p><b><u>VARIETY OF MENU:</u></b></p> <p>(i) Has the school displayed its weekly menu at a place noticeable to community, and is it able to adhere to</p>

	<p>the menu displayed?</p> <p>All (40) sampled schools had displayed its weekly menu but they hardly adhered to the menu displayed.</p>
	<p>(ii) Who decides the menu?</p> <p>The State/District level officers of MDM decided the menu and a copy of such menu were provided to schools with a request to serve the MDM to their students according to the given menu.</p>
	<p>(iii) Is there variety in the food served or is the same food served daily?</p> <p>Sampled schools of Saran district are serving variety of food where it is being served. The food items i.e. khichari-chokha, rice-pulse &amp; vegetables, rice-rajma, Rice-nutrela etc. was served in sampled schools of this district where it is being served.</p>
	<p>(iv) Does the daily menu include rice / wheat preparation, dal and vegetables?</p> <p>Sampled schools of Saran district included rice preparation, dal and vegetables in their daily menu where it is being served, while none of sampled schools of this district included wheat preparation in their daily menu. Green vegetables are rarely cooked in the sampled schools. <b>School-wise break-up may be seen in the Table No. - 6.</b></p>
7	<p><b><u>QUALITY &amp; QUANTITY OF MEAL:</u></b></p> <p>Feedback from children on –</p> <p>(i) Quality of meal:</p> <ul style="list-style-type: none"> <li>• When the MI observers asked the children, parents and community members about the quality of mid-day meal which was served in schools, it was discovered that they were not happy with quality of food. Most of schools served often either average or poor quality of food items in unhygienic condition. Food was cooked and kept in open and dirty ground.</li> <li>• The quality of meal was found good in 18 (45%) sampled schools and average in 11 (27.5%) sampled schools. On the other hand in 11 (27.5%) schools the MDM was completely closed due to lack of rice and cooking cost.</li> <li>• Adequate number of plates was often not available in schools; therefore, many children bring their own plates for taking food.</li> <li>• <b>School-wise break-up may be seen in the Table No. - 7.</b></li> </ul>
	<p>(ii) Quantity of meal:</p> <p>When the MI observers asked the children, parents and community members about the quantity of mid-day meal which was served in the schools, it was discovered that they were not happy with quantity of food. Most of schools served insufficient quantity of food items; that too in unhygienic condition.</p> <p>Sufficient quantity of food items was served in 26 (65%) schools; while it was not found to be of sufficient quantity in 3 (7.5%) other schools.</p> <p>On the other hand in 11 (27.5%) schools the MDM was completely closed due to lack of rice and cooking cost. <b>School-wise break-up may be seen in the Table No. - 7.</b></p>

(iii) If children were not happy, Please give reasons and suggestions to improve.

**Children were not happy with MDM because:**

- Bad quality of food materials is often served in unhygienic condition.
- Food is cooked and kept in open and dirty ground.
- They are forced to sit on the ground without any proper sitting arrangement like *tat-patti, carpet* etc.
- Some children complained that they have to bring their own plates to eat the MDM.

**Suggestions given by students for improvement in MDM:**

- Better quality of rice should be provided to the school authority.
- Better quality of pulse and green vegetables with proper quantity should be served by the school management.
- Fruits/Salad also must be included in the MDM.
- Food items must be served by the concerned authority as per the menu.
- Proper sitting arrangement facilities also should be provided in the school for MDM.
- Adequate utensils and plates should be available in schools for providing MDM.
- Proper monitoring is necessary for maintaining the quality and quantity of meal.

**Suggestions given by teachers for improvement in MDM:**

- Supply of rice should be regular
- Separate staff should be appointed to look after MDM in the school.
- @ Rs10/- per students should be given by the Govt. for better quality of meal.
- Adequate utensils and plates should be made available in schools for preparing and serving the MDM.

**Suggestions given by parents and community people for improvement in MDM:**

- Separate person should be appointed at CRC level to look after the MDM quantity and quality in the school.
- Block level authority must visit once in a week to see the MDM facilities in the schools.
- Concerned people must be punished for serving bad quality of meal.
- Better quality food should be provided to the children.
- Green vegetables should also be given to the students in MDM.
- Supply of rice should be regular in the schools.

**Suggestions given MI for improvement in MDM:**

- Food grains and cooking cost should be provided to the VSS/MTA of concerned school regularly.
- Block level authority must visit twice in a month to see the MDM facilities in the schools.
- Separate person should be appointed at CRC level to look after the quality of MDM

