	MME Plan Under Mid Day Meal Scheme for the Year 2020-21	

## **1. INTRODUCTION:**

Mid Day Meal Programme was introduced in 1925 for disadvantaged children in Madras Municipal Corporation, where the children are not going to the school.

By the mid 1980's Kerala, Gujarat, Tamilnadu and Pondicherry States have universalized a cooked Mid Day Meal Program for children studying at primary level and in 1990-91 twelve States also started implementing the Mid Day Meal Programme for primary level children with their own resources.

The National Program of Nutritional Support to Primary Education (NP-NSPE) was launched as a centrally sponsored scheme on 15<sup>th</sup> August 1995 in 2408 blocks in the country for enhancement of enrolment, retention, improvement of attendance and quality of education and improving of nutritional levels among children. By the year 1997-98 the NP-NSPE was introduced all districts of the country.

The Hon'ble Supreme Court of India in its direction in 2001 has linked the feeding Programme of the children to quality education Programme of Government. This was done to ensure that lesser number of children go to school hungry. This resulted in encouraging poor families to enroll their children in Government schools and thereby enable them to guarantee at least one square meal a day, called as Mid Day Meal. All State Governments in the country have to ensure that every child coming to a Government school gets one wholesome meal for lunch on school days.

Logistically, the problem was tackled through government schools that educate 60 per cent of the country's children, most of them being from below poverty-line. With parents (often single) going for wage labour early in the morning, the children usually come to school hungry because kitchen fires at home are only late in the evenings after the father or the mother brings home the daily wage.

To address the issue, the Government of India, in its wisdom, launched the Mid Day Meal scheme, It was designed to provide nutritiously cooked afternoon meal every day to every child enrolled in a Government school. The meal not only fights hunger, it brings a hungry child's attention back to the lessons, and it also encourages out-of-school children to get enrolled so that they can at least be assured of one wholesome meal every day.

The Mid Day Meal scheme is a well-intentioned Programme. Government of India has attempted to address the fundamental problems of Health, Nutrition, Education, and overall

development of children in the country by implementing the Programme all over the country. It provides children with at least one nutritionally adequate meal a day. This program is known to lead to higher attention spans, better concentration, and improved child performance. School meal program also provides parents, a strong incentive to send children to school, thereby encouraging enrollment and reducing absenteeism and dropout rates. It supports Health, Nutrition, and Education goals and consequently will have a multi-pronged impact on a nation's overall social and economic development.

There is also evidence to suggest that apart from enhancing school attendance and child nutrition, mid day meals have an important social value and foster equality. As children learn to sit together and share a common meal, one can expect erosion of **caste prejudices** and **class inequality**. Moreover, cultural traditions and social structures often mean that girls are much more affected by hunger than boys. Thus the Mid Day Meal Programme can also **reduce the gender gap** in nutrition and education, since it enhances girl child school attendance.

The contribution of mid-day meals to food security and child nutrition particularly crucial in tribal areas where hunger is endemic. School feeding Programme is a direct approach to **improve the nutritional status of the children** who are in the stage of rapid physical & psychological development requiring special nutritional requirements. The effect of Mid Day Meal Programme is that it has lowered the widespread incidence of malnutrition primarily among children of poor families and to increase their access to education.

### 1.1 Brief History:

Mid Day Meal Programme in undivided Andhra Pradesh and now in the separate state of Telangana.

In a significant interim order dated 28 November 2001, the Hon'ble Supreme Court issued directions pertaining to 8 food-related schemes sponsored by the Central Government. Briefly, the order directs the Union and State Governments to implement these schemes fully as per official guidelines. This, in effect, converts the benefits of these schemes into legal entitlements. The paragraph relating to mid-day meals reads as follows:-

***“Cooked Mid-Day Meal is to be provided in all the Government and Government Aided Primary Schools in all the states. In states, where the scheme is not operational, it is to be started in half the districts of the state (by order of poverty) by February 28th, 2002. By May 28, 2002, it is to be started in the rest of the districts too.”***

In accordance to the Hon'ble Supreme Court of India directions in 2001, the Government of Andhra Pradesh introduced cooked Mid Day Meal Programme covers all the children studying in all Government, Local body and Government Aided Primary Schools. Subsequently it was extended to children enrolled in Education Guarantee Scheme (EGS) and Alternative & Innovative Education (AIE) Centers including, NCLP, Madarasa and Maqtaba supported under SSA. Children enrolled in all Government, Local Body, Private Aided Primary and Upper Primary schools are now provided with the nutritional support.

