**D.O. No. 7-1/2022-PMPOSHAN2-1**

**Dated the 27<sup>th</sup> October, 2023**

Respected Sir/Madam,

As you are aware, the PM POSHAN Management information System (MIS) has been established by this Ministry for online monitoring of the scheme across the country. This online MIS system helps to monitor PM POSHAN Scheme from the Central level to Block levels. The utility of the MIS is predicated on the base line data entered initially. Owing to your efforts, the Annual data entry was completed by 10.16 lakh (95%) schools out of 10.68 lakh. Indeed, a 9% progress at the national level, increasing from 86% to 95% schools annual data completion in just one month, is a positive and notable achievement.

2. In particular, some of the States and Union Territories have made great efforts in annual data entry for the PM POSHAN Scheme for more effective monitoring of the scheme. However, 7 States/UTs viz. A & N Islands(15%), Arunachal Pradesh(75%), Delhi(52%), Jammu & Kashmir(83%), Manipur(63%), Rajasthan(83%), Uttar Pradesh(82%) need to complete 100% schools of annual data entries. States and UTs wise details of annual data entry is placed at **Annexure-I**. In order to leverage full advantage of the MIS, all States/UTs need to reach 100%, which will be possible with a little more effort.

3. The monthly data entry of the schools into the MIS web portal is also important and is to be completed within 10 days after the end of the previous month. The monthly data entry module captures important data against parameters like coverage of children, school working days, consumption of food grains, payment to honorarium to Cook-cum-helpers, students' health checkup etc. under PM POSHAN Scheme. Various critical reports are being generated on the basis of these inputs for monitoring purposes of the scheme. However, the national average of monthly data entry completion has not been satisfactory according to the provided statistics. The percentages of schools completing data entry for the months of April, May, June, July, August and September are as follows: 90%, 90%, 88%, 84%, 74% and 57% respectively. The States/UTs monthly data entry status are placed at **Annexure-II**. Needless to say, many State/UTs need to put in additional efforts to make the monthly data entry up to date on a regular basis.

**Contd...2/**

4. Further, Automated Monitoring System (AMS) has been developed for real-time monitoring of the scheme in which every school Head Teacher or PM POSHAN in-charge who is looking after PM POSHAN in their schools, sends an SMS through their mobile on daily basis. It's notable that out of the total of 36 States and Union Territories, 20 have adopted the AMS application developed by NIC while the rest have developed their own applications. This system has proven to be highly valuable in facilitating real-time monitoring of the scheme's progress. The AMS generates critical and exceptional reports, which include information about schools where meals were not served for a certain number of days, as well as cases where meals have not been served continuously for a specific duration. These reports are accessible at different administrative levels, from the state to the district and even down to the block level. These reports offer valuable insights that enable swift corrective actions to be taken when issues arise. The report on the serving of meals in the schools on daily basis is available at the URL (<https://pmposhan-ams.education.gov.in>).

5. Unfortunately, the level of daily reporting under AMS in many States and UTs is still very low and a cause of concern. I would request that corrective action to be taken to improve reporting urgently. Please note that every day a system generated email is being sent to State Education Secretaries and Director/Commissioners PM POSHAN providing details of schools reported and also a list of the schools, Head Teachers mobile number where the meals were not served on a particular day along with the reasons of not serving meals. Therefore, you are requested to accord personal attention to this and issue instructions for daily monitoring. The States and UT wise detailed report is placed at **Annexure – III**.

6. Direct Benefit Transfer (DBT) monthly data entry is also one of the important regular activities to be completed in time every month. Every month, the DBT data entered into MIS Portal is being shared with DBT Bharat Mission, Cabinet Secretariat portal through webservice. The performance on the DBT monthly data entry is also unsatisfactory. The monthly data entry status report is placed at **Annexure – IV**.

7. Further, if you require any technical assistance, please do contact our MIS team, PM POSHAN, Ministry of Education. You are also requested to strengthen the technical team at State/UTs level for constant monitoring and technical facilitation and also analysis of data to ensure a robust MIS and AMS system that helps in enhanced monitoring and efficient implementation.

**Contd...3/-**

8. I shall appreciate if you could kindly ensure that adequate mechanisms are put in place for taking effective measures on the above points and advise the concerned officials of your State to extend their full cooperation in making correct and timely data entries of Annual, Monthly, DBT into the MIS and daily meal served report in AMS portals of PM POSHAN. An early action in this regard would be highly appreciated. Intervention on your part will ensure that the real time data on the implementation of the PM POSHAN is available to all the decision makers and implementers at various levels. Daily meals served data under PM POSHAN are being displayed on the public domain on the url <https://pmposhan-ams.education.gov.in>

Let us join hands to ensure that all eligible students get hot cooked meal on all school days.

With regards,

Yours sincerely,

*Prachi Pandey*  
(Prachi Pandey) 27.10.20xx

**Joint Secretary (Institution & PM POSHAN)**

To

The Principal Secretaries, Secretaries (Education) and Directors/Commissioners of PM POSHAN of all States and UTs