	<p>in schools.</p> <ul style="list-style-type: none"> <li>• Green vegetables should also be given to the students in MDM.</li> <li>• Light food items may also be distributed among students at dismissal hours, so that the students may have incentive to wait till the school hours are over.</li> <li>• Amount for MDM food items should be increased to Rs10/- per students for better quality of meal.</li> <li>• Separate trained staff should be appointed to look after MDM in the school.</li> <li>• The gas facilities should be provided to the schools for cooking the food.</li> <li>• Adequate utensils and plates should be made available in the school for preparing and serving the MDM.</li> <li>• Fruits and Salad also should be given to the students for better nutrition at least twice in a week.</li> <li>• Provision should be made by the government for construction of a <b>dining hall</b> in each school where children may take their meal in properly manner and hygienic condition.</li> <li>• For different types of expenditure schools must maintain different account so that it gives clear picture.</li> <li>• The remuneration of cooks should be increased by another Rs.1000/- presently they are being given Rs. 1000/-which is insufficient.</li> </ul>
8	<p><b><u>SUPPLEMENTARY:</u></b></p> <p>(i) Is there school Health Card maintained for each child?</p> <p>In 15 (37.5%) sampled schools maintained the health card for each child, while 25 schools (62.5%) did not maintain the health card of any child. <b>School-wise break-up may be seen in the Table No. - 8.</b></p> <p>(ii) What is the frequency of health check-up?</p> <p>Health check-up of school students was not done in any sampled schools of Saran district during 2011-12.</p> <p>(iii) Whether children are given micronutrients (iron, folic acid, vitamin – A dosage) and de-worming medicine periodically?</p> <p>Micronutrients (Iron, folic acid &amp; vitamin – A dosage) which are necessary for improving the health and proper growth of the children was provided only one time in 9 (22.5%) sampled schools of Saran district during 2011-12, while De-worming medicine was given to the children only one time in 18 (45%) sampled schools of Saran district during 2011-12.</p> <p>1. Who administers these medicines and at what frequency?</p> <p>The Medical Officer of Primary Health Center of concerned block administers these medicines. It was rarely distributed in different schools of concerned block as reported by HM, teachers, parents and community people of coverage area of schools.</p>
9	<p><b><u>STATUS OF COOKS:</u></b></p> <p>(iv) Who cooks and serves the meal? (Cook cum helper appointed by the Department/VEC/ Self Help</p>

	Group/NGO/Contractor)																				
	All (40) sampled schools of Saran district MDM preparation and distribution are managed by the VSS of concerned school. Hence the cook-cum-helper is appointed by the VSS of the concerned school.																				
	(ii) Is the number of cooks and helpers engaged in the school as per GOI norms?																				
	None of the schools visited have got any guidelines of Government of India with regard to the number of cooks to be engaged by them. Therefore, they are not engaging proper numbers of cooks.																				
	(iii) What is remuneration paid to cooks cum helpers and mode of payment?																				
	Schools where MDM is cooked & served the honorarium of Rs.1000/- per month is paid to a cook. The HM reported to MI members that the remuneration of cooks/helpers was paid by them through banking channel. But their remuneration was not released by the concerned authority to the sampled schools from April, 2012.																				
	(iv) Is the remuneration paid to cooks cum helpers regularly?																				
	The remuneration of cooks/helpers was not paid regularly (i.e. once in a month). The cooks/helpers of sampled schools reported MI members that they did not receive their remuneration from April 2012. The HM, teachers and community people has also authenticated this matter.																				
	(v) Specify the social composition of cooks cum helpers? (SC/ST/OBC/Minority)																				
	Cooks/helpers of OBC category were found in majority of 33 (82.5%) sampled schools of Saran district. Outside OBC category the break-up of different castes was as follows:																				
	<table border="1"> <thead> <tr> <th>Sl. No.</th> <th>Caste Category</th> <th>No. of Sampled Schools</th> <th>Percent</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>SC</td> <td>19</td> <td>47.5</td> </tr> <tr> <td>2</td> <td>ST</td> <td>2</td> <td>5.0</td> </tr> <tr> <td>3</td> <td>Minority</td> <td>2</td> <td>5.0</td> </tr> <tr> <td>4</td> <td>General</td> <td>6</td> <td>15.0</td> </tr> </tbody> </table>	Sl. No.	Caste Category	No. of Sampled Schools	Percent	1	SC	19	47.5	2	ST	2	5.0	3	Minority	2	5.0	4	General	6	15.0
Sl. No.	Caste Category	No. of Sampled Schools	Percent																		
1	SC	19	47.5																		
2	ST	2	5.0																		
3	Minority	2	5.0																		
4	General	6	15.0																		
	<b>School-wise break-up may be seen in the Table No. - 9.</b>																				
10	<p><b><u>INFRASTRUCTURE:</u></b></p> <p>Is a pucca kitchen shed-cum-store:</p> <ol style="list-style-type: none"> <li>Constructed and in use</li> <li>Scheme under which kitchen sheds constructed – MDM/SSA/Others</li> <li>Constructed but not in use (Reason for not using)</li> <li>Under construction</li> <li>Sanctioned, but construction not started</li> <li>Not sanctioned</li> <li>Any other (specify)</li> </ol>																				