The Central Govt. provides support to States and Union Territories for the following components:

- 1) Food grains @ 100/150 gms (Primary / Upper Primary & NCLP) per child, to all the students studying in Government, Local Body and Government Aided schools, covered under the programme.
- 2) Cooking assistance.
- 3) Transportation cost @ Rs.1113 per MT.
- 4) Honorarium to Cook cum Helpers @ Rs.1000/- P.M.
- 5) Assistance for management, monitoring and evaluation @ 2.7 per cent of components 1 to 4.

**The scheme in its first year of implementation, has led to the following positive outcomes:-**

- 1) Elimination of classroom hunger
- 2) Increase in enrollment, more significantly of girls
- 3) Increase in daily attendance, particularly of girls and children from poorer sections

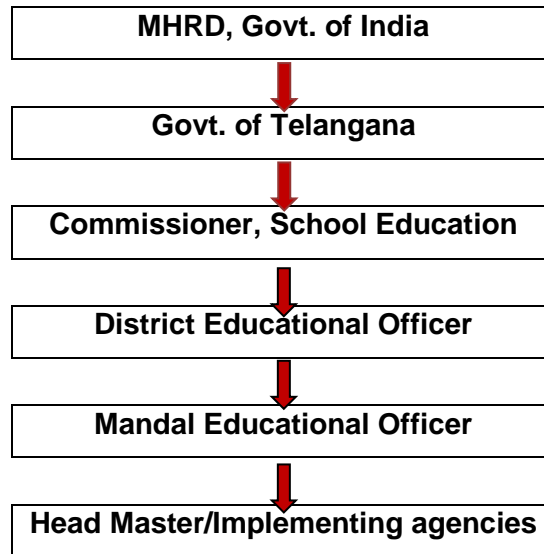

**Impact of Mid Day Meal Scheme is significant:**

- Mid Day Meal effectively alleviates classroom hunger and persuades poor families to send their children to school.
- The scheme has increased enrolment in schools.
- The Programme has reduced dropout rate.
- It has curbed teacher absenteeism and narrowed social distances.

The scope and effectiveness of Mid Day Meal Scheme has led to increased socialization among castes, addressed Malnutrition and women employment with the impact it has shown and the active convergence of other Departments like Health, Civil Supplies, Food Corporation of India, SamagraShiksha, Rural Development, Agriculture and Revenue Departments.

## **1.2 Management Structure:**

The Mid Day Meal Programme Management structure in Telangana is as follows:

## **1.3 Process of Plan Formulation at State and District Level:**

The Planning process of 2020-21 in Telangana State started in April, 2020 to May, 2020 through online mode.

In Telangana State superfine rice is being served in MDM in all the schools from 1-1-2015 onwards. Joint Collectors and DEOs have informed that the children are very happy in eating superfine rice and they are now consuming more quantity also.

### **2. Description and assessment of the programme implemented in the current year (2019-20) and proposal for next year (2020-21) with reference to:**

#### **2.1 Regularity and wholesomeness of mid day meals served to children; interruptions if any and the reasons therefor problem areas for regular serving of meals and action taken to avoid interruptions in future**

During the year 2019-20 the Mid Day Meal was served to school children regularly on all working days without any interruption.