	<ul style="list-style-type: none"> <li>• The pucca kitchen shed-cum-store was available and also in use in 18 (45%) of the sampled schools of Saran district and it was constructed under SSA scheme.</li> <li>• The pucca kitchen shed-cum-store was constructed but not in use in 3 (7.5%) sampled schools of Saran district. The HM of concerned schools reported to MI members that the size of the pucca kitchen shed-cum-store was not adequate as per the requirement. Therefore, additional room was engaged.</li> <li>• In 3 (7.5%) schools pucca kitchen shed-cum-store was under construction stage.</li> <li>• 1 (2.5%) sampled schools has received amount for construction of a Kitchen shed. But the construction of pucca kitchen shed-cum store was not started by the concerned schools.</li> <li>• The pucca kitchen shed-cum-store was not sanctioned in 15 (37.5%) sampled schools.  <b>. School-wise break-up may be seen in the Table No. - 10.</b></li> </ul>
11	<p>In case the pucca kitchen shed is not available, where is the food being cooked and where the food grains /other ingredients are being stored?</p> <ul style="list-style-type: none"> <li>• In such situation in all the nineteen schools where kitchen was either under construction/construction not started or not sanctioned the food items were cooked and kept under thatched kitchen shed or in the open places or in a separate classroom.</li> <li>• The MDM food grains and other ingredients are kept in safe places inside the school (in the HM room/classroom).</li> </ul>
12	<p>Whether potable water is available for cooking and drinking purpose?</p> <p>Potable water was available in all (39) schools visited of Saran district, but the number of hand pumps needed to be increased in some schools where the number of students was higher. In some schools the hand pumps are not in proper condition and it needs to be repaired. <b>School-wise break-up may be seen in the Table No. - 11.</b></p>
13	<p>Whether utensils are available for cooking food? If available, is it adequate?</p> <p>In Saran district, utensils were available in all (40) sampled schools for cooking food. But adequate number of utensils was not available in majority of (31) sampled schools (77.5%) of this district as reported by HM and cooks/helpers of concerned schools. <b>School-wise break-up may be seen in the Table No. - 11.</b></p>
14	<p>What is the kind of fuel used? (Gas based/firewood etc.)</p> <p>In 24 (60%) sampled schools of Saran district used firewood as fuel for cooking MDM where MDM was prepared in the school whereas in 10 (25%) school of this district used coal as fuel for cooking MDM. In 6 (15%) school of this district used gas as fuel for cooking MDM. <b>School-wise break-up may be seen in the Table No. - 11.</b></p>
15	<p><b><u>SAFETY &amp; HYGIENE:</u></b></p> <p>General Impression of the environment, Safety and hygiene:</p> <p>(i) Are children encouraged to wash hands before and after eating?</p> <p>It was observed in sampled schools that teachers were encouraged their students to wash hands before and after taking meals.</p>

	(ii) Do the children take meals in an orderly manner?
	There were 29 (72.5%) schools where children were found to take meals in an orderly manner in Saran district. The MDM was completely closed in 11 (27.5%) sampled schools of this district due to lack of rice & cooking cost. <b>School-wise break-up may be seen in the Table No. - 12.</b>
	(iii) Conservation of water?
	Children are not taught in school to conserve water while washing dishes in Saran district. Therefore, none of the sample school's children of this district used the practice of conserving water while washing dishes.
	(iv) Is the cooking process and storage of fuel safe, not posing any fire hazard?
	The cooking process and storage of fuel is safe in all sampled schools where MDM prepared in school.
16	<b>COMMUNITY PARTICIPATION AND AWARENESS:</b> Extent of participation by Parents/VSSs/VECs/Panchayats/Urban bodies in daily supervision, monitoring and participation.
	(i) Is any roster being maintained by the community members for supervision of the MDM
	Roster was not maintained by the community members for supervision of the MDM in any of the sampled schools of Saran district.
	(ii) Are the parents/community members aware about the following?
	(a) Quantity of MDM per child:
	In all the 40 schools visited it was found that many of the parents and many among the community members of the schools are aware that MDM is provided to students @100 gram rice per child, per day for primary school (i.e. class I to V) and @150 gram rice per child per day for Upper Primary School (i.e. class VI to VIII).  But, also there were parents and members of community who were not aware about FCI releasing rice.
	(b) Entitlement of quantity and types of nutrients in MDM per child as supplied in the menu:
	According to menu, the cooks/helpers have to cook rice @100 gram rice per child per day for primary school and @150 gram rice per child per day for Upper Primary School. Also, they prepared other things like vegetables, dal, rajama, karhi, nutrella, chokha etc. as per the menu.
	(c) General awareness about the overall implementation of MDM programme:
	The parents/community members were aware of the MDM programme. Their general awareness about the overall implementation of MDM programme was found satisfactory by the MI members. But they did not visit frequently in schools to look after the MDM programme.
	(d) Sources of awareness about the MDM scheme:
	1. Newspaper/Magazine <span style="float: right;">52.5%</span>

	<p>2. Villagers/Friends/Relatives 81.5%</p> <p>3. Teachers 100.0%</p> <p>4. School (where the child is studying) 100.0%</p> <p>5. Radio 35.5%</p> <p>6. Television 51.5%</p> <p>7. Website 1.5%</p> <p>8. Any other: (a) Anganwari Sevika 26.5%</p> <p>(b) Gram Pradhan/Mukhiya/Ward members 7.5%</p> <p>(c) Cooks/helpers 46.5%</p> <p>(d) Children 100.0%</p>
17	<p><b>INSPECTION &amp; SUPERVISION</b></p> <p>(i) Has the mid day meal programme been inspected by any state/district/block level officers/officials?</p> <p>According to HM of sampled schools, the MDM programme was supposed to be inspected by the state/ district/ block level officers/officials in sampled schools of this district. But it was rarely inspected by the state/district/block level officers/officials in sampled schools of this district.</p> <p>(ii) The frequency of such inspection?</p> <p>In Saran district, MDM programme was not frequently inspected by the state/ district/ block level officers/ officials in sampled schools of this district. Block resource person of MDM visited respective schools of block once in a month only for data collection. The SDO/BEEOs/BRCCs of concerned block visited very few schools in a block of six months.</p> <p>(iii) Remarks made by the visiting officers? If any?</p> <p>Since hardly any visit was conducted, no remarks were found in either visiting register or in MDM registers.</p>
18	<p><b>IMPACT</b></p> <p>(i) Has the mid day meal improved the enrollment, attendance of children in school, any improvement in general well being, nutritional status of children?</p> <p>In fact the MDM has improved the enrollment and attendance of children in schools especially in rural areas. Comparatively at least the poor and below poverty line children were getting the kind of food which they would have otherwise not got at their homes. Thus, the MDM has attracted weaker sections of parents to send their children to school for education. The nutritional status of the children especially weaker section children has also improved.</p> <p>(ii) Is there any other incidental benefit to the children and school due to serving of mid-day-meal by VSS, VEC, and PRI members?</p> <p>The MDM has attracted the weaker section parents to send their children to school for education. Poor women got part time employment for preparing and serving MDM in the nearest school. The poor and below poverty line children get adequate nutrients and food through MDM. The dropout rate of children from schools is also decreasing with the help of this programme.</p>

**Table: 1**

## School-wise Status of MDM and Reasons for Interruption in MDM Facilities

Name of Block	Sl. No.	Name of School	Schools are serving hot cooked meal daily (Yes/No)	Main reasons for interruption in MDM facilities

## (E) Mid-Day Meal Scheme: Siwan District

3.1	Name of the District	Siwan
3.2	Date of visit to the District/EGS/Schools	16 <sup>th</sup> to 24 <sup>th</sup> July 2012

1	<p><b><u>REGULARITY IN SERVING MEAL:</u></b></p> <p>(i) Whether the school is serving hot cooked meal daily?</p> <p>In Siwan district, on the day of visit it was found that 36 (90%) sampled schools out of 40 sampled schools are serving hot cooked meals daily in MDM to the students of all classes. In all sampled schools MDM was prepared and served by VSS/MTA.</p> <p>(ii) If there was interruption, what was the extent and reasons for the same?</p> <p>4 (10%) sampled schools of this district was not serving hot cooked meals regularly to their children due to many reasons. The break-up of reasons is as follows in respect of interruption of MDM in Siwan district where sampled schools are serving hot cooked meals on the day of visit:</p> <table border="1"> <thead> <tr> <th>Sl. No.</th> <th>Reasons</th> <th>No. of Sampled Schools</th> <th>Percent</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Unavailability of cooking cost in schools</td> <td>2</td> <td>5.0</td> </tr> <tr> <td>2</td> <td>Previous HM was not given the charge to present HM</td> <td>2</td> <td>5.0</td> </tr> </tbody> </table> <p>After the discussion with students, teachers, parents, VSS members and also crosschecking the MDM register &amp; records, MI members found that MDM was not being served regularly. For instance, it was reported to us that since last 6 days, it was not served in Upgraded M. S. Matuk Chhapra (Block - Pachrukhi).</p> <p>It was worst in some other schools, for example it was not served since last 63 days in M. S. Barkagoan (Block - Pachrukhi), since last 20 days in S. K. G. M. S. Siwan (Block - Siwan) and since last 18 days in Upgraded M. S. Siswan Khurd (Block - Mairwan).</p> <p>The MI members found that MDM was completely closed in 2 (5%) sampled schools due to unavailability of cooking cost whereas it was closed in another 2 (5%) sampled schools because previous HM was not given the charge to present HM. <b>School-wise break-up may be seen in the Table No. - 1.</b></p>			Sl. No.	Reasons	No. of Sampled Schools	Percent	1	Unavailability of cooking cost in schools	2	5.0	2	Previous HM was not given the charge to present HM	2	5.0
Sl. No.	Reasons	No. of Sampled Schools	Percent												
1	Unavailability of cooking cost in schools	2	5.0												
2	Previous HM was not given the charge to present HM	2	5.0												
2	<p><b><u>TRENDS:</u></b></p> <p>Extent of variation (As per school records vis-à-vis actual position/status on the day of visit)</p> <table border="1"> <thead> <tr> <th>No.</th> <th>Details</th> <th>Figure (No. of Students)</th> </tr> </thead> <tbody> <tr> <td>(i)</td> <td>Enrollment</td> <td>22, 489</td> </tr> <tr> <td>(ii)</td> <td>No. of children opted for Mid Day Meal</td> <td>22, 489</td> </tr> <tr> <td>(iii)</td> <td>No. of children attending the school on the day of visit</td> <td>12, 982</td> </tr> </tbody> </table>			No.	Details	Figure (No. of Students)	(i)	Enrollment	22, 489	(ii)	No. of children opted for Mid Day Meal	22, 489	(iii)	No. of children attending the school on the day of visit	12, 982
No.	Details	Figure (No. of Students)													
(i)	Enrollment	22, 489													
(ii)	No. of children opted for Mid Day Meal	22, 489													
(iii)	No. of children attending the school on the day of visit	12, 982													