The standardized menu suggested by the National Institute of Nutrition, Hyderabad and Home Science College, Agriculture University, Hyderabad were communicated to all the districts and they were allowed the flexibility to utilize locally available ingredients. Menu is flexible, with cooked rice, dal and vegetables, sambar, "Pulihora" (Tamarind rice) being generally the main menu. Egg is served thrice a week. The implementing agencies are using the seasonally available vegetables and green leaves. The wholesomeness of the meal provided is checked at random by various officials visiting schools. One Teacher from the School on rotation has been instructed to taste the Meal compulsorily to ensure its

wholesomeness before it is served to the children. One member of the School Management Committee (SMC) or any parent has also been requested to visit the school and ensure the quality of meal served every day.

On receiving complaint with regard to quantity/quality on the implementing agencies, immediate suitable action is being initiated against the defaulters. All the eligible children are covered under this Programme except a small percentage who prefer home meal. Eggs are served to children thrice a week. Guidelines are issued for procuring eggs at the Village Level. National Egg Coordination Committee rates are taken as the maximum limit for eggs procurement and supply.

In Urban areas, a committee headed by the Tahasildar identifies Community Development Societies, NGOs, Urban SHGs, DWACRA, School Education Committees and other Agencies as implementing agencies after verifying their antecedents.

The District and Mandal level Officers look after MDM along with their regular jobs.

## **2.24 Meetings of steering cum monitoring committees at the block, District and State Level:**

### **2.24.1 No. of meetings held at various levels and gist of the issues discussed in the meeting:**

Strengthening of Mandal level Monitoring Mechanism:

In Telangana 584 Mandals have been created in place of erstwhile Development Blocks. Tahsildar identifies and appoints the implementing agencies. He also monitors the functioning of the agencies. In case of any deviations, corrective action is taken by him. He also monitors the supply of food grains by the Civil Supplies Department field staff.

1. Mandal Educational Officer MEO along with Cluster Resource Persons (CRPs) monitors the quality and supply of regular hot cooked food in all the schools in the Mandal.

To strengthen the Monitoring Mechanism of the Mid Day Meal Programme at the Mandal level Government of Telangana have taken a decision to engage the services of (1) Data Entry Operator per Mandal on payment of Rs.10/- per school per month. The expenditure is met from the MME head of Mid Day Meal Programme budget.

2. School Management Committees:

As per RTE Act 2009, in 18966 Primary schools and in 8323 Upper Primary Schools, 27732 SMCs are constituted.

The SMC Members are invariably parents of the school children. They actively participate in cooking and serving of Mid Day Meal every day. At least one parent is invited to be present while the food is cooked and served. Before the food is served they are also requested to taste the food and check the quality.

The lady SMC Members are also members of Self Help Groups and are entrusted with the responsibility of cooking the Meal as implementing agencies.

#### **2.24.2 Action taken on the decisions taken during these meetings:**

As per the RTE Act. 2009, and Government of India guidelines, each and every decision to be implemented at the school point has to be taken by the resolution of school management committee only. ### **2.29 Details regarding Awareness Generation & IEC activities and media Campaign, carried out at State/District/Block/School level:**

The objectives of the scheme and information with regard to other components of the scheme are being published by the DEOs through pamphlets etc., and being made available to the parents of the students. Menu is being displayed on prominent place of the school and during the parent teacher meetings etc., the parents are being informed of the scheme.

CDs on the implementation of the scheme were distributed to the State Resource Persons during the training held at Dr. MCRHRD, Hyderabad. Standard Operating Procedures (SOPs) and Do's and Don'ts are also being printed for distribution to all the schools in the State.

### **2.30 Overall assessment of the manner in which implementation of the programme is contributing to the programme objectives and an analysis of strengths and weaknesses of the programme implementation.**

Mid Day Meal Scheme has undoubtedly resulted in increased school attendance and facilitated in retention of children in school for a longer period. The Scheme has played a crucial role in reducing drop out, especially among girls. Parents viewed that the mid day meal had reduced the burden of providing one time meal to their children while they were away from

home in the afternoons and considered it as a great support to their families. Teachers opined that mid day meal aided in active learning of children, which indirectly improved their academic performance.