	(iv)	No. of children availing MDM as per MDM Register	12, 253
	(v)	No. of children actually availing MDM on the day of visit	12, 253
	(v)	No. of children availed MDM on the previous day	12, 411
<p>The above table reveals that –</p> <ul style="list-style-type: none"> <li>• In the given 40 schools the total number of students enrolled was found to be 22, 489.</li> <li>• Out of the total number of students enrolled in the 40 schools 12, 982 students were found to be present on the day of visit of monitoring team which comes to 57.7 percent of students attending the class on the day of visit of the monitoring team.</li> <li>• On the date of visit of MI team out of the total number of students enrolled 12, 253 students were found to be taking MDM which comes to 54.5 percent of the total enrolled students taking MDM on the given date.</li> <li>• On the date previous to the date of visit, it was reported, as per official record that out of the total number of students enrolled 12, 411 students had taken MDM which comes to 55.2 percent of the total enrolled students taking MDM.</li> </ul> <p><b>Observation:</b></p> <ul style="list-style-type: none"> <li>• Food served was of poor quality.</li> </ul> <p><b>Suggestions:</b></p> <p>Important steps should be taken by the concerned authority as early as possible to improve the quality and also regularize the MDM in the schools in respect to Right to Education.</p> <p><b>School-wise break-up may be seen in the Table No. - 2.</b></p>			
3	<b><u>REGULARITY IN DELIVERING FOOD GRAINS TO SCHOOL LEVEL:</u></b>		
	(i)	Is school receiving food grain regularly? If there is delay in delivering food grains, what is the extent of delay and reasons for the same?	
	In all (40) sampled schools the food grains were being received regularly.		
	(ii)	Is buffer stock of one-month's requirement is maintained?	
	The buffer stock of one month's requirement was maintained in all (40) sampled schools of Siwan district.		
	(iii)	Is the quantity of food grain supplied was as per the marked/indicated weight?	
	The HM, teachers and community people reported to MI members that quantity of food grain supplied by dealers in sampled schools was not matched with the marked/ indicated weight. They were facing so many problems. But none of them has lodged complains in front of the higher authority. The MI members also observed that the bag of food grains (rice) was not properly packed by FCI.		
	(iv)	Is the food grains delivered at the school?	
	The HM of sampled schools reported to MI members that the food grains are delivered		

	at school by the concerned dealer.
	(v) Is the quality of food grain good?
	The quality of food grains was found good in 4 (10%) sampled schools, average in 29 (72.5%) sampled schools while the quality of food grains was found poor in 7 (17.5%) sampled schools. <b>School-wise break-up may be seen in the Table No. - 3.</b>
4	<b><u>REGULARITY IN DELIVERING COOKING COST TO SCHOOL LEVEL:</u></b>
	(i) Is school/implementing agency receiving cooking cost in advance regularly? If there is delay in delivering cooking cost, what is the extent of delay and reasons for it?
	In 38 (95%) sampled schools of Siwan district were receiving cooking cost in advance regularly. Cooking cost (Rs.3.14 per head per day in primary schools and Rs.4.65 per head in upper primary schools) was released to majority of schools in advance by the concerned office of the district. <b>School-wise break-up may be seen in the Table No. - 4.</b>
	(ii) In case of delay, how schools/implementing agency manages to ensure that there is no disruption in the feeding programme?
	In case of delay of cooking cost MDM is discontinued.
	(iii) Is cooking cost paid by Cash or through banking channel?
	All the sampled schools received cooking cost for MDM through banking channel.
5	<b><u>SOCIAL EQUITY:</u></b>
	(i) Did you observe any gender or caste or community discrimination in cooking or serving or seating arrangements?
	There was no caste / gender/ disability based discrimination seen during the serving the Mid-Day Meal to the students in sampled schools of Siwan district. All children were treated equally irrespective of caste, gender and disability.
	(ii) What is the system of serving and seating arrangements for eating?
	Students were encouraged to sit in queue with their plates and after that food items were served by the cooks. Tat-Patti or carpet was not available in schools for this purpose. <b>School-wise break-up may be seen in the Table No. - 5.</b>
6	<b><u>VARIETY OF MENU:</u></b>
	(i) Has the school displayed its weekly menu at a place noticeable to community, and is it able to adhere to the menu displayed?
	All (40) sampled schools had displayed its weekly menu but they hardly adhered to the menu displayed.
	(ii) Who decides the menu?
	The State/District level officers of MDM decided the menu and a copy of such menu were provided to schools with a request to serve the MDM to their students according to the given menu.
	(iii) Is there variety in the food served or is the same food served daily?

	<p>Sampled schools of Siwan district are serving variety of food where it is being served. The food items i.e. khichari-chokha, rice-pulse &amp; vegetables, rice-rajma, Rice-nutrela etc. was served in sampled schools of this district where it is being served.</p>
	<p>(iv) Does the daily menu include rice / wheat preparation, dal and vegetables?</p>
	<p>Sampled schools of Siwan district included rice preparation, dal and vegetables in their daily menu where it is being served, while none of sampled schools of this district included wheat preparation in their daily menu. Green vegetables are rarely cooked in the sampled schools. <b>School-wise break-up may be seen in the Table No. - 6.</b></p>
7	<p><b><u>QUALITY &amp; QUANTITY OF MEAL:</u></b></p> <p>Feedback from children on –</p> <p>(i) Quality of meal:</p> <ul style="list-style-type: none"> <li>• When the MI observers asked the children, parents and community members about the quality of mid-day meal which was served in schools, it was discovered that they were not happy with quality of food. Most of schools served often either average or poor quality of food items in unhygienic condition. Food was cooked and kept in open and dirty ground.</li> <li>• The quality of meal was found average in 33 (82.5%) sampled schools while the quality of food was found poor in 3 (7.5%) sampled schools. On the other hand in 4 (10%) schools the MDM was completely closed due to lack of rice and previous HM was not given the charge to present HM.</li> <li>• Adequate number of plates was often not available in schools; therefore, many children bring their own plates for taking food.</li> <li>• <b>School-wise break-up may be seen in the Table No. - 7.</b></li> </ul>
	<p>(ii) Quantity of meal:</p> <p>When the MI observers asked the children, parents and community members about the quantity of mid-day meal which was served in the schools, it was discovered that they were not happy with quantity of food. Most of schools served insufficient quantity of food items; that too in unhygienic condition.</p> <p>Sufficient quantity of food items was served in 10 (25%) schools; while it was not found to be of sufficient quantity in 26 (65%) other schools.</p> <p>On the other hand, in 4 (10%) schools the MDM was completely closed due to lack of rice and previous HM was not given the charge to present HM.</p> <p><b>School-wise break-up may be seen in the Table No. - 7.</b></p>
	<p>(iii) If children were not happy, Please give reasons and suggestions to improve.</p> <p><b>Children were not happy with MDM because:</b></p> <ul style="list-style-type: none"> <li>• Bad quality of food materials is often served in unhygienic condition.</li> <li>• Food is cooked and kept in open and dirty ground.</li> <li>• They are forced to sit on the ground without any proper sitting arrangement like <i>tat-patti, carpet</i> etc.</li> <li>• Some children complained that they have to bring their own plates to eat the MDM.</li> </ul>

**Suggestions given by students for improvement in MDM:**

- Better quality of rice should be provided to the school authority.
- Better quality of pulse and green vegetables with proper quantity should be served by the school management.
- Fruits/Salad also must be included in the MDM.
- Food items must be served by the concerned authority as per the menu.
- Proper sitting arrangement facilities also should be provided in the school for MDM.
- Adequate utensils and plates should be available in schools for providing MDM.
- Proper monitoring is necessary for maintaining the quality and quantity of meal.

**Suggestions given by teachers for improvement in MDM:**

- Supply of rice should be regular
- Separate staff should be appointed to look after MDM in the school.
- @ Rs10/- per students should be given by the Govt. for better quality of meal.
- Adequate utensils and plates should be made available in schools for preparing and serving the MDM.

**Suggestions given by parents and community people for improvement in MDM:**

- Separate person should be appointed at CRC level to look after the MDM quantity and quality in the school.
- Block level authority must visit once in a week to see the MDM facilities in the schools.
- Concerned people must be punished for serving bad quality of meal.
- Better quality food should be provided to the children.
- Green vegetables should also be given to the students in MDM.
- Supply of rice should be regular in the schools.

**Suggestions given MI for improvement in MDM:**

- Food grains and cooking cost should be provided to the VSS/MTA of concerned school regularly.
- Block level authority must visit twice in a month to see the MDM facilities in the schools.
- Separate person should be appointed at CRC level to look after the quality of MDM in schools.
- Green vegetables should also be given to the students in MDM.
- Light food items may also be distributed among students at dismissal hours, so that the students may have incentive to wait till the school hours are over.
- Amount for MDM food items should be increased to Rs10/- per students for better quality of meal.
- Separate trained staff should be appointed to look after MDM in the school.
- The gas facilities should be provided to the schools for cooking the food.