1. Class room hunger eliminated:

Mid Day Meal helps the malnourished and well nourished children to overcome short term hunger and thereby **increase their concentration and learning** inside the classroom. It not only takes care of the dietary gap but can also be effective in ensuring that short-term hunger does not inhibit their capacity to learn (Mathew, 2003). This programme has created a very congenial atmosphere for education, health growth and overall well-being of the poor and needy children Drop out rate reduced:

2. Increase in Retention rate and decrease in drop out rate:

Results of the study on the educational component indicated improved attendance, increased retention rate with reduced dropout rates, and a marginal improvement in the scholastic performance. The nutritional component revealed better growth performance among the regular beneficiaries in the program. The MDM program acts as a security net for children, cushioning them from negative nutritional factors; in particular, among younger children, there are large and significant gains for children who suffered from the impact of drought.

3. Gradual increase in quality (Students' performance) :

Brain development and cognitive abilities for the entire life are strongly determined by the nutritional status of the child. Malnutrition –that is, deficiencies in micronutrients - can be seen as a “silent hunger” in which cognitive development is affected. Nutrition clearly determines the future learning, working and thinking performance of children. Introduction of Mid Day Meal Scheme has tackled the problem of hunger among the students and has helped in the increase in the performance of the students.

4. Community Participation:

The involvement of the mothers of the children in the MDM programme made the programme successful leaving little room for corruption and has dramatically improved the quality of the meal. The mothers' group of each school selects from among themselves those who will cook and serve the meals. The involvement of the mothers in the meal programme has had many positive spin-offs. Their presence on the school premises and the constant and regular monitoring by the State authorities ensure that teachers do not absent themselves from work and classes are run on a regular basis.

5. Women empowerment achieved:

Majority of CCHs involved in the MDM scheme are women. The MDM scheme provides an excellent opportunity for female employment in rural areas and liberating working women from the burden of having to feed the children at home during the day.

## 6. Social distances eliminated:

The impact of the programme was found to be more impressive among the SC, ST and Muslim households. Apart from the impact of the programme on the rate of attendance of children, parents pointed towards the invaluable nutrition support provided for the children, particularly of the poor family background. It is also reducing the gaps of social distances (caste, religion, gender, etc.)

Social group wise details of Cook cum Helpers:

<b>Gender</b>	<b>SC</b>	<b>ST</b>	<b>OBC</b>	<b>Minority</b>	<b>Others</b>	<b>Total</b>
Male	1530	1116	3156	782	424	7008
Female	11091	8926	23010	2555	1611	47193
<b>Total</b>	<b>12621</b>	<b>10042</b>	<b>26166</b>	<b>3337</b>	<b>2035</b>	<b>54201</b>

## 7. MDM Programme far more strengthened: -

The MDM programme had a significant impact on improving the daily participation rates of children in lower grades. The average monthly attendance rate of girls is higher while there was a positive but insignificant effect on grade one boys' attendance rate. The impact on enrolment levels was insignificant.

There is no problem with the release of funds needed for implementation of the programme.

Involvement of all the officials from State level to school level also helped the smooth functioning of the scheme. Inspections of the schools by the visiting officials and tasting of food by them ensured that quality food is served to the children.

Monitoring Cell formation and Grievance Cell formation ensured instant solving of problems, if any.

Instructions issued from State level authorities in Video conferences also strengthened the scheme.

### 2.31 Action plan for ensuring enrolment of all school children under Adhaar before the stipulated date:

94% of enrolled students are having AADHAR. AADHAR kits are supplied to the Mandal points to ensure 100% enrollment of Aadhar.

### **2.39 Any other issue and suggestions:-**

1. Accord permission to engage one computer operator at mandal point to attend the data entry, collection of information from schools and preparation of bills and other related MDM work is needed.
2. Need more active Community participation in the sense they should voluntarily come forward to help the school authorities in properly serving the MDM to the students. Action in this regard is being taken.
3. Sanction and timely release of adequate budget will be ensured as the Government is in favour of admitting payments pertaining to MDMS under Green Channel.

4. Subsidy on gas should be constituted as its withdrawal is discouraging the cooking agencies from using the gas under MDMS.