	<ul style="list-style-type: none"> <li>• Adequate utensils and plates should be made available in the school for preparing and serving the MDM.</li> <li>• Fruits and Salad also should be given to the students for better nutrition at least twice in a week.</li> <li>• Provision should be made by the government for construction of a <b>dining hall</b> in each school where children may take their meal in properly manner and hygienic condition.</li> <li>• For different types of expenditure schools must maintain different account so that it gives clear picture.</li> <li>• The remuneration of cooks should be increased by another Rs.1000/- presently they are being given Rs. 1000/-which is insufficient.</li> </ul>
8	<p><b><u>SUPPLEMENTARY:</u></b></p> <p>(i) Is there school Health Card maintained for each child?</p> <p>In 18 (45%) sampled schools maintained the health card for each child, while 22 (55%) schools did not maintain the health card of any child. <b>School-wise break-up may be seen in the Table No. - 8.</b></p> <p>(ii) What is the frequency of health check-up?</p> <p>Health check-up of school students was done only one time in 18 (45%) sampled schools of Siwan district during 2011-12.</p> <p>(iii) Whether children are given micronutrients (iron, folic acid, vitamin – A dosage) and de-worming medicine periodically?</p> <p>Micronutrients (Iron, folic acid &amp; vitamin – A dosage) which are necessary for improving the health and proper growth of the children was provided only one time in 17 (42.5%) sampled schools of Siwan district during 2011-12. De-worming medicine was also given to the children only one time in 14 (35%) sampled schools of Siwan district during 2011-12.</p> <p>2. Who administers these medicines and at what frequency?</p> <p>The Medical Officer of Primary Health Center of concerned block administers these medicines. It was rarely distributed in different schools of concerned block as reported by HM, teachers, parents and community people of coverage area of schools.</p>
9	<p><b><u>STATUS OF COOKS:</u></b></p> <p>(v) Who cooks and serves the meal? (Cook cum helper appointed by the Department/VEC/ Self Help Group/NGO/Contractor)</p> <p>All (40) sampled schools of Siwan district MDM preparation and distribution are managed by the VSS of concerned school. Hence the cook-cum-helper is appointed by the VSS of the concerned school.</p> <p>(ii) Is the number of cooks and helpers engaged in the school as per GOI norms?</p> <p>None of the schools visited have got any guidelines of Government of India with regard to the number of cooks to be engaged by them. Therefore, they are not engaging proper numbers of cooks.</p>

	(iii) What is remuneration paid to cooks cum helpers and mode of payment?																
	Schools where MDM is cooked & served the honorarium of Rs.1000/- per month is paid to a cook. The HM reported to MI members that the remuneration of cooks/helpers was paid by them through banking channel. But their remuneration was not released by the concerned authority to the sampled schools from April, 2012.																
	(iv) Is the remuneration paid to cooks cum helpers regularly?																
	The remuneration of cooks/helpers was not paid regularly (i.e. once in a month). The cooks/helpers of sampled schools reported MI members that they did not receive their remuneration from April 2012. The HM, teachers and community people has also authenticated this matter.																
	(v) Specify the social composition of cooks cum helpers? (SC/ST/OBC/Minority)																
	Cooks/helpers of OBC category were found in majority of 29 (72.5%) sampled schools of Siwan district.																
	<table border="1"> <thead> <tr> <th>Sl. No.</th> <th>Caste Category</th> <th>No. of Sampled Schools</th> <th>Percent</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>SC</td> <td>28</td> <td>70.0</td> </tr> <tr> <td>2</td> <td>ST</td> <td>1</td> <td>2.5</td> </tr> <tr> <td>3</td> <td>Minority</td> <td>1</td> <td>2.5</td> </tr> </tbody> </table>	Sl. No.	Caste Category	No. of Sampled Schools	Percent	1	SC	28	70.0	2	ST	1	2.5	3	Minority	1	2.5
Sl. No.	Caste Category	No. of Sampled Schools	Percent														
1	SC	28	70.0														
2	ST	1	2.5														
3	Minority	1	2.5														
	<b>School-wise break-up may be seen in the Table No. - 9.</b>																
10	<p><b><u>INFRASTRUCTURE:</u></b></p> <p>Is a pucca kitchen shed-cum-store:</p> <ol style="list-style-type: none"> <li>8. Constructed and in use</li> <li>9. Scheme under which kitchen sheds constructed – MDM/SSA/Others</li> <li>10. Constructed but not in use (Reason for not using)</li> <li>11. Under construction</li> <li>12. Sanctioned, but construction not started</li> <li>13. Not sanctioned</li> <li>14. Any other (specify)</li> </ol>																
	<ul style="list-style-type: none"> <li>• The pucca kitchen shed-cum-store was available and also in use in 31 (77.5%) sampled schools of Siwan district and it was constructed under SSA scheme.</li> <li>• The pucca kitchen shed-cum-store was constructed but not in use in 1 (2.5%) sampled schools of Siwan district. The HM of concerned schools reported to MI members that- the size of the pucca kitchen shed-cum-store was not adequate as per the requirement. Therefore, additional room was engaged.</li> <li>• The pucca kitchen shed-cum-store was not sanctioned in 8 (20%) sampled schools.</li> </ul> <p><b>. School-wise break-up may be seen in the Table No. - 10.</b></p>																
11	In case the pucca kitchen shed is not available, where is the food being cooked and where the food grains /other ingredients are being stored?																

	<ul style="list-style-type: none"> <li>• In such situation in all the eight schools where kitchen was not sanctioned the food items were cooked and kept under thatched kitchen shed or in the open places or in a separate classroom.</li> <li>• The MDM food grains and other ingredients are kept in safe places inside the school (in the HM room/classroom).</li> </ul>
12	<p>Whether potable water is available for cooking and drinking purpose?</p> <p>Potable water was available in majority of (38) schools visited of Siwan district, but the number of hand pumps needed to be increased in some schools where the number of students was higher. In some schools the hand pumps are not in proper condition and it needs to be repaired. <b>School-wise break-up may be seen in the Table No. - 11.</b></p>
13	<p>Whether utensils are available for cooking food? If available, is it adequate?</p> <p>In Siwan district, utensils were available in all (40) sampled schools for cooking food. But adequate number of utensils was not available in majority (39) of sampled schools (97.5%) of this district as reported by HM and cooks/helpers of concerned schools. <b>School-wise break-up may be seen in the Table No. - 11.</b></p>
14	<p>What is the kind of fuel used? (Gas based/firewood etc.)</p> <p>All (40) sampled schools of Siwan district used firewood as fuel for cooking MDM.</p>
15	<p><b><u>SAFETY &amp; HYGIENE:</u></b></p> <p>General Impression of the environment, Safety and hygiene:</p> <p>(i) Are children encouraged to wash hands before and after eating?</p> <p>It was observed in sampled schools that teachers were encouraged their students to wash hands before and after taking meals.</p> <p>(ii) Do the children take meals in an orderly manner?</p> <p>There were 29 (72.5%) schools where children were found to take meals in an orderly manner in Siwan district, while in 7 (17.5%) schools children ate their meal here and there. The MDM was completely closed in 4 (10%) sampled schools of this district. <b>School-wise break-up may be seen in the Table No. - 12.</b></p> <p>(iii) Conservation of water?</p> <p>Children are not taught in school to conserve water while washing dishes in Siwan district. Therefore, only one sample school's children of this district used the practice of conserving water while washing dishes.</p> <p>(iv) Is the cooking process and storage of fuel safe, not posing any fire hazard?</p> <p>The cooking process and storage of fuel is safe in all sampled schools where MDM prepared in school.</p>
16	<p><b><u>COMMUNITY PARTICIPATION AND AWARENESS:</u></b></p> <p>Extent of participation by Parents/VSSs/VECs/Panchayats/Urban bodies in daily supervision, monitoring and participation.</p> <p>(i) Is any roster being maintained by the community members for supervision of the MDM</p>

	<p>Roster was not maintained by the community members for supervision of the MDM in any of the sampled schools of Siwan district.</p>																								
	<p>(ii) Are the parents/community members aware about the following?</p> <p>(a) Quantity of MDM per child:</p>																								
	<p>In all the 40 schools visited it was found that many of the parents and many among the community members of the schools are aware that MDM is provided to students @100 gram rice per child, per day for primary school (i.e. class I to V) and @150 gram rice per child per day for Upper Primary School (i.e. class VI to VIII).</p> <p>But, also there were parents and members of community who were not aware about FCI releasing rice.</p>																								
	<p>(b) Entitlement of quantity and types of nutrients in MDM per child as supplied in the menu:</p>																								
	<p>According to menu, the cooks/helpers have to cook rice @100 gram rice per child per day for primary school and @150 gram rice per child per day for Upper Primary School. Also, they prepared other things like vegetables, dal, rajama, karhi, nutrella, chokha etc. as per the menu.</p>																								
	<p>(c) General awareness about the overall implementation of MDM programme:</p>																								
	<p>The parents/community members were aware of the MDM programme. Their general awareness about the overall implementation of MDM programme was found satisfactory by the MI members. But they did not visit frequently in schools to look after the MDM programme.</p>																								
	<p>(d) Sources of awareness about the MDM scheme:</p>

17	<p><b>INSPECTION &amp; SUPERVISION</b></p> <p>(i) Has the mid day meal programme been inspected by any state/district/block level officers/officials?</p>																								
	<p>According to HM of sampled schools, the MDM programme was supposed to be inspected by the state/ district/ block level officers/officials in sampled schools of this district. But it was rarely inspected by the state/district/block level officers/officials in sampled schools of this district.</p>																								

	(ii) The frequency of such inspection?
	In Siwan district, MDM programme was not frequently inspected by the state/ district/ block level officers/ officials in sampled schools of this district. Block resource person of MDM visited respective schools of block once in a month only for data collection. The SDO/BEEOs/BRCCs of concerned block visited very few schools in a block of six months.
	(iii) Remarks made by the visiting officers? If any?
	Since hardly any visit was conducted, no remarks were found in either visiting register or in MDM registers.
18	<b>IMPACT</b>
	(i) Has the mid day meal improved the enrollment, attendance of children in school, any improvement in general well being, nutritional status of children?
	In fact the MDM has improved the enrollment and attendance of children in schools especially in rural areas. Comparatively at least the poor and below poverty line children were getting the kind of food which they would have otherwise not got at their homes. Thus, the MDM has attracted weaker sections of parents to send their children to school for education. The nutritional status of the children especially weaker section children has also improved.
	(ii) Is there any other incidental benefit to the children and school due to serving of mid-day-meal by VSS, VEC, and PRI members?
	The MDM has attracted the weaker section parents to send their children to school for education. Poor women got part time employment for preparing and serving MDM in the nearest school. The poor and below poverty line children get adequate nutrients and food through MDM. The dropout rate of children from schools is also decreasing with the help of this programme.
